Sexism The Male Monopoly On History And Thought:

Sexism Marielouise Janssen-Jurreit, 1976 **Myth, Matriarchy and Modernity** Peter Davies, 2010-02-26 This study explores the prevalence in German culture of myths about ancient matriarchal societies discussing their presence in left and right wing politics feminist and antifeminist writing sociology psychoanalysis and literary production By tracing the influence of the works of the Swiss jurist and theorist of matriarchy Johann Jakob Bachofen 1815 1887 and the controversies about the reception and interpretation of his work this study shows how debate about the matriarchal origins of culture was inextricably linked with anxieties about modernity and gender identities at the turn of the twentieth century By moving beyond the discussion of canonical authors and taking seriously the scope of the discussion it becomes clear that it is not possible to reduce matriarchal theories to any particular political ideology instead they function as a mythic counterdiscourse to a modernity conceived as oppressive rational and masculine Writers considered include Ludwig Klages Hofmannsthal Kafka Hauptmann Lou Andreas Salom Sir Galahad Clara Viebig Mathilde Vaerting Thomas Mann Elisabeth Langgesser Ilse Langner Otto Gross Franz Werfel and many others *Feminist Interpretations of G. W. F. Hegel* Patricia Jagentowicz Mills, 2010-11-01 **Male Homosexuality** Richard C. Friedman, 1990-03-07 Discusses gender identity homosexuality as arrested development sexual preference character pathology masochism sexual fantasy and psychoanalysis The Role of Gender in Practice Knowledge Josefina Figueira McDonough, F. Ellen Netting, Ann Nichols Casebolt, 2018-10-24 Feminist critiques of the social sciences are based on the assumption that because the social sciences were developed for the most part by white middle class Western men the perspectives of women were ignored This book offers an approach for integrating gender related content into the social work curriculum The distinguished contributors discuss the shortcoming of dominant knowledge address the pressing need for a gender integrated curriculum consider the pedagogies consistent with the implementation of an integrate curriculum address specific areas in social work education assessing content and assumptions and discuss strategic issues for the implementation of curricular knowledge The Myth of Matriarchal Prehistory Cynthia Eller, 2001-04-13 According to the myth of matriarchal prehistory men and women lived together peacefully before recorded history Society was centered around women with their mysterious life giving powers and they were honored as incarnations and priestesses of the Great Goddess Then a transformation occurred and men thereafter dominated society Given the universality of patriarchy in recorded history this vision is understandably appealing for many women But does it have any basis in fact And as a myth does it work for the good of women Cynthia Eller traces the emergence of the feminist matriarchal myth explicates its functions and examines the evidence for and against a matriarchal prehistory Finally she explains why this vision of peaceful woman centered prehistory is something feminists should be wary of Günter Grass and His Critics Siegfried Mews, 2008 A comprehensive narrative overview and analysis of the criticism of the controversial German author's works When the Swedish Academy announced that Günter Grass had been awarded the

1999 Nobel Prize for Literature it singled out his first novel *The Tin Drum* 1959 English translation 1963 as a seminal work that had signaled the postwar rebirth of German letters auguring a new beginning after decades of linguistic and moral destruction. Nearly fifty years after its publication the novel's significance has been generally acknowledged; it is the uncontested favorite among Grass's works of fiction on the part of reading public and critics alike yet its canonical status tends to obscure the decidedly mixed and even hostile reactions it initially elicited. Along with *The Tin Drum* Grass's impressive body of literary work since the 1950s has spawned a cottage industry of Grass criticism making a reliable guide through the thicket of sometimes contradictory readings a definite desideratum. Siegfried Mews fills this lacuna in Grass scholarship by way of a detailed but succinct descriptive as well as analytical and evaluative overview of the scholarship from 1959 to 2005. Grass's politically motivated interventions in public discourse have kept him highly visible blurring the boundaries between politics and aesthetics. Mews therefore examines not only academic criticism but also the daily and weekly press and other news media providing additional insight into the reception of Grass's works. Siegfried Mews is Professor of German at the University of North Carolina at Chapel Hill.

Class, Race, and Gender in American Education
 Lois Weis, 1988-07-08 Most educators might agree that the hidden agendas on class, race, and gender to a large extent condition and determine the form and the content of schooling. But how much of this situation is due to school factors and how much to social background factors is heatedly discussed and debated by scholars working within both the mainstream and critical traditions in the field of education. *Class, Race, and Gender in American Education* represents a groundbreaking overview of current issues and contemporary approaches involved in the areas of class, race, and gender in American education. In this book the first to combine a consideration of these issues and to investigate the manner in which they connect in the school experience, authors consider the particular situations of males and females of divergent racial and class backgrounds from their earliest childhood experiences through the adult university years. While providing valuable original in-depth ethnographic and statistical analyses, the volume also incorporates some of the important current theoretical debates. The debate between structuralists and culturalists is highlighted, for example.

Gender and Power in the Third Reich V. Joshi, 2003-07-08 This book examines the everyday operations of the Gestapo, the Nazi secret police. The Gestapo were able to detect the smallest signs of non-compliance with Nazi doctrines, especially crimes pertaining to the private spheres of social, family, and sexual life. One of the key factors in the enforcement of Nazi policies was the willingness of German citizens to provide the authorities with information about suspected criminality. This book examines women denouncers in Nazi Germany through close examination of the Gestapo files. The author seeks to answer questions about how women in particular used denunciation and why so many ordinary women denounced deviants and dissenters to the Gestapo.

Human Insecurity David Roberts, 2013-07-04 Human Insecurity is concerned with our refusal to confront the millions of avoidable deaths of women and children each year Those missing millions are rarely the subject of conventional security studies yet such avoidable deaths are a vital part of the notion of security more broadly understood The book argues that such deaths are caused by the man made structures of neoliberalism and andrarchy and argues that the debate on human security can be reinvigorated by looking at the unarmed civilian role in causing the deaths of millions of innocent people from child deaths from preventable disease to honour killings David Roberts claims that by facing up to this relationship between social structures and massive avoidable human suffering we can create another system less prone to global violence This book is a powerful intervention in the debate on human security and an urgent call to face up to our responsibilities to the millions killed needlessly each year
