Town Planning ,1925 Grand Coulee Dam Ray Bottenberg,2008 Washington s Grand Coulee is an ice age channel that carried the Columbia River when ice dammed its main course Grand Coulee was long recognized as an ideal place to store Columbia River water to irrigate the arid but fertile Columbia Basin A dam was proposed as early as 1903 but opposition by Spokane private power interests and the cost of the dam delayed design and construction until the administration of Pres Franklin D Roosevelt Roosevelt a public power advocate used the Grand Coulee Dam project to help put the unemployed to work The result was the world s largest man made structure and also the world s largest power plant costing more than 163 million and the lives of at least 72 workers The dam powered production of aluminum atomic weapons shipbuilding and much more contributing mightily to America s victory in World War II Postwar developments provided irrigation for 700 000 acres of farmland *Hearings* United States. Moehring,2016-10-01 Resort City in the Sunbelt is a non sensationalistic scholarly account of Las Vegas from the building of the Hoover Dam to the construction of the MGM Grand Hotel Historian Eugene Moehring provides a balanced view of the city s urban development Although a unique city in many ways Las Vegas has displayed characteristics common to other sunbelt cities across the western United States including underfunded social services low density urbanization with a heavy reliance upon automobiles a sluggish response to problems within minority communities a preference for efficient business like government and a mania for low taxes The gaming and resort aspects are fully considered but Moehring emphasizes the city as part of the continually expanding sunbelt From this important study historians will conclude that despite some of its unusual traits Las Vegas is much like other western cities and therefore deserves recognition as one of the fastest growing centers in postwar America In a new and expanded epilogue to this edition Moehring looks at the major events of the three decades leading up to 2000 and their underpinnings Hearings, Reports and Prints of the Senate Select Committee on Nutrition and Human Needs United States. Klinge,2008-10-01 At the foot of the snow capped Cascade Mountains on the forested shores of Puget Sound Seattle is set in a location of spectacular natural beauty Boosters of the city have long capitalized on this splendor recently likening it to the fairytale capital of L Frank Baum s The Wizard of Oz the Emerald City But just as Dorothy Toto and their

traveling companions discover a darker reality upon entering the green gates of the imaginary Emerald City those who look more closely at Seattle's landscape will find that it reveals a history marked by environmental degradation and urban inequality This book explores the role of nature in the development of the city of Seattle from the earliest days of its settlement to the present Combining environmental history urban history and human geography Matthew Kingle shows how attempts to reshape nature in and around Seattle have often ended not only in ecological disaster but also in social inequality The price of Seattle's centuries of growth and progress has been high Its wildlife especially the famous Pacific salmon and its poorest residents have paid the highest price Kingle proposes a bold new way of understanding the interdependence between nature and culture and he argues for what he calls an ethic of place Using Seattle as a compelling case study he offers important insights for every city seeking to live in harmony with its natural landscape Provided by publisher

Rooster Town Evelyn Peters,Matthew Stock,Adrian Werner,2018-10-16 Melonville Smokey Hollow Bannock Town Fort Tuyau Little Chicago Mud Flats Pumpville Tintown La Coule These were some of the names given to M tis communities at the edges of urban areas in Manitoba Rooster Town which was on the outskirts of southwest Winnipeg endured from 1901 to 1961 Those years in Winnipeg were characterized by the twin pressures of depression and inflation chronic housing shortages and a spotty social support network At the city s edge Rooster Town grew without city services as rural M tis arrived to participate in the urban economy and build their own houses while keeping M tis culture and community as a central part of their lives In other growing settler cities the Indigenous experience was largely characterized by removal and confinement But the continuing presence of M tis living and working in the city and the establishment of Rooster Town itself made the Winnipeg experience unique Rooster Town documents the story of a community rooted in kinship culture and historical circumstance whose residents existed unofficially in the cracks of municipal bureaucracy while navigating the legacy of settler colonialism and the demands of modernity and urbanization **The Survey** ,1912

Arrival City Doug Saunders,2011-03-22 Look around the largest migration in human history is under way For the first time ever more people are living in cities than in rural areas Between 2007 and 2050 the world s cities will have absorbed 3 1 billion people Urbanization is the mass movement that will change our world during the twenty first century and the arrival city is where it is taking place The arrival city exists on the outskirts of the metropolis in the slums or in the suburbs the American version is New York s Lower East Side of a century ago or today s Herndon County Virginia These are the places where newcomers try to establish new lives and to integrate themselves socially and economically Their goal is to build communities to save and invest and hopefully move out making room for the next wave of migrants For some success is years away for others it will never come at all As vibrant places of exchange arrival cities have long been indicators of social health

Whether it s Paris in 1789 or Tehran in 1978 whenever migrant populations are systematically ignored we should expect violence and extremism But as the award winning journalist Doug Saunders demonstrates when we make proper investments in our arrival cities through transportation education security and citizenship a prosperous middle class develops Saunders takes us on a tour of these vital centers from Maryland to Shenzhen from the favelas of Rio to the shantytowns of Mumbai from Los Angeles to Nairobi He uncovers the stories both inspiring and heartbreaking of the people who live there and he shows us how the life or death of our arrival cities will determine the shape of our future *The Grand Promise* Rebekah Anderson,2022-06-01 2023 PNWA Nancy Pearl Book Award Finalist A thoughtful look at desperation brought about by early 20th century American enterprise Kirkus Reviews Enthralling the storytelling has grit under its fingernails Publishers Weekly BookLife Review Readers will be swept up Seattle Book Review Published on the 80th anniversary of the Grand Coulee Dam The Grand Promise is a work of literary fiction about the real communities that were impacted by the dam s construction on the Columbia River in the 1930 s during Franklin D Roosevelt s presidency Called a gripping debut by best selling author Jonathan Evison and an ambitious saga by Washington State Book Award winner Peter Mountford The Grand Promise was the 1 fiction bestseller at Small Press Distribution in its release month
