Sexual Politics And Narrative Film Hollywood And Beyond:

Sexual Politics and Narrative Film Robin Wood, 1998 An examination of the relationship between narrative style and sexual politics Looking at contemporary films from the USA Europe and Japan the book examines the ways in which films relate to sexual politics and the organization within our culture of gender and sexuality **Eastern Approaches to** Western Film Stephen Teo, 2019-07-11 Eastern Approaches to Western Film Asian Aesthetics and Reception in Cinema offers a renewed critical outlook on Western classic film directly from the pantheon of European and American masters including Alfred Hitchcock George Lucas Robert Bresson Carl Dreyer Jean Pierre Melville John Ford Leo McCarey Sam Peckinpah and Orson Welles The book contributes an Eastern Approach into the critical studies of Western films by reappraising selected films of these masters matching and comparing their visions themes and ideas with the philosophical and paradigmatic principles of the East It traces Eastern inscriptions and signs embedded within these films as well as their social lifestyle values and other concepts that are also inherently Eastern As such the book represents an effort to reformulate established discourses on Western cinema that are overwhelmingly Eurocentric Although it seeks to inject an alternative perspective the ultimate aim is to reach a balance of East and West By focusing on Eastern aesthetic and philosophical influences in Western films the book suggests that there is a much more thorough integration of East and West **Cold War, Cool Medium** Thomas Doherty, 2005-03-10 Conventional wisdom holds than previously thought or imagined that television was a co conspirator in the repressions of Cold War America that it was a facilitator to the blacklist and handmaiden to McCarthyism But Thomas Doherty argues that through the influence of television America actually became a more open and tolerant place Although many books have been written about this period Cold War Cool Medium is the only one to examine it through the lens of television programming To the unjaded viewership of Cold War America the television set was not a harbinger of intellectual degradation and moral decay but a thrilling new household appliance capable of bringing the wonders of the world directly into the home The cool medium permeated the lives of every American quickly becoming one of the most powerful cultural forces of the twentieth century While television has frequently been blamed for spurring the rise of Senator Joseph McCarthy it was also the national stage upon which America witnessed and ultimately welcomed his downfall In this provocative and nuanced cultural history Doherty chronicles some of the most fascinating and ideologically charged episodes in television history the warm hearted Jewish sitcom The Goldbergs the subversive threat from I Love Lucy the sermons of Fulton J Sheen on Life Is Worth Living the anticommunist series I Led 3 Lives the legendary jousts between Edward R Murrow and Joseph McCarthy on See It Now and the hypnotic 188 hour political spectacle that was the Army McCarthy hearings By rerunning the programs freezing the frames and reading between the lines Cold War Cool Medium paints a picture of Cold War America that belies many black and white clich's Doherty not only details how the blacklist operated within the television industry but also how the shows themselves struggled to defy it arguing that

television was preprogrammed to reinforce the very freedoms that McCarthyism attempted to curtail Hollis Frampton Michael Zrvd, 2023-05-09 Hollis Frampton was an American filmmaker photographer and theorist who bridged the experimental film and contemporary art worlds in the 1960s and 1970s Best known for avant garde films including Zorns Lemma 1970 and nostalgia 1971 Frampton spent his later years working on the unfinished epic Magellan a monumental cycle that used the metaphor of Ferdinand Magellan's circumnavigation of the world to rethink the natures and meanings of history modernity and cinema Frampton's career was cut short by cancer at age 48 with his vast ambitions for the project left incomplete This book is a groundbreaking and comprehensive account of this remarkable figure s work in its totality from Frampton's earliest films through Magellan Michael Zryd explores the connections linking Frampton's art and thought to other media forms histories and cultural frameworks He foregrounds Frampton's notion of the infinite cinema which redefined the parameters of the medium to encompass all forms of moving image and sound media across the past and future of cinematic possibility Zryd analyzes Frampton's ambivalent relationship with modernism and the Enlightenment showing how the artist navigated between attraction to radical artistic investigation and awareness of this tradition s implication in colonialism and other oppressive power structures Shedding new light on Frampton's project of exploring and critiquing how cinema attempts to capture and understand the world this book also considers his significance for contemporary art <u>Tunisian Cinema</u> Robert Lang, 2014-04-01 Tunisian cinema is often described as the most daring of all Arab cinemas For many Tunisia appeared to be a model of equipoise between East and West and yet during Zine El Abidine Ben Ali s presidency from 1987 to 2011 the country became the most repressive state in the Maghreb Against considerable odds a generation of filmmakers emerged in the mid 1980s to make films that are allegories of resistance to the increasingly illiberal trends that were marking their society In New Tunisian Cinema Robert Lang focuses on eight films by some of the nation s best known directors including Man of Ashes 1986 Bezness 1992 and Making Of 2006 by Nouri Bouzid Halfaouine 1990 by F rid Boughedir The Silences of the Palace 1994 by Moufida Tlatli Essa da 1997 by Mohamed Zran Bedwin Hacker 2002 by Nadia El Fani and The TV Is Coming 2006 by Moncef Dhouib He explores the political economy and social historical and psychoanalytic dimensions of these works and the strategies filmmakers deployed to preserve cinema s ability to shape debates about national identity These debates Lang argues not only helped initiate the 2011 uprising that ousted Ben Ali s regime but also did much to inform and articulate the aspirations of the Tunisian people in the new millennium

Counter-Archive Paula Amad,2010-09-28 Counter Archive brilliantly reflects the visual character of philosophy geography and historiography in twentieth century France Organized hermetically and crafted meticulously this volume offers a wealth of information as it considers film theory Tom Conley Harvard University Tucked Away in a Garden on the edge of Paris is a multimedia archive like no other Albert Kahn s Archives de la Planete 1908 1931 Kahn s vast photo cinematographic experiment preserved world memory through the privileged lens of everyday life and Counter Archive situates this project in

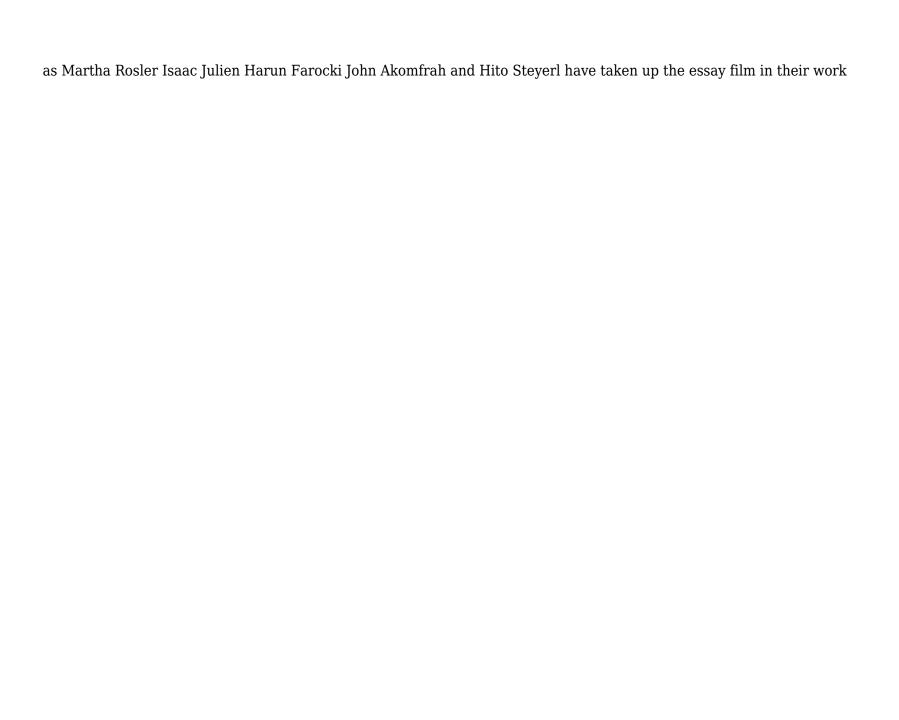

its biographic intellectual and cinematic contexts Tracing the archive s key influences such as the philosopher Henri Bergson the geographer Jean Brunhes and the biologist Jean Comandon Paula Amad maps an alternative landscape of French cultural modernity in which vitalist philosophy cross pollinated with early film theory documentary film with the avant grade cinematic models of temporality with the early Annales school of history and film's appropriation of the planet with human geography and colonial ideology At the heart of the book is an insightful meditation upon the transformed concept of the archive in the age of cinema and an innovative argument about film's counter archival challenge to history This impressive book carves out a field of interest that prior to Paula Amad's scrutiny did not exist Amad displays extraordinary erudition assembling a remarkable bibliography of primary sources She invites us to ponder her ideas in relation to our own digital counter archival image overload Antonia Lant New York University editor of Red Velvet Seat Women's Writings on the First Fifty Years of Cinema Paula Amad handles technical details with flourish and mastery and the research in the French archives is exhilarating Donald Crafton University of Notre Dame Paula Amad's book is far more than an unusually successful effort to recover and analyze Kahn's unique dream of archiving the planet It stages a theoretical interrogation of the terms archive everyday life and modernity arguing that the emergence of motion pictures produced a revisionist concept of the archive or what she calls the counter archive Her book ultimately mounts a highly original methodological exploration of the **Special Effects** Michele Pierson, 2002-05-23 intersection of history and theory Richard Abel University of Michigan Designed to trick the eye and stimulate the imagination special effects have changed the way we look at films and the worlds created in them Computer generated imagery CGI as seen in Hollywood blockbusters like Star Wars Terminator 2 Jurassic Park Independence Day Men in Black and The Matrix is just the latest advance in the evolution of special effects Even as special effects have been marveled at by millions this is the first investigation of their broader cultural reception Moving from an exploration of nineteenth century popular science and magic to the Hollywood science fiction cinema of our time Special Effects examines the history advancements and connoisseurship of special effects asking what makes certain types of cinematic effects special why this matters and for whom Michele Pierson shows how popular science magazines genre filmzines and computer lifestyle magazines have articulated an aesthetic criticism of this emerging art form and have helped shape how these hugely popular on screen technological wonders have been viewed by moviegoers The Lumière Galaxy Francesco Casetti, 2015-03-03 Francesco Casetti believes new media technologies are producing an exciting new era in cinema aesthetics Whether we experience film in the theater on our hand held devices in galleries and museums onboard and in flight or up in the clouds in the bits we download cinema continues to alter our habits and excite our imaginations Casetti travels from the remote corners of film history and theory to the most surprising sites on the internet and in our cities to prove the ongoing relevance of cinema He does away with traditional notions of canon repetition apparatus and spectatorship in favor of new keywords including expansion relocation assemblage and performance The result is an

innovative understanding of cinema's place in our lives and culture along with a critical sea change in the study of the art The more the nature of cinema transforms the more it discovers its own identity and Casetti helps readers realize the galaxy American Multicultural Studies Sherrow O. Pinder, 2013 American Multicultural of possibilities embedded in the medium Studies Diversity of Race Ethnicity Gender and Sexuality provides an interdisciplinary view of multicultural studies in the United States addressing a wide range of topics that continue to define and shape this area of study Through this collection of essays Sherrow Pinder responds to the need to open up a rich avenue for addressing current and continuing issues of race gender ethnicity sexuality cultural diversity and education in their varied forms Substantial thematic overlaps are found between sections and essays all of which are oriented toward a single broad objective to develop new and different ways of addressing how multicultural issues in their discursive sociocultural contexts are inextricably linked to the operations of power Power as a site of resistance to which it invariably gives rise is tacked from a perspective that attends to the complexities of America's history and politics Queer Bergman Daniel Humphrey, 2013-03-15 One of the twentieth century s most important filmmakers indeed one of its most important and influential artists Ingmar Bergman and his films have been examined from almost every possible perspective including their remarkable portrayals of women and their searing dramatizations of gender dynamics Curiously however especially considering the Swedish filmmaker's numerous and intriguing comments on the subject no study has focused on the undeniably queer characteristics present throughout this nominally straight auteur s body of work indeed they have barely been noted Queer Bergman makes a bold and convincing argument that Ingmar Bergman s work can best be thought of as profoundly queer in nature Using persuasive historical evidence including Bergman's own on the record though stubbornly ignored remarks alluding to his own homosexual identifications as well as the discourse of gueer theory Daniel Humphrey brings into focus the director's radical denunciation of heteronormative values his savage and darkly humorous deconstructions of gender roles and his work s trenchant if also deeply conflicted attacks on homophobically constructed forms of patriarchic authority Adding an important chapter to the current discourse on GLBT queer historiography Humphrey also explores the unaddressed historical connections between post World War II American queer culture and a concurrently vibrant European art cinema proving that particular interrelationship to be as profound as the better documented associations between gay men and Hollywood musicals queer spectators and the horror film lesbians and gothic fiction and others Acting Claudia Springer, Julie Levinson, 2015-08-18 Screen performances entertain and delight us but we rarely stop to consider actors reliance on their craft to create memorable characters Although film acting may appear effortless a host of techniques artistic conventions and social factors shape the construction of each role The chapters in Acting provide a fascinating in depth look at the history of film acting from its inception in 1895 when spectators thrilled at the sight of vaudeville performers Wild West stars and athletes captured in motion to the present when audiences marvel at the seamless blend of human actors with CGI Experts in the field take readers behind the silver screen to learn about the craft of film acting in six eras the silent screen 1895 1928 classical Hollywood 1928 1946 postwar Hollywood 1947 1967 the auteur renaissance 1968 1980 the New Hollywood 1981 1999 and the modern entertainment marketplace 2000 present The contributors pay special attention to definitive performances by notable film stars including Lillian Gish Dick Powell Ginger Rogers Beulah Bondi Marilyn Monroe Marlon Brando Jack Nicholson Robert De Niro Nicholas Cage Denzel Washington and Andy Serkis In six original essays the contributors to this volume illuminate the dynamic role of acting in the creation and evolving practices of the American film industry Acting is a volume in the Behind the Silver Screen series other titles in the series include Animation Art Direction and Production Design Cinematography Costume Makeup and Hair Directing Editing and Special Visual Effects Producing Screenwriting and Sound

When Movies Were Theater William Paul, 2016-05-24 There was a time when seeing a movie meant more than seeing a film The theater itself shaped the very perception of events on screen This multilayered history tells the story of American film through the evolution of theater architecture and the surprisingly varied ways movies were shown ranging from Edison s 1896 projections to the 1968 Cinerama premiere of Stanley Kubrick's 2001 William Paul matches distinct architectural forms to movie styles showing how cinema s roots in theater influenced business practices exhibition strategies and film Hollywood's (m)Other Aperture Jaime Bihlmeyer, 2019-10-07 This study explores how mainstream movies technologies lend themselves to the portrayal of imagery that reflects the earliest stages of human development Filmmakers take full advantage of this rich body centered source of human experience Avatar Minority Report and Annihilation among the other movies explored in this book incorporate patterns of images that re-present pre Oedipal m Others FEMININITY and the originary maternal authority The book explores how mainstream movies increasingly expose mass audiences to signs and resonances from our prelingual intrauterine and extrauterine psychological experiences. In addition it compares and contrasts how the prelingual experience as depicted in these movies relates to themes of inclusivity that encompass diverse film inquiry including gueer theory as well as human nonhuman animal kinship and hybridity In sum the text analyses how Hollywood movies depict and integrate the prelingual experience into the commercial cinematic apparatus and how this inspires new understanding of plurality FEMININITY and originary maternal authority in culture and society the Family in The Walking Dead John R. Ziegler, 2018-11-09 This book traces how The Walking Dead franchise narratively visually and rhetorically represents transgressions against heteronormativity and the nuclear family The introduction argues that The Walking Dead reflects cultural anxiety over threats to the family Chapter 1 examines the destructive competition created by heteronormativity such as the conflict between Rick and Shane Chapter 2 focuses on the actual or attempted participation of characters such as Carol and Negan in queer relationships Chapter 3 interprets zombies as queer antagonists to heteronormativity while Chapter 4 explores the incorporation of zombies into the lives of characters such as the Governor and the Whisperers The conclusion asserts that The Walking Dead presents both queer alternatives to and damaging

contradictions within the traditional heterosexual family model helping to question this model and to consider the struggle of queer American families Overall this study holdsspecial interest for students and scholars of queerness zombies and the family Intelligence Work Jonathan Kahana, 2008-07-07 Intelligence Work establishes a new genealogy of American social documentary proposing a fresh critical approach to the aesthetic and political issues of nonfiction cinema and media Jonathan Kahana argues that the use of documentary film by intellectuals activists government agencies and community groups constitutes a national public form of culture one that challenges traditional oppositions between official and vernacular speech between high art and popular culture and between academic knowledge and common sense Placing iconic images and the work of celebrated filmmakers next to overlooked and rediscovered productions Kahana demonstrates how documentary collects and delivers the evidence of the American experience to the public sphere where it lends force to political movements and gives substance to the social imaginary Film and Stereotype Jörg Schweinitz, 2011 Since the early days of film critics and theorists have contested the value of formula clich conventional imagery and recurring narrative patterns of reduced complexity in cinema Whether it s the high noon showdown or the last minute rescue a lonely woman standing in the window or two lovers saying goodbye in the rain many films rely on scenes of stereotype and audiences have come to expect them Outlining a comprehensive theory of film stereotype a device as functionally important as it is problematic to a film's narrative J rg Schweinitz constructs a fascinating though overlooked critical history from the 1920s to today Drawing on theories of stereotype in linguistics literary analysis art history and psychology Schweinitz identifies the major facets of film stereotype and articulates the positions of theorists in response to the challenges posed by stereotype He reviews the writing of Susan Sontag Roland Barthes Theodor W Adorno Rudolf Arnheim Robert Musil B la Bal zs Hugo M nsterberg and Edgar Morin and he revives the work of less prominent writers such as Ren F l p Miller and Gilbert Cohen S at tracing the evolution of the discourse into a postmodern celebration of the device Through detailed readings of specific films Schweinitz also maps the development of models for adapting and reflecting stereotype from early irony Alexander Granowski and conscious rejection Robert Rossellini to critical deconstruction Robert Altman in the 1970s and celebratory transfiguration Sergio Leone and the Coen brothers Altogether a provocative spectacle Schweinitz's history reveals the role of film stereotype in shaping processes of communication and recognition as well as its function in growing media Essays on the Essay Film Nora M.
