Liberalism Unveiled: Forging A New Third Way In Singapore Bryan Yi Da Cheang, Donovan Choy, 2021-01-04 Since 1965 Singapore has been propelled to the dizzying heights of first world prosperity Yet the People s Action Party s signature style of technocratic elitism has come under increasing criticism by a new generation of left leaning progressive scholars and activists condemning the excesses of neoliberalism The PAP s mode of governance that prioritizes economic growth is criticised in favour of a vaguely European style welfare state and greater state intervention Bryan Cheang and Donovan Choy break this traditional pro PAP versus anti PAP dichotomy by providing a fresh classical liberal perspective The authors contend that both sides discern only parts of the political puzzle correctly This book envisions a new path forward for Singapore s policy making one characterised by greater competition freedom It critiques the conservative right through a fresh take on the philosophical underpinnings of the Singapore Consensus communitarianism meritocracy and technocracy The authors also engage with the new social democratic orthodoxy demonstrating the dangers of egalitarian interventions state based environmentalism Applying the interdisciplinary insights of political philosophy and political economy this novel account recommends epistemic liberalism a system of governance based on intellectual humility limited government and decentralisation

Singapore And Asia In A Globalized World: Contemporary Economic Issues And

Policies Wai Mun Chia, Hui Ying Sng, 2008-10-30 This book is a spin off from a highly successful seminar series jointly organized by the Division of Economics of the Nanyang Technological University NTU and the Ministry of Education MOE of Singapore. The seminars discuss contemporary domestic and regional economic issues and public policies that are relevant to the everyday lives of Singaporeans. The wish to introduce these economic issues to a broader audience outside the confinement of a lecture theatre came to fruition with the completion of this book. This book contains 13 chapters that are grouped under three sections. Under the section Public Policies and Economic Issues of Singapore, Singapore's public policies in the areas of healthcare, Central Provident Fund and monetary policy are explored as well as issues concerning Singapore's economic development such as economic transformation, innovation and capital accumulation are discussed. The second section, Singapore and the Region in a Globalized World, looks at the challenges and opportunities presented to Singapore and the region in an increasingly globalized world. Current issues on the sub-prime crisis and Asian monetary integration are also discussed. The last section, Other Economic Issues, consists of papers in specific areas such as economics of medical decisions, economics of love and the role of exchange rates in foreign direct investment.

Intellectual Property, Competition Law and Economics in Asia R Ian McEwin, 2011-10-07 This book results from a conference held in Singapore in September 2009 that brought together distinguished lawyers and economists to examine the differences and similarities in the intersection between intellectual property and competition laws in Asia. The prime focus was how best to balance these laws to improve economic welfare. Countries in Asia have different levels of development and experience with intellectual property and competition laws. Japan has the longest experience and now vigorously enforces both competition and intellectual property laws. Most other countries in Asia have only recently introduced intellectual property laws due to the Trade-Related Aspects of Intellectual Property Rights (TRIPS) Agreement and competition laws, sometimes due to the World Bank, International Monetary Fund or free trade agreements. It would be naïve to think that laws even if similar on the surface have the same goals or can be enforced similarly. Countries have differing degrees of acceptance of these laws, different economic circumstances and differing legal and political institutions. To set the scene, Judge Doug Ginsburg, Greg Sidak, David Teece and Bill Kovacic look at the intersection of intellectual property and competition laws in the United States. Next are country chapters on Asia, each jointly authored by a lawyer and an economist. The country chapters outline the institutional background to the intersection in each country, discuss the policy underpinnings theoretically as well as describing actual policy initiatives, analyse the case law in the area and make policy prescriptions.

Economic Diplomacy Chin L. Lim, Margaret Liang, 2011 Singapore, a small country with limited resources, has nevertheless played a significant role in regional and global trade negotiations. Its negotiators possess a wealth of knowledge and experiences, and yet few have told their story. They share their experiences in such negotiations, how they

promoted national interests and advanced the global trade agenda It will appeal to readers who are interested in how international economic diplomacy is conducted and Singapore's role and perspective as an open trading nation
