Sex Therapy Manual:

Sensate Focus in Sex Therapy Linda Weiner, Constance Avery-Clark, 2017-02-24 Sensate Focus in Sex Therapy The Illustrated Manual is an illustrated manual that provides health professionals with specific information on the use of the structured touching opportunities used regularly by Sexologists to address their clients sexual difficulties Sensate Focus 1 and enhance intimate relationships Sensate Focus 2 This book is the only one to vividly describe and illustrate the specific steps of activities involved in and positions associated with Sensate Focus emphasize the purpose of Sensate Focus as a mindfulness based practice and distinguish between the purposes of Sensate Focus 1 and Sensate Focus 2 Through the use of artful drawings and descriptive text this manual engages mental health and medical professionals and their clients by appealing to both the visual and the analytical It discusses how modifications to Sensate Focus can be applied to diverse populations such as LGBTQ clients the elderly the disabled trauma survivors and those with challenges such as Autism Spectrum anxiety and depression The book also offers suggestions for dealing with common client difficulties such as avoidance confusion and goal directed attitudes This comprehensive approach to Sensate Focus will remind readers of the beauty and power of touch while offering suggestions for moving from avoidance to sensory transcendence *Handbook of Sex Therapy* Joseph LoPiccolo, Leslie LoPiccolo, 2012-12-06 When is it timely to publish a synthesis of previously published and original materials from a specific discipline I believe it to be timely when one has a sufficient amount of high quality material covering the critical areas of that topic when the previously published material is scattered over a wide range of journals and books and when there is no single book that synthesizes the discipline The treatment of sexual dysfunction emerged to the front lines of health delivery only during the past decade with the pioneering work of William Masters and Virginia Johnson In spite of the rash of sex clinics and sex therapists that followed precious little solid research has been conducted on the various strategies of therapy the means of assessing complex interpersonal sexual relationships and the manner by which clinical change is objectively assessed No one reader can keep pace with the multitude of journals that publish key material by sophisticated investigators And no one investigator can cover these salient areas alone with his or her original work in a single volume The critical papers have now been written Ten were written specifically for this volume and thirty three have previously appeared This volume laces them together into a coherent pattern Thus the time for a synthesis in sexual dysfunction The Illustrated Manual of Sex Therapy, 1975 **Sex Therapy Manual** Patricia Gillan, 1987 **The Wiley Handbook of Sex Therapy** Zoë D.
