Shackled Continentpb:

The Shackled Continent Robert Guest, 2013-03-28 Africa is the only continent to have grown poorer over the past three decades Why Robert Guest's fascinating book seeks to diagnose the sickness that continues to hobble Africa's development Using reportage first hand experience and economic insight Robert Guest takes us to the roots of the problems Two fifths of African nations are at war AIDS has lowered life expectancy to as young as forty and investment is almost impossible as houses that could be used as collateral do not formally belong to their owners Most shocking of all is the evidence that the billions of dollars of aid given to Africa has had little perceptible effect on the poor The Shackled Continent offers insightful and occasionally controversial explanations for this state of affairs In this magnificent and engaging book Robert Guest provides an invigorating history and an inspired commentary on the enigma of modern Africa and this paperback edition includes a new chapter I doubt whether there is a better brief introduction to the travails of modern Africa and their causes Anthony Daniels Sunday Telegraph He is a lively and observant reporter who can describe in a breezy no nonsense style the horrors and miseries of Africans in the interior The reader can learn much from this lively and outspoken book Anthony Sampson Guardian

The Shackled Continent Robert Guest, 2010-09-14 A former Africa editor for The Economist Robert Guest addresses the troubled continent's thorniest problems war AIDS and above all poverty Newly updated with a preface that considers political and economic developments of the past six years The Shackled Continent is engrossing highly readable and as entertaining as it is tragic Guest pulls the veil off the corruption and intrigue that cripple so many African nations posing a provocative theory that Africans have been impoverished largely by their own leaders' abuses of power From the minefields of Angola to the barren wheat fields of Zimbabwe Guest gathers startling evidence of the misery African leaders have inflicted on their people But he finds elusive success stories and examples of the resilience and resourcefulness of individual Africans too from these he draws hope that the continent will eventually prosper Guest offers choices both commonsense and controversial for Africans and for those in the West who wish Africa well

The Shackled Continent Robert Guest, 2004 Two fifths of African nations are at war AIDS has lowered life expectancy to as young as 40 years old investment is almost impossible due to lack of collateral and foreign aid has had very little effect on the poor This title provides a history and commentary on the enigma of modern Africa

Early Black Thinkers in the Diaspora and Their Conceptualizations of Africa Abdul Karim Bangura, 2024-08-24 This book argues that just as the ideas of Pan Africanism birthed by Henry Sylvester Williams and others in the late 1800s and Negritude ushered by Aim C saire and others in the early 1900s emboldened many major Black thinkers to push for independence across Africa so will these early thinkers' ideas help in the building of a new Africa The various chapters explore the proposition that the thoughts of early great Diaspora Black thinkers are still wellsprings of tenets that can be used to build a new Africa The chapters examine how these thinkers conceptualized Africa in their works with the main objective of delineating their conceptualizations to generate suggestions

on how to build a new Africa **Corruption and Constitutionalism in Africa** Charles M. Fombad, Nico Steytler, 2020-03-12 This is an open access title available under the terms of a CC BY NC ND 4.0 International license It is offered as a free PDF download from OUP and selected open access locations This collection of essays focuses on the critical issue of corruption that lies at the heart of the crisis of constitutionalism in Africa Most anti corruption measures over the years have been inadequate serving merely as symbolic gestures to give the impression something is being done The African Union's declaration of 2018 as the African anti corruption year belated though it be is an open recognition by African governments of the impact corruption will have on the continent unless urgent steps are taken The key objective of this volume is to draw attention to the problem of corruption the complexity of the situation with all its multi faceted social political economic and legal dimensions and the need for remedial action **Animal Farm Prophecy Fulfilled in Africa** Chiku Malunga, 2014-09-08 Animal Farm Prophecy Fulfilled in Africa A Call to a Values and Systems Revolution discusses why deep levels of poverty and suffering persist in Africa despite all the successive regime changes over the last half century It discusses why more people are poorer now than they were in the colonial era The author argues that this is so because most of the leadership change efforts on the continent focus on replacing individuals rather than changing or overhauling the negative systems and the values inherent in the systems that the individual leaders inherit create or perpetuate The problems persist because they are systemic rather than personal in nature Deep and lasting change that could result in lifting millions of people out of poverty will only occur when the systems rather than only the individuals are changed or replaced The author challenges ordinary citizens especially the youth to rise up against animal farm systems in order to create the tomorrow to which they aspire and deserve **Things Come Together** Robert Rotberg, 2020-04-28 All of Africa in a single volume Not since John Gunther has the real Africa appeared between two covers And the continent is a puzzle for most people This book answers questions about who and what is African about climate change about war about how Africans make their living about health and schooling and much more *Stewardship: Transforming Africa Through Excellence in Stewardship* David Sonye, 2010-04-14 David Sonye's vision is to lead transformation in Africa by mobilizing local communities to enhance the resources that God has placed in their environment Sonye believes that transformation of communities will only be possible when people take personal responsibility and not waiting for some outsiders somewhere to come and change the local standards of living Towards Africa-oriented Risk Analysis Models Korwa Gombe Adar, Richard O. Iroanya, F. O. C. Nwonwu, 2008 Risk analysis studies on Africa conducted by a number of international organisations have addressed a number of complex and interlocking socioeconomic and political issues largely painting a bleak picture of the continent These reports have been used by the Western countries as benchmarks for the flow of donor funds often with disastrous consequences The failure of the Structural Adjustment Programmes SAPs introduced by the Bretton Woods institutions in the 1970s and 1980s serve as a good example Taking cognisance of these interpretations the case studies in this volume have

employed appropriate methodological conceptual and theoretical approaches with the objective of reaching balanced assessments on the underlying principles of risk and threat in Africa The authors take a more holistic view clearly defining the concept of risk and its corollaries and going beyond the somewhat limited view of those organisations which apply largely Eurocentric values to their assessments
