divisive as abortion homosexuality pornography and contraception Overturning a raft of contemporary shibboleths Stone reveals that at the time the Constitution was adopted there were no laws against obscenity or abortion before the midpoint of pregnancy A pageant of historical characters including Voltaire Thomas Jefferson Anthony Comstock Margaret Sanger and Justice Anthony Kennedy enliven this commanding synthesis of scholarship Publishers Weekly that dramatically reveals how our laws about sex religion and morality reflect the cultural schisms that have cleaved our nation from its founding The Sex Atlas Erwin J. Haeberle, 2020-05-18 No detailed description available for The Sex Atlas The Origins and Role of Same-Sex Relations in Human Societies James Neill, 2011-10-17 This groundbreaking work draws on a vast range of research into human sexuality to demonstrate that homosexuality is not a phenomenon limited to a small minority of society but is an aspect of a complex sexual harmony that the human race inherited from its animal ancestors Through a survey of the patterns of sexual expression found among animals and among societies around the world and an examination of the functional role homosexual behavior has played among animal species and human societies alike the author arrives at some provocative conclusions that a homosexual or bisexual phase is a normal part of sexual development that same sex relations play an important balancing role in regulating human reproduction that many societies have institutionalized homosexual traditions in the past and that the harsh condemnation of homosexuality in Western society is a relatively recent phenomenon unique among world societies throughout history This well researched and meticulously documented book is the first that integrates into a coherent picture the startling revelations about human sexuality coming from the recent work of sexual researchers psychologists anthropologists and historians The view that emerges of an ambisexual human species whose complex sexual harmony is being thwarted by the imposition of an artificial understanding of nature represents a new way of thinking about sex *Sex the Measure of All Things* Jonathan Gathorne-Hardy, 2000 The life story of the sex researcher whose statistics were so extensive that only ten percent went into his two published books and most of the data is still being actively mined today Jacket **Sexual Life in Ancient Greece** Paul Brandt, 1971 **The Encyclopædia of Sexual Behaviour** Albert Ellis, Albert Abarbanel, 2013-09-24 The Encyclopedia of Sexual Behavior Volume 1 is a comprehensive review of the major aspects of the biology physiology and anatomy of sex This book is divided into 57 chapters that also cover the major facets of the emotional psychological sociological legal anthropological geographical and historical aspects of sexuality including the related fields of love marriage and the family This book deals first with the advances in sex research the issues on abortion abstinence adolescent sexuality and the link between sex and aging The subsequent chapters consider the demographic geographical and anthropological aspects of sex life the physiology anatomy and history of sex the attitude toward sex the concept of autoerotism and the religious view of sex Other sex related topics covered include chastity and virginity child sexuality nakedness coitus contraception courtship culture social dancing and sex education This book further discusses the emotional aspects of sex such as divorce marriage extramarital sex relations family and reproduction The

Sex, Society, and the Making of Pornography Jeffrey Escoffier, 2021-02-12 Pornographic films combine fantasy and real sex to create a unique genre of entertainment This book explores how the making of pornographic films is a social process that draws on the fantasies sexual scripts and sexual identities of performers writers directors and editors to produce sexually exciting videos and movies

A Sexual Odyssey Kenneth E. Maxwell, 2013-11-11 The Brave New World of Sex We ve seen in less than a generation a swift revolution in human sexual behavior attitude and consequences so dramatic that some people are left in a state of stunned dismay and the public at large in aimless confusion Much of the trend if you can call a revolution a trend is fueled by or at least made possible by technological innovations dating back to the middle of the twentieth century The birth control pill opened the gate to promiscuity with little fear of pregnancy marriage became an annoyance divorce became an opportunity two working parents became a necessity and teenage sex became nearly as socially acceptable as holding hands or going to the movies The copulation explosion resulted in a spiraling epidemic of children giving birth to children many of them on welfare Girls seeking relief through abortions were sometimes forced to have their unwanted offspring despite the inevitability of some of them living in poverty and a desperate dead end environment of squalor and crime Some misguidedly wanted babies and ended up the same way To top it all discipline

2 A Sexual Odyssey became a lost art leaving schools and neighborhoods infested with gun toting knife wielding teenage delinquents even in middle class areas who engaged in contests to see who could get the most girls knocked up The chaotic state of fornication mating and birthing may be a throwback to the past

Sex, the World History John R. Gregg, 2019-07-26 Sex The World History Through Time Religion and Culture is a daring exploration of human sexuality from the ancient to the modern world Sex The World History traces sexual attitudes from the transcendent to the bizarre throughout world cultures Unmasked are sexual practices and beliefs previously omitted or obscured from all historical telling In a scathing condemnation of religion and its control of sex the book explores the intricate dance between spirituality and sexuality Revealed for the first time is a history of bisexuality in the majority of human cultures Prior to Christianity bisexual orientation was common in Asia the Pacific Africa the Americas and Europe Religions have controlled sex and gender orientation throughout time The history of LGBTQ across the globe is illuminated here How have women been exploited in sexual and cultural roles from prehistory to present day How does religion affect women s sexuality throughout time The supremacy of the Mother Earth Goddess throughout most of human existence and her relatively recent fall have had drastic consequences for women s sexual expression and identity Other topics included are sex slavery and human trafficking child brides forced marriages Roman Catholic abuses war time sexual crimes Victorian licentiousness the evolution of sexual attitudes in North and South America the sexual revolution of the counter culture Offered here is an encyclopedic tour of the

sexuality of humankind **Shadow of Spirit** Philippa Berry, Andrew Wernick, 2006-04-27 By illuminating the striking affinity between the most innovative aspects of postmodern thought and religious mystical discourse *Shadow of Spirit* challenges the long established assumption that western thought is committed to nihilism This collection of essays by internationally recognised scholars explores the implications of the fascination with the sacred divine or infinite which characterizes much contemporary thought It shows how these concerns have surfaced in the work of Derrida Baudrillard Lyotard Kristeva Irigaray and others Examining the connection between this postmodern turn and the current search for a new discourse of ethics and politics it also stresses the contribution made by feminist thought to this unexpected intellectual direction

Studies in the Psychology of Sex v6 Havelock Ellis, 2015-11-07 A man's sexual nature like all else that is most essential in him is rooted in a soil that was formed very long before his birth In this as in every other respect he draws the elements of his life from his ancestors however new the recombination may be and however greatly it may be modified by subsequent conditions A man's destiny stands not in the future but in the past That rightly considered is the most vital of all vital facts Every child thus has a right to choose his own ancestors Naturally he can only do this vicariously through his parents It is the most serious and sacred duty of the future father to choose one half of the ancestral and hereditary character of his future child it is the most serious and sacred duty of the future mother to make a similar choice 1 In choosing each other they have between them chosen the whole ancestry of their child They have determined the stars that will rule his fate In the past that fateful determination has usually been made helplessly ignorantly almost unconsciously It has either been guided by an instinct which on the whole has worked out fairly well or controlled by economic interests of the results of which so much cannot be said or left to the risks of lower than bestial chances which can produce nothing but evil In the future we cannot but have faith for all the hope of humanity must rest on that faith that a new guiding impulse reinforcing natural instinct and becoming in time an inseparable accompaniment of it will lead civilized man on his racial course Just as in the past the race has on the whole been moulded by a natural and in part sexual selection that was unconscious of itself and ignorant of the ends it made towards so in the future the race will be moulded by deliberate selection the creative energy of Nature becoming self conscious in the civilized brain of man This is not a faith which has its source in a vague hope The problems of the individual life are linked on to the fate of the racial life and again and again we shall find as we ponder the individual questions we are here concerned with that at all points they ultimately converge towards this same racial end Since we have here therefore to follow out the sexual relationships of the individual as they bear on society it will be convenient at this point to put aside the questions of ancestry and to accept the individual as with hereditary constitution already determined he lies in his mother's womb *The Psychology of Sex (Vol. 1-6)* Havelock Ellis, 2022-12-10 Havelock Ellis's monumental work *The Psychology of Sex* spans six volumes offering an exhaustive exploration of sexual behavior identity and societal norms through a blend of psychological analysis and cultural critique Written in the late 19th and early 20th centuries Ellis's

pioneering approach intertwines scientific inquiry with a narrative style that is both accessible and richly detailed This seminal text not only maps the biological and psychological underpinnings of human sexuality but also delves into broader themes of gender morality and the impact of societal constraints on sexual expression positioning the work within the burgeoning field of sexology during a time of great socio political change Havelock Ellis a prominent English physician and social reformer brought a radical lens to topics often shrouded in taboo His progressive views on sexuality influenced by the early feminist movement and his collaboration with contemporary thinkers shed light on the complexities of sexual identity and human behavior Ellis s combination of clinical observation and humanistic philosophy reflects his commitment to destigmatizing sexual discourse a mission that deeply informed his writing process This landmark series is essential reading for anyone interested in the evolution of sexual psychology and the cultural implications of sexual identity Ellis s insightful analysis resonates with contemporary discussions surrounding sexuality and offers historical context crucial for understanding modern perspectives Readers will find themselves compelled by Ellis s lucid prose and thorough research making this work an indispensable addition to both academic and personal libraries **Immigration in Psychoanalysis**

Julia Beltsiou,2016-01-08 Immigration in Psychoanalysis Locating Ourselves presents a unique approach to understanding the varied and multi layered experience of immigration exploring how social cultural political and historical contexts shape the psychological experience of immigration and with it the encounter between foreign born patients and their psychotherapists Beltsiou brings together a diverse group of contributors including Ghislaine Boulanger Eva Hoffman and Dori Laub to discuss their own identity as immigrants and how it informs their work They explore the complexity and the contradictions of the immigration process the tension between loss and hope future and past the idealization and denigration of the other stranger and what it takes to tolerate the existential dialectic between separateness and belonging Through personal accounts full of wisdom and nuance the stories of immigration come to life and become accessible to the reader Intended for clinicians students and academics interested in contemporary psychoanalytic perspectives on the topic of immigration this book serves as a resource for clinical practice and can be read in courses on psychoanalysis cultural psychology immigrant studies race and ethnic relations self and identity culture and human development and immigrants and mental health **The Seduction of the Mediterranean**

Robert Aldrich,2002-09-11 Through an explanation of forty figures in European culture The Seduction of the Mediterranean argues that the Mediterranean classical and contemporary was the central theme in homoerotic writing and art from the 1750s to the 1950s Episodes of exile murder drug taking wild homosexual orgies and court cases are woven into an original study of a significant theme in European culture The myth of a homoerotic Mediterranean made a major contribution to general attitudes towards Antiquity the Renaissance and modern Italy and Greece *Sexual Life in Ancient Greece ...* Paul Brandt, Lawrence Hawkins Dawson,1932
