Sexuality Of Organization:

'Sex' at 'work' Jeff Hearn, Wendy Parkin, 1987 *The Sexuality of Organization* Jeff Hearn, 1990-01-01 This exciting critical text explores the pervasiveness of sexuality in organizations and the interrelations of sexuality and power in the ongoing production and reproduction of organizational life Clearly and accessibly the authors show various ways in which the very processes of organization reflect power relations suffused with dominant forms of sexuality Specific subjects addressed include sexuality and the labour process sexual harassment men s sexuality lesbians in organizations and the experiences of women managers and secretaries The Sexual Organization of the City Edward O. Laumann, Stephen Ellingson, Jenna Mahay, Anthony Paik, 2005-11-21 We think of the city as a place where anything goes Take the sensational fantasies and lurid antics of single women on Sex in the City or young men on Queer as Folk and you might imagine the city as some kind of sexual playground a place where you can have any kind of sex you want with whomever you like anytime or anywhere you choose But in *The Sexual Organization of the City* Edward Laumann and company argue that this idea is a myth Drawing on extensive surveys and interviews with Chicago adults they show that the city is to the contrary a place where sexual choices and options are constrained From Wicker Park and Boys Town to the South Side and Pilsen they observe that sexual behavior and partnering are significantly limited by such factors as which neighborhood you live in your ethnicity what your sexual preference might be or the circle of friends to which you belong In other words the social and institutional networks that city dwellers occupy potentially limit their sexual options by making different types of sexual activities relationships or meeting places less accessible To explain this idea of sex in the city the editors of this work develop a theory of sexual marketplaces the places where people look for sexual partners They then use this theory to consider a variety of questions about sexuality Why do sexual partnerships rarely cross racial and ethnic lines even in neighborhoods where relatively few same ethnicity partners are available Why do gay men and lesbians have few public meeting spots in some neighborhoods but a wide variety in others Why are African Americans less likely to marry than whites Does having a lot of friends make you less likely to get a sexually transmitted disease And why do public health campaigns promoting safe sex seem to change the behaviors of some but not others Considering vital questions such as these and shedding new light on the city of Chicago this work will profoundly recast our ideas about human sexual behavior The Routledge Companion to Critical Management Studies Anshuman Prasad, Pushkala Prasad, Albert Mills, Jean Helms Mills, 2015-08-14 The scholarly field of Critical Management Studies CMS is in a state of flux Against a backdrop of dramatic global shifts CMS scholarship has lately taken a number of new and exciting directions and at times challenged older critical voices Novel theoretical frameworks and diverse research interests mark the CMS field as never before Interrogating conventional critiques of management and arguing for fresh approaches *The Routledge Companion to Critical Management Studies* captures this intellectual ferment and new spirit of inquiry within CMS and showcases the pluralistic generation of CMS scholars that has emerged in recent years Setting the

scene for a crucial period for the discipline this insightful volume covers new ground and essential areas grouped under the following themes Critique and its dis contents Difference otherness marginality Knowledge at the crossroads History and discourse Global predicaments Drawing on the expertise of an international team of contributing scholars The Routledge Companion to Critical Management Studies is a rich resource and the perfect reference tool for students and researchers of management and organization
