saw as heretics The Age of Reason saw the demise of these inquisitions But it was doctors who would take over the roles of priests and ministers as sex became defined by discourses of crime degeneracy and sickness The middle of the 20th century saw these medical and religious teachings challenged for the first time as activists such as Alfred Kinsey and Margaret Sanger sought to carve out a place for sexual freedom in society However strong opposition to their beliefs and the growing exploitation of sex by the media at the close of the century would ultimately shape 21st century sexual ambivalence Book One of this two part publication traces the history of sex from the Stone Age to the Enlightenment Interspersed with personal hauntings from his own life and the lives of friends and relatives Knowles reveals how historical discourses of sex continue to haunt us today This book is a page turner in simple and plain language about how sex got screwed up for millennia For Knowles if we know the history of sex we can get over it

The Catholic Church on Marital Intercourse Robert Obach, 2008-12-16 The Catholic Church on Marital Intercourse traces the development of the Church s theology of marital sexuality from New Testament times to the present day The early ecclesial leaders promoted a theology of sexuality based on Stoicism s biological perception that sexual activity was solely for the purpose of reproduction Only in the early twentieth century did a few theologians begin to move beyond discussing the purposes of marital intercourse to discussing the meaning that the marital act might have for the spouses themselves With the Second Vatican Council 1962 1965 a new and positive view of marital sexuality emerged recognizing the Pauline view that the couple s marital acts express their love for each other along the lines of Christ s love for his church Ephesians 5 In sum The Catholic Church on Marital Intercourse treats the way in which the Catholic Church has moved away from an attitude of conditional acceptance of marital intercourse on the basis of its utility to recognition that the dynamics of sexual union are both good and holy not only because that is the way children are conceived but also because the marital act enhances the love of husband and wife for each other

A Cultural History of Marriage in the Age of Enlightenment Edward

Behrend-Martínez,2021-11-18 Could an institution as sacred and traditional as marriage undergo a revolution Some people living during the so called Age of Enlightenment thought so By marrying for that selfish personal emotion of love rather than to serve religious or family interests to serve political demands or the demands of the pocketbook a few but growing number of people revolutionized matrimony around the end of the eighteenth century Marriage went from being a sacred state instituted by the Church and involving everyone to for a few intrepid people a secular contract a deal struck between two individuals based entirely on their mutual love and affection Few would claim today that love is not the cornerstone of modern marriage The easiest argument in favor of any marriage today no matter how star crossed the individuals is that the couple is deeply and hopelessly in love with one another But that was not always so clear Before the eighteenth century very few couples united simply because they shared a mutual attraction and affection for one another Yet only a century later most people would come to believe that mutual love and even attraction were necessary for any marriage to succeed A Cultural History of Marriage in the Age of Enlightenment explores the ways that new ideas cultural ideals and economic changes big and small reshaped matrimony into the institution that it is today allowing love to become the ultimate essential ingredient for modern marriages A Cultural History of Marriage in the Age of Enlightenment presents an overview of the period with essays on Courtship and Ritual Religion State and Law Kinship and Social Networks the Family Economy Love and Sex the Breaking of Vows and Representations of Marriage
