Sexual Harassment A Debate:

Sexual Harassment Linda LeMoncheck, Mane Hajdin, 2000-01-01 The question of what constitutes sexual harassment from suggestive remarks to outright threats from off color jokes to lewd posters on office walls is contentious as is the question of how to address sexual harassment Do all instances of sexual harassment constitute sex discrimination Are some instances merely sexual attraction gone wrong Do social policies aimed at eliminating sexual harassment in the workplace violate freedom of expression or do they make working relationships possible between women and men In this uncompromising yet respectful debate two philosophers of widely divergent views present clear arguments and then respond directly to each other's reasoning LeMoncheck argues for a feminist perspective on sexual harassment that is sensitive to the politics of gender Hajdin contends that this perspective is both morally confusing and legally problematic and that sexual harassment can be better addressed by traditional moral and legal categories

Debating Sex Work Lori Watson, Jessica Flanigan, 2020 Prostitution is often referred to as oldest profession Critics of this expression redescribe it as the oldest oppression Debates about how best to understand and regulate prostitution are bound up with difficult moral legal and political questions Indeed it can be approached from numerous angles is buying and selling sex fundamentally wrong How can it possibly be regulated How can sex workers be protected if they are allowed to work at all In this concise for and against volume ethicists Lori Watson and Jessica Flanigan engage with each other on the nature and consequences of sex work revealing new and profound ways in which to understand it The volume opens with a joint introduction before Lori Watson first argues for a sex equality approach to prostitution in which buyers are criminalized and sellers are decriminalized also known as the Nordic model Watson defends the Nordic Model on the grounds that prostitution is an exploitative and unequal practice that only entrenches existing patterns of gendered injustice Full decriminalization of prostitution only stymies existing occupational health and safety standards and securing worker autonomy and equality Further to Watson drawing a distinction between sex trafficking and prostitution is irrelevant for public policy what underpins them is demand which fuels the inequalities of both That is what needs to be addressed In a rebuttal Jessica Flanigan contends that sex work should be fully decriminalized because restrictions on the sale and purchase of sex violate the rights of sex workers and their clients She argues that decriminalization is preferable to policies that could expose sex workers and their clients to criminal penalties and leave them at the mercy of public officials Putting these two views on sex work into conversation with one another and opening up space for readers to weigh both approaches the book provides a thorough accessible exploration of the issues surrounding sex work written with both sympathy and philosophical rigor

Diversity and Discrimination in Research Organizations Clemens Striebing, Jörg Müller, Martina Schraudner, 2022-12-01 The ebook edition of this title is Open Access and freely available to read online Diversity and Discrimination in Research Organizations considers whether and to what extent the social identity of the academic workforce affects their individual integration in research organizations Culture Wars Roger Chapman, 2015-03-17 The term culture wars refers to the political and sociological polarisation that has characterised American society the past several decades This new edition provides an enlightening and comprehensive A to Z ready reference now with supporting primary documents on major topics of contemporary importance for students teachers and the general reader It aims to promote understanding and clarification on pertinent topics that too often are not adequately explained or discussed in a balanced context With approximately 640 entries plus more than 120 primary documents supporting both sides of key issues this is a unique and defining work indispensable to informed discussions of the most timely and critical issues facing America today *Generation F* Virginia Trioli, 2019-11-15 For me these Ormond College women were and are the first voices of the revolution that is MeToo in Australia Twenty five years ago Australia was in the grip of another debate about sex and power The Master of Ormond College at the University of Melbourne had been acquitted of indecent assault after complaints by two female students Helen

Garner's bestselling book about the case *The First Stone* polarised readers over whether the students had been right to take their allegations to the law. Was the feminist movement poisoning gender relations? In *Generation F*, the young award-winning journalist Virginia Trioli offered a vigorous incisive and compelling argument for the ongoing need for feminism while exploring her own bewilderment and anger. She described the real state of sexual harassment, violence, the workplace and the law in Australia: how most women just coped with it but those who felt able to confront it needed all the support they could get. Now as women around the world speak up about how sexual harassment has destroyed their work families and lives, Trioli revisits that cultural moment in a new foreword and in a new afterword considers the situation women face today.

Dismayingly, her original text is just as relevant and her call to action just as powerful. **Identity Crisis** John Sides, Michael

Tesler, Lynn Vavreck, 2019-08-13 In this gripping in-depth account of the 2016 presidential election, authors Sides, Michael

Tesler and Lynn Vavreck reveal how Trump's victory was foreshadowed by changes in the Democratic and Republican

coalitions that were driven by people's racial and ethnic identities. **Moral Combat** R. Marie Griffith, 2017-12-12 From an

esteemed scholar of American religion and sexuality, a sweeping account of the century of religious conflict that produced our

culture wars. Gay marriage, transgender rights, birth control, sex is at the heart of many of the most divisive political issues of

our age. The origins of these conflicts, historian R. Marie Griffith argues, lie in sharp disagreements that emerged among

American Christians a century ago. From the 1920s onward, a once solid Christian consensus regarding gender roles and

sexual morality began to crumble as liberal Protestants sparred with fundamentalists and Catholics over questions of

obscenity, sex education and abortion. Both those who advocated for greater openness in sexual matters and those who

resisted new sexual norms turned to politics to pursue their moral visions for the nation. *Moral Combat* is a history of how the

Christian consensus on sex unraveled and how this unraveling has made our political battles over sex so ferocious and so

intractable. House of Commons Debates, Official Report Canada. Parliament. House of Commons, 2005 **The**

Electronic Grapevine Diane L. Borden, Kerric Harvey, 2013-11-05 The widespread use of the Internet as a tool for gathering

and disseminating information raises serious questions for journalists and their readers about the process of reporting

information. Using virtual sources and publishing online is changing the way in which journalism takes place and its effect on

the society it serves. **USE LAST THREE PARAGRAPHS ONLY FOR GENERAL CATALOGS** *The Electronic Grapevine* explores

the use of online media by reporters in the United States and examines the impact that usage may have on how journalism is

framed in the cultural sphere as well as how it is conducted in the professional one. It contains a mix of material examining

how it feels to do online journalism, how it affects those who consume it, different ways that media scholars go about trying to

understand it better and the likely social and cultural impact of Internet-like technologies on the public at whom all this

electronic information is eventually aimed. Drawing from the emerging scholarly work in the field and from the real-life

experiences of working journalists, Borden and Harvey collect contributions that examine why journalists use the Internet.

what changes it makes in how they approach their jobs and what differences they see in conducting their daily newsgathering with this medium rather than other methods The volume also analyses when and why journalists do not use online media and what the impact of the decision to use or not use the Internet may mean for the outer world whose perceptions of itself are so often shaped by journalistic portrait This series of thought provoking original essays explores the impact of computer based information and communication services on traditional journalistic routines and practices and thereby addresses a critical gap in the scholarly literature on communication law and culture Distinguishing between linkage devices like the Internet and database resources such as LEXIS NEXIS America Online and others this book examines the ways in which both types of online services may reshape and redefine not only the products of journalistic effort but the newsgathering process itself *Sexual Harassment in the Workplace: Law & Practice, 5th Edition* Conte, 2019-11-13 Sexual Harassment in the Workplace Law and Practice
