The Challenges of Working with Child Sexual Exploitation and How a Psychoanalytic Understanding

Can Help Marion Bower, Robin Solomon, 2024-06-03 Sexual exploitation is becoming endemic in our society It involves victims being coerced to enter abusive sexual relationships with individuals or gangs It can occur with children from care homes or from more privileged backgrounds Sexual exploitation is so addictive that it is really difficult to extract the victims This is the first book that we are aware of that examines exploitation using a psychoanalytic framework which makes the behaviour and motives of victims and in some cases exploiters comprehensible The book looks at a range of situations from care homes to refugee camps and elite schools We expect this book to become indispensable for social workers psychotherapists counsellors and care workers who have to tackle child sexual exploitation Giving up an addiction is a struggle Our clinical examples show how much and what kinds of work are needed to start to release girls from their addiction to their exploiters The roots of vulnerability lie in an attack on the maternal function This is reflected in the huge expansion of day care taking children from as little as three months old Care for mothers and children can be transformed We demonstrate how powerful properly organised maternal type care can be to give young people a sound start to their lives Proactive Child Protection and Social Work Liz Davies, Nora Duckett, 2016-04-07 Protecting children from abuse and neglect is a serious and complex area of social work practice and understanding the critical skills of communicating with and listening to children's voices and those of their advocates and survivors is essential In this new edition of a highly regarded book the authors offer a strengthened children's rights perspective and explore four main categories of child abuse emotional abuse sexual abuse neglect and physical abuse The book also considers legal safeguards and protective processes to increase the creativity and confidence of those undertaking such work Locating knowledge and skills within a series of case examples from real life practice and serious case reviews this book is an indispensable resource for students professionals and others concerned with protecting children This second edition has been comprehensively revised and updated to include current research evidence and a focus on the neglected protection needs of sexually exploited young people children in custody disabled children young carers and unaccompanied child migrants **Child sexual exploitation and the response to localised grooming** Great Britain: Parliament: House of Commons: Home Affairs Committee, 2013-06-10 This report reveals results of the inquiry into children being treated in an appalling way not just by their abusers but because of catastrophic failures by the very agencies that society has appointed to protect them It is still happening in every part of the country The quality of the response to the abuse depends on where you live and that is inexcusable Race is a factor but it is one of many in cases of child sexual exploitation Officials who fail to act for example in places like Rotherham or Rochdale must not be allowed to evade responsibility through early retirement or resignation for other reasons and should not be paid compensation of any kind The police social services and the Crown Prosecution Service must all bear responsibility for the way in which vulnerable children have been left unprotected by the system The Ministry of Justice ought to implement a number of reforms to court processes including section 28 of the Youth Justice and Criminal Evidence Act 1999 the introduction of specialist

courts either for child sexual exploitation cases or for sexual offences as a whole and invite the Lord Chief Justice to consider recommending to the Judicial College that specific training on child sexual exploitation cases be developed and provided
