Shades of Green Ruth Tittensor, 2016-10-31 This book takes a fresh look at the most disliked tree in Britain and Ireland explaining the reasons it was introduced and why it became ubiquitous in the archipelagos of northwest Europe Sitka spruce has contributed to the Pacific Coast landscapes of North America for over ten millennia For the Tlingit First Nation it is the most important tree in terms of spiritual relationships art and products in daily use such as canoes containers fish traps and sweet cakes Since the late nineteenth century it has also been the most important tree to the timber industry of west coast North America The historical background to the modern use of Sitka spruce is explored The lack of cultural reference may explain negative public response when treeless uplands in the UK and Ireland were afforested with introduced conifer species particularly Sitka spruce following two World Wars The multipurpose forestry of today recognizes that Sitka spruce is the most important tree to the timber industry and to a public which uses its many products but fails to recognize the link between growing trees and bought goods The apparently

featureless and wildlife less Sitka spruce plantations in UK uplands are gradually developing recognizable ecological features Sitka spruce has the potential to form temperate rain forests this century as well as to produce much needed goods for society The major contribution of Sitka spruce to landscapes and livelihoods in western North America is by contrast widely accepted But conserving natural old growth forests sustaining the needs of First Nations and producing materials for the modern timber industry will be an intricate task

All Shades of Green Aarav Seth ,2020-09-25 The sole purpose of this book *All shades of Green* is to sensitize and inform people about the threats that our planet is facing in the recent times and provide solutions that can be implemented by individuals or organizations Many interesting real life case studies have also been discussed to show the prompt remedies that can be adopted in cleansing the environment and for the betterment of our community With climate related risks on the rise and impacts being felt around the globe there is a pressing need to take action The book as a whole aims to create a shift from linear to circular economy and encourages readers to adopt a sustainable and environment friendly lifestyle Author of the book Aarav Seth is a 17 year old environment enthusiast this book is a not for profit initiative and available free of charge on Google Play Books

Shades of Green Ian Frederick Finseth,2009-01-01 *Shades of Green* offers a creative reimagining of early and antebellum American literary culture by exploring the complex web of relationships linking racial thought to natural science and natural imagery The book charts a dynamic shift in both polemical and imaginative literature during the century before the Civil War as scientific artistic and spiritual vocabularies regarding nature became increasingly important for authors seeking to mobilize public opinion against slavery or to redefine racial identity Finseth argues that these vocabularies both liberated and constrained antislavery philosophy and more broadly that our understanding of race in early American literature must take the natural world into account In doing this Finseth fuses a cultural history of the period with fresh readings of such major figures as Ralph Waldo Emerson Harriet Beecher Stowe and Frederick Douglass Drawing on a range of theoretical and disciplinary perspectives including aesthetics anthropology phenomenology and ecocriticism *Shades of Green* demonstrates the agility with which human thought about the natural and the racial leapt across formal epistemological professional and artistic boundaries In this innovative account the politics of race and slavery are shown to have been deeply intertwined with putatively apolitical cultural understandings of the natural world The book will be of value to scholars in a variety of disciplines including American studies African American literary history and environmental

philosophy **Shades Of Green** Paul Waddington,2010-03-11 Few of us have what it takes to go all the way on the green scale Yet as fears about the food chain climate change plummeting biodiversity and the sustainability of our current lifestyles take hold wouldn't it be good to be clear about our range of options Whether you are pondering bicycles or baths holidays or heating pets or pasta washing dishes or wine Shades of Green is the book for you It's an easy to use A Z guide which sets out your choices on a scale from completely green to not even a little bit green No preaching No finger wagging Whether you're an eco warrior or a planet trasher or like most of us something in between Shades of Green will give you all you need to know so you can choose what suits you best This is essential and often surprising reading Shades of Green Neil

Gunningham,Robert A. Keating,2017-08-08 Drawing on records of about 5 500 soldiers and veterans Shades of Green traces the organization of Irish regiments from the perspective of local communities in Connecticut Illinois and Wisconsin and the relationships between soldiers and the home front Research on the impact of the Civil War on Irish Americans has traditionally fallen into one of two tracks arguing that the Civil War either further alienated Irish immigrants from American society or that military service in defense of the Union offered these men a means of assimilation In this study of Irish American service Ryan W Keating argues that neither paradigm really holds because many Irish Americans during this time already considered themselves to be assimilated members of American society This comprehensive study argues that the local community was often more important to ethnic soldiers than the imagined ethnic community especially in terms of political social and economic relationships An analysis of the Civil War era from this perspective provides a much clearer understanding of immigrant place and identity during the nineteenth century With a focus on three regiments not traditionally studied the author provides a fine grained analysis revealing that ethnic communities like other types of communities are not monolithic on a national scale Examining lesser studied communities rather than the usual those of New York City and Boston Keating brings the local back into the story of Irish American participation in the Civil War thus adding something new and valuable to the study of the immigrant experience in America's bloodiest conflict Throughout this rich and groundbreaking study Keating supports his argument through advanced quantitative analysis of military service records and an exhaustive review of a massive wealth of raw data his use of quantitative methods on a large dataset is an unusual and exciting development in Civil War studies Shades of Green is sure to shake up several fields of study that rely on ethnicity as a useful category for analysis its impressive research provides a significant contribution to scholarship Woven Shades of Green Tim

Wenzell,2019-08-09 Woven Shades of Green is an annotated selection of literature by authors who focus on the natural world and the beauty of Ireland It begins with the Irish monks and their largely anonymous nature poetry written at a time when

Ireland was heavily forested A section follows devoted to the changing Irish landscape through both deforestation and famine including the nature poetry of William Allingham and James Clarence Mangan essays from Thomas Gainford and William Thackeray and novel excerpts from William Carleton and Emily Lawless The anthology then turns to the nature literature of the Irish Literary Revival including Yeats and Synge and an excerpt from George Moore's novel *The Lake* Part four shifts to modern Irish nature poetry beginning with Patrick Kavanaugh and continuing with the poetry of Seamus Heaney Eavan Boland and others Finally the anthology concludes with a section on various Irish naturalist writers and the unique prose and philosophical nature writing of John Moriarty followed by a comprehensive list of environmental organizations in Ireland which seek to preserve the natural beauty of this unique country Published by Bucknell University Press Distributed worldwide by Rutgers University Press

Three Shades of Green Manasa Rachapalli, 2008-11-20 *Three Shades of Green* has been written taking into consideration different perspectives of human life the three stories *Sandy and Pearl* *A Fine Line* and *Peetam* have different storylines about different protagonists set in different situations of human life Underlying each story is a message which is conveyed in a subtle manner throughout the stories Critical issues like female foeticide and dowry have been taken up in the first story very beautifully the second story talks about love betrayal and a fine line between love and selfishness the third story *Peetam* talks about the immortality of the soul *Three Shades of Green* is a beautiful presentation of feminist literature interspersed with wonderful emotions of the human mind the characters are so real that you would often mistake them for real life people the challenges before two women each confronted with a different problem how a person in love crosses the fine line between love and selfishness and the invincibility of the human soul presented through use of simple language and a mature style makes all these stories worth reading

50 Shades of Green Catherine Elizabeth, 2022-06-20 Ok I admit it I am trying to trick you with my choice of title I want to get your attention The parallel with the *fifty shades of grey* production is absolutely intended Of course you only understand what the heck I'm talking about if you've read the books or seen the movies Anyhow if I tell you right away that there is not much suspense or sexual content in this book you may put it back down and I don't want that So let's see if I can manage to get you excited about what excites me Sexual energy is energy after all and energy put towards any goal tends to yield results My dream may already be your dream maybe not yet but it's about making our common world a little better a little greener Any shade is good because let's be honest we don't all have the same level of motivation or opportunities but a little greener is always possible And a little greener over time means we are going in the direction of living more sustainably on this planet in better balance with the natural world

Murphy,2025-08-14 In this fourth book in the series about Nora Duffy her family and her friends *Forty Shades of Illusion* weaves the family's attempts to distinguish between reality and illusion as they once again travel to her Irish castle on the southwestern coast of Ireland. Mayhem and murder follow them when Nora's old nemesis relentlessly hunts her down so that he can kill her and anyone else who stands in his way. The family visits some of the most beautiful cities in the world and are supported during their trials by their police friends from Chicago, California, Ireland, Rome, Assisi, and Paris. In each city they visit, the family makes interesting new friends and business contacts. Nora and her father, Dr. Michael Duffy, a renowned cardiologist, strive to finish their second book about the continuing challenges that the world faces after the COVID pandemic. Nora is a petite pediatric brain surgeon in Chicago, while her handsome husband, Tommy Barry, is an international lawyer who continues to think of her as his Irish warrior princess who has inherited fairy-fey abilities. They now have a precocious daughter, Emily, who is seven years old and is a budding artist and musician. Their three-year-old son, Conor, has an irrepressible personality and loves to spring into gymnastic feats at a moment's notice wherever they are. Countering the evil that they encounter, three lovely weddings of relatives and friends occur and give them some well-needed entertainment and joy. Nora is delighted that some of the newer members of the staff at Duffy Hall Castle play important roles in bringing important discoveries to light. They find the bones of a young child from the 1500s in a locked chest on the fourth floor of the castle, along with a cache of important paintings that she created. It seems probable that Polly was a victim of much abuse when she was alive and is now a ghost. The Conneelley leprechaun clan, who live amidst the rocks at the nearby Coral Beach, once again provide inspiration and protection to the big people. Nora and Tom try to maintain a sense of balance amidst this chaos and they depend on each other for strength and support. The many activities of their large families provide relief for their stress. They believe that God is in charge and they ask him for his help every step along the way of their interesting but traumatic journey.

A Twisted Shade of Green Eloise Epps MacKinnon,2020-05-18 Is Love More Powerful Than Evil? The author of the series *A Twisted Shade of Green* returns with the motivating and passionate edge seater centered around one man's most thought-provoking unsaid truths and hidden obscurities of his past. An unmentioned time that Glen Monroe has concealed away from the one woman he vowed to tell everything: Kali Mathias. That instant Glen bartered his today filled with revenge for a tomorrow of lies and secrets, and Kali traded a squandered episode of lust for desiring unconditional love from Glen. Kali is in love. She realized Glen's heart is only telling him what she's felt since Friday, June 15, 2012. Two years ago when Kali's ardent gaze first met with Glen's, she understood he was destined by God to be her husband. That was until this resentful ex-lover from Glen's past sweeps back into Springfield, Virginia, like a vulture still carrying a heated torch for Glen and envy for Kali Iona Monroe, Glen's ex and the warden of his past life and the keeper of all Glen's lies and secrets. Is Kali Mathias ready for Iona Monroe, the other woman of Glen's past who's not going anywhere without him? Iona is back with a bag of games loaded with tricks to take Kali down and get her Glen back at all costs. How could Kali's passion for Glen

compare with Iona's for him It was more than Kali's heart can behold The envious ex lover who remains silent on Glen's lips yet Iona now stands between Kali and his happy ever after Rather more like a fairy tale where a scorned woman's jealous and resentful eyes sought after the same heart Kali so desires to treasure Nonetheless for Kali Glen's past life was a dominant volcano where the magma of mendacities and mysteries could erupt at any time The hands of Satan Iona Monroe lurks in the background to influence Kali's heart casting doubt on what Kali felt God destined for her Glen Monroe Could the exposed secrets from a woman of Glen's past derail his future with Kali Mathias forever or will joy come in the end The spawn of Satan has returned to wreak havoc and reclaim what's hers through any means possible as Kali finds herself asking Where is God is he really there While in her heart at that same time knowing Who else but God can turn a lustful and revengeful core into pure love for another or a pair of lying lips into the truth Who else but God can take your deepest and darkest secret meant to be used for evil and turn it into pure glory while loving you in the midst of it all So even though Kali and Glen might have permitted the sound of Satan Iona to waver their hearts momentarily the lips were now saying Who else but God was there Because although God's presence wasn't visible to Kali nor Glen like in the Book of Esther God is there surrounding them in His protective hands of love against the powerless tongue of Satan *Shades of Green* Devi Shree, 1972 Poems
