Sexual Visions:

Sexual Visions L. J. Jordanova, 1993 Demonstrates that gender as a metaphor has had an exceptionally vigorous life in the history of biological and medical sciences The Sexual Life of Our Time in Its Relations to Modern Civilization Iwan Bloch,1909 Theorizing Sexuality Jackson, Stevi, Scott, Sue, 2010-03-01 The book confronts the anxieties associated with sexuality in the late modern western world and engages with wider debates on social transformations in late modernity As such it provides both an overview of the field of sexuality as well as setting a new agenda for debating the topic Cultures and Sexualities Jennifer Robertson, 2008-04-15 This book demonstrates the centrality of sex gender and sexuality to theories of human behaviors and practices Moves beyond other lesbian and gay studies readers by presenting a broader view of the significance of studying same sex cultures and sexualities across cultures Offers readings from all four subfields of anthropology cultural biological linguistic and archaeological along with historical and applied anthropology Includes discussion of biotechnology and bioethics health and illness language ethnicity identity politics post colonialism kinship development and policymaking Histories of Sexuality Stephen Garton, 2014-12-18 This book presents the first assessment of one of the most rapidly expanding fields of research the history of sexuality From the early efforts of historians to work out a model for sexual history to the extraordinary impact of French philosopher Michel Foucault to the vigorous debates about essentialism and social constructionism to the emergence of contemporary debates about historicism queer theory embodiment gender and cultural history we now have vast and diverse historical scholarship on sex and sexuality Histories of Sexuality highlights the key historical moments and issues pederasty and cultures of male passivity in ancient Greece and Rome the impact of early Christianity and ideals of renunciation on the sexual cultures of late antiquity the sustained existence of homosexual cultures in medieval and renaissance Europe the invention of homosexuality and heterosexuality in eighteenth century Europe and America the truth behind Victorian sexual repression the work of reformers and scientists such as Havelock Ellis Marie Stopes Stella Browne Margaret Sanger Alfred Kinsey William Masters and Virginia Johnson

Sex, Cells, and Same-Sex Desire David A Parker, 2014-02-25 This fascinating new book explores the myriad aspects of biological theories of sexual preference Sex Cells and Same Sex Desire describes reviews and questions recent biological research on sexual preference from the point of view of knowledgeable scientists and of scholars in the social sciences and humanities representing the emerging field of gay studies The issues involved have a vibrant history are wide ranging and remain the objects of much controversy This book demystifies biological research on sexual preference and makes it accessible to readers unfamiliar with biological and medical research Sex Cells and Same Sex Desire is divided into several sections each of which is introduced by an explanation of key concepts and terms found in that section The book begins with a discussion of the history of biological theories and sociocultural concepts of gender and sexuality The next 3 sections explore specialized areas of biological science and related issues genetics and evaluation hormones and the endocrine system

and brain physiology and structure A final section discusses social stigma science and medicine A glossary of terms used by the authors is included so readers may look up those that may be unfamiliar Hermaphrodites and the Medical **Invention of Sex** Alice Domurat Dreger, 2000-03-01 Punctuated with remarkable case studies this book explores extraordinary encounters between hermaphrodites and the medical and scientific professionals who grappled with them in late 19th century France and England It takes us inside the doctors chambers to see how and why medical and scientific men constructed sex gender and sexuality Public Health and Municipal Policy Making Marjaana Niemi, 2016-04-15 Public health policies had a profound impact on urban life in the late nineteenth and early twentieth centuries yet relatively few people took an active interest in the formulation of these policies In this book Marjaana Niemi examines the impact of different political aims and pressures on scientific health policies through the analysis of public health programmes in two case studies one in Birmingham and the other in Gothenburg By examining early twentieth century campaigns concerned with infant welfare and the prevention of tuberculosis the book provides illuminating insights into the relationship between public health and the regulation of urban life Not only does the book analyse the processes whereby different political aims became embedded in these apolitical health campaigns but it also highlights the important part that the campaigns played in urban politics and governance The political aims which public health campaigns advanced are explored by comparing health policies in Britain and Sweden where officials were part of one public health community enjoying close links attending the same conferences and contributing to the same journals The problems they dealt with were often similar and in both countries health authorities claimed scientific grounds for their programmes Yet the policies they pursued were often strikingly different Through examination of two different national approaches the book does justice to the full complexity of the policy making process and illuminates the wide range of factors that affected municipal policies Gender. Sex and the Shaping of Modern Europe Annette F. Timm, Joshua A.
