Romantic Love and Sexual Behavior Victor C. de Munck, 1998-04-16 Westerners believe that love makes life worth living that sex is a natural desire different in kind from love and that only cynics reduce our love life to a calculation of economic or genetic factors In this volume essays explore these and other assumptions about the relationship between romantic love and sex This represents the first interdisciplinary social science study of love and sex Contributors ask and answer questions such as Is love just sex idealized or is it a transcendent and divine emotion Is love a cultural construct that is shared by members of the same culture or is it a matter of personal taste What keeps promiscuous people from using condoms even when they know they are at risk Are black professional men so rare that their conceptions of love and sex differ from those of white professional men Are brutal sexual fantasies an exclusively male domain and are they always excluded from love fantasies among normal adolescents Is divorce a culturally induced response to evolutionary reproductive strategies that compel individuals to maximize their genetic legacy Are marriages or relationships less satisfying or stable when an actual mate falls short of the fantasy of the ideal mate Is there a universal core to love and sex that is camouflaged by other cultural norms such as modesty and sexual segregation Is rape perceived as more acceptable when the rapist says he was motivated by love What do cult movements and romantic love have in common As they attempt to answer these and other questions the authors extend our understanding of the variety of ways that love and sex are conceptualized connected or separated

Sexual Discretion Jeffrey Q. McCune, Jr., 2014-03-07 African American men who have sex with men while maintaining a heterosexual lifestyle in public are attracting increasing interest from both the general media and scholars Commonly referred to as down low or DL men many continue to have relationships with girlfriends and wives who remain unaware of their same sex desires and in much of the media DL men have been portrayed

as carriers of HIV who spread the virus to black women Sexual Discretion explores the DL phenomenon offering refreshingly innovative analysis of the significance of media space and ideals of black masculinity in understanding down low communities In Sexual Discretion Jeffrey Q McCune Jr provides the first in depth examination of how the social expectations of black masculinity intersect and complicate expressions of same sex affection and desire Within these underground DL communities men aren't as highly policed and thus are able to maintain their public roles as properly masculine McCune draws from sources that range from R and from E Lynn Harris's contemporary sexual passing novels to McCune's own interviews and ethnography in nightclubs and online chat rooms Sexual Discretion details the causes pressures and negotiations driving men who rarely disclose their intimate secrets New Feminist Stories of Child Sexual Abuse Paula Reavey, Sam Warner, 2003 Child sexual abuse is a multifaceted event interpreted in many different ways in many different contexts In New Feminist Stories of Child Sexual Abuse contributors try to untangle some of the complex ways in which stories of child sexual abuse are translated through and into personal professional and social politics The first section of the book explores the cultural and political landscape of child sexual abuse in Western and non Western contexts It examines the ways in which radical aspects of feminism can be undermined in Western cultures and how Westernised ideologies of childhood sex and gender have been used to structure discussions about child sexual abuse across the world The second section traces the effects of these wider cultural and political narratives through the various contexts in which child sexual abuse is theorised and around which interventions in the lives of women are structured It provides insights into how traditional approaches to understanding harm can be challenged and reworked in practice using alternative therapeutic models based on feminist post structuralist agendas Reworking earlier feminist analyses New Feminist Stories of Child Sexual Abuse asks pertinent questions about how child sexual abuse is produced rather than merely represented in the ways we speak about it

Bauer, 2009-01-01 American women novelists of the late nineteenth and early twentieth centuries registered a call for a new sexual freedom. Dale Bauer contends By creating a lexicon of sex expression many authors explored sexuality as part of a discourse about women's needs rather than confining it to the realm of sentiments where it had been relegated if broached at all by earlier writers. This new rhetoric of sexuality enabled critical conversations about who had sex when in life they had it and how it signified. Whether liberating or repressive sexuality became a potential force for female agency in these women's novels. Bauer explains insofar as these novelists seized the power of rhetoric to establish their intellectual authority. Thus Bauer argues they helped transform the traditional ideal of sexual purity into a new goal of sexual pleasure defining in their fiction what intimacy between equals might become. Analyzing the work of canonical as well as popular writers including Edith Wharton Anzia Yezierska Julia Peterkin and Fannie Hurst among others Bauer demonstrates that the new sexualization of American culture was both material and rhetorical. *Sexuality & Space* Beatriz Colomina, Jennifer Bloomer, 1992 Both timely and well worth the time. Body Technologies in the Greco-Roman World Maria Gerolemou, Giulia Maria Chesi, 2023-11-16 A collection of papers that introduces the notion of the technosoma techno body into discussions on the representations of the body in classical antiquity By applying the category of the technosoma to the natural body this volume explicitly narrows down the discussion of the technical and the natural to the physiological body In doing so the present collection focuses on body technologies in the specific form of beautification and body enhancement techniques as well as medical and surgical treatments The volume elucidates two main points Firstly ancient techno bodies show that the categories of gender and sexuality are at the core of the intersection of the natural and the technical and intersect with notions of race age speciesism class and education and disability Secondly the collection argues that new body technologies have in fact a very ancient history that can help to address the challenges of contemporary technological innovation To this end the volume showcases the intersection of natural bodies with technology gender sexuality and reproduction On the one hand techno bodies tend to align with normative ideas about gender and sexuality On the other hand body modification and or enhancement techniques work hand in hand with economic and political power and knowledge thus they often produce techno bodies that are shaped according to individual needs i.e. according to a certain lifestyle Consequently techno bodies threaten to alter traditional ideas of masculinity femininity male and female sexuality and beauty
