**The Theory of Contract Law** Peter Benson,2001-02-05

Although the law of contract is largely settled there appears to be no widely accepted comprehensive theory of its main principles and doctrines or of its normative basis Contract law theory raises issues concerning the relation between law and morality the role and the importance of rights the connection between justice and economics and the distinction between private and public law This collection of six full length essays written by some of the most eminent scholars in the field explores the general theory of contract law from a variety of theoretical perspectives The volume addresses a wide range of issues both methodological and substantive in the theory and practice of contract law While the essays build upon past theoretical contributions they also attempt to take contract theory further and suggest promising ways to develop theory of contract law

**Mistake, Fraud and Duties to Inform in European Contract Law** Ruth Sefton-Green,2005-02-10 This 2005 examination of twelve case studies about mistake fraud and duties to inform reveals significant differences about how contract law works in thirteen European legal systems and despite the fact that the solutions proposed are often similar what divergent values underlie the legal rules Whereas some jurisdictions recognise increasing duties to inform in numerous contracts so that the destiny of mistake and fraud classical defects of consent may appear to be uncertain other jurisdictions continue to refuse such duties as a general rule or fail to recognise the need to protect one of the parties where there is an imbalance in bargaining power or information Avoiding preconceptions as to where and why these differences exist this book first examines the historical origins and development of defects of consent then considers the issues from a comparative and critical standpoint

**The Politics of Land Reform in Africa** Doctor Ambreena Manji,2013-07-04 Across Africa land is being commodified private ownership is replacing communal and customary tenure Farms are turned into collateral for rural credit markets Law reform is at the heart of this revolution The Politics of Land Reform in Africa casts a critical spotlight on this profound change in African land economy The book illuminates the key role of legislators legal consultants and academics in tenure reform These players exert their influence by translating the economic and regulatory interests of the World Bank civil society groups and commercial lenders in to questions of law Drawing on political economy and actor network theory The Politics of Land Reform in Africa is an indispensable contribution to the study of agrarian change in developing countries

**Prenuptial Agreements and the Presumption of Free Choice** Sharon Thompson,2015-08-27 This book provides an alternative perspective on an issue fraught with difficulty the enforcement of prenuptial agreements Such agreements are enforced because the law acknowledges the rights of spouses to make autonomous decisions about the division of their property on divorce Yet this book demonstrates that in the attempt to promote autonomy other issues such as imbalance of power between the parties become obscured This book offers an academic and practical analysis of the real impact of prenuptial agreements on the relationships of those involved Using a feminist and contractual theoretical

framework it attempts to produce a more nuanced understanding of the autonomy exercised by parties entering into prenuptial agreements This book also draws on an empirical study of the experiences and views of practitioners skilled in the formation and litigation of prenuptial agreements in New York Lastly it explores how the court might address concerns regarding power and autonomy during the drafting and enforcement processes of prenuptial agreements which in turn may enhance the role that prenups can play in the judicial allocation of spousal property on the breakdown of marriage

**Regulation of Sexual Conduct in UN Peacekeeping Operations** Olivera Simic, 2012-05-25 This book critically examines the response of the United Nations UN to the problem of sexual exploitation in UN Peace Support Operations It assesses the Secretary General's Bulletin on Special Protection from Sexual Exploitation and Sexual Abuse 2003 SGB and its definition of sexual exploitation which includes sexual relationships and prostitution With reference to people affected by the policy using the example of Bosnian women and UN peacekeepers and taking account of both radical and sex positive feminist perspectives the book finds that the inclusion of consensual sexual relationships and prostitution in the definition of sexual exploitation is not tenable The book argues that the SGB is overprotective relies on negative gender and imperial stereotypes and is out of step with international human rights norms and gender equality It concludes that the SGB must be revised in consultation with those affected by it namely local women and peacekeepers and must fully respect their human rights and freedoms particularly the right to privacy and sexuality rights Law and Families Helen Rhoades, 2017-11-30 This volume highlights important classic and contemporary works by law and society scholars who analyze the complex and often highly political relationship between law and families Featuring authors from Australia Canada England and the United States the volume looks at how socio legal scholars think about families and the law how law shapes family practices the capacity of family law to deliver social justice and how family disputes are resolved Topics such as law's role in recognizing spousal and parental relationships or promoting responsible behaviour or equality norms are covered and the relationship between law's assumptions and the lived realities of families is problematized Feminist Perspectives on Contract Law Linda Mulcahy, Sally Wheeler, 2017-01-27 The law of contract is ripe for feminist analysis Despite increasing calls for the reconceptualisation of neo classical ways of thinking feminist perspectives on contract tend to be marginalised in mainstream textbooks This edited collection questions the assumptions made in such works and the ideologies that underpin them drawing attention to the ways in which the law of contract has facilitated the virtual exclusion of women the feminine and the private sphere from legal discourse Contributors to this volume offer a range of ways of thinking about the subject and cover topics such as the feminine offeree feminist perspectives on contracts in cyberspace the forgotten world of women and contracts restitution and feminist economic theory the gendered power dynamics of undue influence and the feminisation of dispute resolution **Law and Gender in Modern Ireland** Lynsey Black, Peter Dunne, 2019-02-21 Law and Gender in Modern Ireland Critique and Reform is the first generalist text to tackle the intersection of law and gender in this jurisdiction

for over two decades As such it could hardly have come at a more opportune moment The topic of law and gender perhaps more so than at any other time in Irish history has assumed a dominant place in political and academic debate Among scholars and policy makers alike the regulation of gendered bodies and the legal status of sexual and gendered identities is now a highly visible fault line in public discourse Debates over reproductive justice exemplified by the recent referendum to remove the 8th Amendment increased rights for lesbian gay bisexual and transgender persons including the public sanctioned introduction of same sex marriage and the historic mistreatment of women and young girls have re shaped Irish public and political life and encouraged Irish society to re examine long unchallenged gender norms While many traditional flashpoints remain such as abortion and prostitution sex work there are also new questions including surrogacy and the gendered experience of asylum frameworks which have emerged As policy makers seek to enact reforms they face a population with increasingly polarised perceptions of gender and a legal structure ill equipped for modern realities This edited volume directly addresses modern Irish debates on law and gender Providing an overview of the existing rules and standards as well as exploring possible options for reform the collection stands as an important statement on the law in this jurisdiction and as an invaluable resource for pursuing gendered social change While the edited collection applies a doctrinal methodology to explain current statutes case law and administrative practices the contributors also invoke critical gender queer and race perspectives to identify and problematise existing and potential challenges This edited collection is essential reading for all who are interested in law gender and processes of social change in modern Ireland

Personal Insolvency Law, Regulation and Policy David Milman, 2017-05-15 As the radical reforms contained in the Enterprise Act 2002 have come fully on stream Personal Insolvency Law has become a major focus of attention At the same time all evidence points to increasing levels of personal debt with the consequential rise in bankruptcies Personal Insolvency Law Regulation and Policy therefore provides a timely evaluation of the current state of English law in this important area The volume presents a critical analysis of the regimes of bankruptcy and individual voluntary arrangement in the context of current policy goals It examines the impact of the Insolvency Act 2000 and the Enterprise Act 2002 and discusses the treatment of bankruptcy within the global economy The book will be a valuable guide for students and academics engaged in the study of this increasingly important branch of private law The study will also be of value to practitioners and policy makers
