Sexual Fluidity Lisa M. Diamond, 2008-02-28 Is love blind when it comes to gender For women it just might be This unsettling and original book offers a radical new understanding of the context dependent nature of female sexuality Lisa M Diamond argues that for some women love and desire are not rigidly heterosexual or homosexual but fluid changing as women move through the stages of life various social groups and most important different love relationships This perspective clashes with traditional views of sexual orientation as a stable and fixed trait But that view is based on research conducted almost entirely on men Diamond is the first to study a large group of women over time She has tracked one hundred women for more than ten years as they have emerged from adolescence into adulthood She summarizes their experiences and reviews research ranging from the psychology of love to the biology of sex differences Sexual Fluidity offers moving first person accounts of women falling in and out of love with men or women at different times in their lives For some gender becomes irrelevant I fall in love with the person not the gender say some respondents Sexual Fluidity offers a new understanding of women s sexuality and of the central importance of love

**Women's Sexual Experience** Martha Kirkpatrick, 2012-12-06 This book like its companion volume Women s Sexual Development is a potpourri of ideas not campaign literature to promote a particular point of view The editor agrees with some of her authors and strongly disagrees with others The facts are few the questions many The intent of both books is to evoke questions delay convictions invite controversy and plead for opening minds The examination and explanation of women s sexual experience has long been the province of men The is and the oughts have been hopelessly confused by the investigators or exhorters biases and limited experience as well as by the use of the male sexual experience as the model for all human sexual experience Women at long last are talking not only to each other in personal journals and letters but also in the more formal worlds of academic and scientific publications The papers in this book come from many sources Some are academic some are experiential journalistic or personal Several emphasize the lack of adequate research and data but address an issue that is just appearing on the surface of contemporary controversy and concern Many topics and sources of information are missing

**Islam, Women's Sexuality and Patriarchy in Indonesia** Irma Riyani, 2020-11-26 This book explores the intimate marital relationships of Indonesian Muslim married women As well as describing and analysing their sexual relationships the book also investigates how Islam influences discourses of sexuality in Indonesia and in particular how Islamic teachings affect Muslim married women s perceptions and behaviour in their sexual relationships with their husbands Based on extensive original research the book reveals that Muslim women perceive marriage as a social cultural and religious obligation that they need to fulfil that they realise that finding an ideal marriage partner is complicated with some having the opportunity for a long courtship and others barely knowing their partner prior to marriage and that there is a strong tendency with some exceptions for women to consider a sexual relationship in marriage as their duty and their husband s right Religious and cultural discourses justify and support

this view and consider refusal a sin dosa or taboo pamali Both discourses emphasise obedience towards husbands in marriage

education feminist theory developmental psychology      *Narrative Landscapes of Female Sexuality in Africa* Samantha van Schalkwyk, 2018-10-06 This book explores the textures of women's narratives of patriarchal oppression of female sexuality. Postcolonial feminist scholars in Africa highlight the importance of moving beyond Westernised lenses of African women's powerlessness towards a focus on women's culturally specific sexual agency. However few studies explore women's psychological experiences of sexual oppression in real depth. *Narrative Landscapes of Female Sexuality in Africa* traces the narratives of heterosexual migrant women from Zimbabwe, Kenya and Congo. The book offers insight into women's experiences back home travelling through border posts in Africa and life in current post-apartheid South Africa. Through a unique collectively based methodology and a feminist poststructuralist lens, the author examines narrative strategies used by the women to manage and psychologically resist harmful discourses surrounding female sexuality and women's bodies. The book offers rich exploration of the intersections of gender and sexuality, class, race and citizenship, situating the narratives within the wider context of poverty and migration in sub-Saharan Africa. These vectors of oppression are illuminated throughout the text via integrated threads of the researcher's positionality in relation to the women narrators.      **Facing the Complexities of Women's Sexual Desire** Vera S. Maass, 2006-11-22 This book represents a broad-based approach to a narrow but complex issue. The issue causes distress for many and has been instrumental in family disruption and divorce. Women's sexual desire, whether it is too little or too much, has become an issue of growing concern and vague promises for solution. In the meantime, the women are looking for answers, consulting professionals in the field of human sexuality, physicians or therapists, media advice and self-help books. The material discussed in this book is not part of any structured research. The women encountered in the pages of this book have not been selected on a random basis. Some have been clients, some are volunteers from the general population and another group is made up of undergraduate college students. The college students came from a varied ethnic and cultural background while the clients mainly were of white and African American background. The volunteers were predominantly from a white middle class population. There is no claim that the women are representative of all women in the general population.      **Why Women Have Sex** Cindy M. Meston, David M. Buss, 2009-09-29 An unparalleled exploration of the mysteries underlying women's sexuality that rivals the culture-shifting Kinsey Report from two of America's leading research psychologists. Do women have sex simply to reproduce or display their affection? When University of Texas at Austin clinical psychologist Cindy M. Meston and evolutionary psychologist David M. Buss joined forces to investigate the underlying sexual motivations of women, what they found astonished them. Through the voices of real women, Meston and Buss reveal the motivations that guide women's sexual decisions and explain the deep-seated psychology and biology that often unwittingly drive women's desires, sometimes in pursuit of health or pleasure or sometimes for darker, disturbing reasons that a woman may not fully recognize. Drawing on more than a thousand intensive interviews conducted solely for the book, as well as their pioneering research on physiological response and evolutionary
