Transforming People and Organizations Margarete van den Brink, 2004 Individuals groups and organizations find themselves in a process of continual change transformation and growth The author suggests that all people whether as individuals or in groups experience the same archetypal process of development which consists of seven steps Using practical examples she describes how to recognize these steps or phases in individuals in relationships and groups and even in commercial and voluntary organizations Knowledge of the various steps provides clarity and vision and helps us prepare for the sorts of challenges and rewards In addition to the outer aspects of these processes there is also an inner aspect The author shows that the process of growth through the seven phases is essentially a process of spiritual development Spirit manifests in human beings and determines the meaning and direction of our lives providing motivation for change and direction These impulses also work in groups and organizations and understanding them gives us greater insight Van den Brink s approach offers a refreshing new

and dynamic way forward in contrast to the rationalistic methods of most mainstream consultants and personal development

Love and Its Meaning in the World Rudolf Steiner, 1998-11 Rudolf Steiner received The Fifth Gospel unrecorded events from the so called lost years of the life of Jesus obtained by grace and by spiritual research into the akashic record as a sacred obligation to which he experienced a deep sense of responsibility However he never finished the project of unveiling it Had he done so not only Anthroposophy but also Christianity would have received an enormous spiritual gift a concrete soul filled description of the Mystery of Golgotha His deeply moving and often startling lectures in 1913 are thus fragmentary giving the near tragic impression that because those who heard or read them did not take them up with sufficient seriousness and inner dedication humanity has suffered an inestimable loss Steiner traveled through various German cities to give personal summaries of the Fifth Gospel But in each center he encountered the same sleepiness The thorns were already starting to prick he seemed to begin hiding the content rather than disclosing it He was forced to see in all clarity that the Fifth Gospel was not being appropriately received Andrei Bely In this dramatic book Selg tells the story of those lectures He recounts their background and many of the most important episodes He illumines and gives context to the excerpts with a profound yet accessible commentary Most important he offers insights into their importance to both Steiner and the hearts of those who heard and understood even those who felt inadequate to the task Those who has read Steiner s lectures on the Fifth Gospel and wondered about their significance will find here an inspiring guide to further meditation while those who have not yet read them will find many reasons for doing so and discover a new way of understanding Steiner and his mission Those unfamiliar with Steiner but wish to find a meaningful heartfelt way to Jesus Christ and the Christian mystery will discover a new way of understanding a new path to Christ The British Christian Women's Movement Jenny

Daggers, 2018-05-08 This title was first published in 2002 This book presents a timely study of a neglected British Christian women s movement Jenny Daggers charts the inception of the movement in the exciting times of the post sixties decades amid new currents generated in the British denominational churches and the wider current of Women s Liberation Focusing on Christian women s concern with the position of women in the church this book identifies a core Christian women s theology which affirms a rehabilitated new Eve in Christ and so contrasts with a concurrent paradigm shift taking shape in North American feminist theology Daggers argues that this divergence is primarily due to the effect of the prolonged Church of England women s ordination debate upon the ethos of the British Christian women s movement **Orthodox Tradition**

author presents a new relational paradigm which includes both heterosexual and homosexual couples seeking a lifelong committed relationship Marriage of male and female and the union of same gender couples will share the title partnership safeguarded by the same legal standards For male and female their title will be a marital partnership for same gender couples their title will be a same gender partnership **Gender Warp** Richard Mcadams,2003-08 What will life be like in the U S by 2034 if current trends in gender relations and gender politics continue Women especially will be severely disadvantaged by verifiable trends in marriage divorce family life and the military Everyday life and gender relations in 2034 are viewed through the eyes of three couples at different stages of life Men have been emasculated and women must carry the burden for domestic life work life and ever higher taxes The roles of the two genders have become so warped that everything from the family to the military has become dysfunctional A better way of life in a fictional New Zealand is compared to a U S society that is becoming increasingly unsatisfying to individual citizens particularly women The book relates how President Midge Houston and a few trusted lieutenants struggle to change society against great odds to the benefit of both men and women New Dangerous Liaisons Luisa Passerini,Liliana Ellena,Alexander C.T. Geppert,2010-10-01 In Europe love has been given a prominent place in European self representations from the Enlightenment onwards The category of love stemming from private and personal spheres was given a public function and used to distinguish European civilisation from others Contributors to this volume trace historical links and analyse specific connections between the two discourses on love and Europe over the course of the twentieth century exploring the distinctions made between the public and private the political and personal In doing so this volume develops an innovative historiography that includes such resources as autobiographies love letters and cinematic representations and takes issue with the exclusivity of Eurocentrism Its contributors put forth hypotheses about the historical pre eminence of emotions and consider this history as a basis for a non Eurocentric understanding of new possible European identities
