Byrd, Harvey McCloud, 2021-01-14 Prisoners released from our bloated American correctional institutions return to a mostly unwelcoming society where they face onerous post release challenges No wonder recidivism is near fifty percent adding tens of billions of dollars annually to the cost of American prisons Sisyphus No More is a multifaceted argument for increasing prisoner education and training programs to promote the reintegration into society of returning prisoners and increase the likelihood of their securing living wage jobs By greatly reducing recidivism the programs will pay for themselves several times over Such programs also humanize the treatment of prisoners and help them escape the fate of Sisyphus the mythological king condemned to a bitterly repetitive fate The book has two parts The first provides background on the American prison system and enumerates the tolls incarceration takes on prisoners their families and their communities and the costs released prisoners continue to pay that severely hinder their reintegration In the second part the authors set forth compelling psychological sociological ethical and financial grounds for increasing education and training to support the reintegration of released prisoners The final two chapters report on innovative prison education programs and identify steps toward making education and training a priority in our prisons **No More Violence: All You Need To Do Is Speak Up** Dr. Sanya Khan, 2022-11-04 Domestic violence against women is a prevalent issue However determining its full extent is difficult It could be far higher than stated because

many cases of domestic violence against women are not reported During the COVID 19 lockdown our country saw a significant surge in incidences of domestic violence A woman frequently believes that the abuse she experiences is her fault and that she has made a mistake This conclusion is incorrect abuse is the fault of the abuser not the victim Estimates of violence in our country are higher than official records Women may fail to report family violence for a variety of reasons Because they don't know how to deal with domestic abuse or whom to approach and what are the laws and schemes for their empowerment In contrast to this point of view the current book which is based on research in Doda contrasts this point of view by shedding light on the types signs and causes of domestic violence as well as its effects on women's mental health Additionally it brought to light the violence committed by parents against their daughters and the various women focused schemes run by the Ministry of Women and Child Development that assist women in coping with domestic violence and gaining independence so that they are not dependent on anyone
