Jung through such disciples as Van Franz and Neumann to contemporary archetypal psychology By applying Jungian psychology to an array of myths to illustrate core concepts of this theoretical tradition Walker fills a conspicuous gap in the current literature on Jung from back cover *A Guided Tour of the Collected Works of C. G. Jung* Robert H. Hopcke,2013-02-05 The writings of C G Jung himself are the best place to read about all his main ideas but where to start when Jung s Collected Works run to more than eighteen volumes Robert H Hopcke s guide to Jung s voluminous writings shows exactly the best place to begin for getting a handle on each of Jung s key concepts and ideas from archetypal symbols to analytical psychology to UFOs Each chapter explains one of Jung s principal concerns then directs the reader where to read about it in depth in the Collected Works Each chapter includes a list of secondary sources to approach for further study which the author has updated for this edition to include books published in the ten years since the Guided Tour s first appearance **Education at the Edge of Experience** Marla Morris,2024-06-03 Presenting a unique exploration of education at the edge of experience this book investigates how unassimilable concepts can reconceptualize education in order to grapple with what is beyond understanding Working at the intersection of curriculum theory philosophy and psychoanalysis Morris examines how each of these unassimilable concepts such as lament disavowal breathlessness and the Kafkaesque point toward currere as the edge of experience It addresses what Lee Braver calls the groundless grounds and what Avital Ronell calls the quicksand that is philosophy to approach slippage and breaking points through an interdisciplinary lens Pointing to an understanding of our largely social ills and extending William F Pinar s early work on currere in new and innovative directions this book will appeal to curriculum theorists education philosophers psychoanalysts and those with interests in the philosophy and theory of education *Transformation of the Psyche* Joseph L. Henderson,Dyane N. Sherwood,2004-06-02 Written by Joseph L Henderson one of the first generation of Jungian analysts and Dyane N Sherwood a practising analyst this book is a striking and unique contribution to the resurgence of interest in alchemy for its way of representing the phenomenology of creative experience Transformation of the Psyche is organized around 22 illuminated paintings from the early Renaissance alchemical manuscript the Splendor Solis and is further illustrated by over 50 colour figures The images of the Splendor Solis are possibly the most beautiful and evocative alchemical paintings to be found anywhere and they are widely known to students of alchemy Jung reproduced several Splendor Solis images in his works yet prior to this book no one has explored the symbolism of the paintings as a series in relation to the process of depth psychological transformation This book is the first scholarly study of the paintings in their entirety and of the mythological and historical allusions contained within the images Transformation of the Psyche does not simply explain or analyze the pictures but invites the reader to participate in the creative and transforming process evoked by these images Transformation of the Psyche is a truly unique book that will be of immense value and interest to analysts and psychotherapists as well as scholars of mediaeval and renaissance intellectual history and students of spiritual
