Shadow Divers:

Shadow Divers Robert Kurson, 2005-06-30 A gripping true story of one of the last mysteries of World War II comparisons with THE PERFECT STORM are not out of place The Sunday Times February 1945 The war is almost over and Britain and America rule the waves To enlist for a German U boat is suicidal But sixty young Nazi soldiers choose to enter the cramped underwater conditions of the U 869 for the most difficult mission of all to reach and then bomb the coast of America Several weeks later the boat barely has enough fuel to make it home and radio links with Germany are broken The commander Neuerberg must make a tough decision to carry on to America and risk death in the pursuit of glory or to admit defeat and return home Driven by pride patriotism and determination he decides to risk it June 1991 A group of deep sea divers hear about the wreck of a U boat 260 feet beneath the sea There are virtually no records of the Nazi submarine and an on location investigation is extremely dangerous But twelve divers decide to take the risk Over the next six years they eventually piece together an incredible story In the process three of the divers die marriages collapse and history is made and Richie Kohler pushed its limits This is a beautifully written dramatic book about one of the greatest of human traits the resolve people find in moments of deepest peril

Shadow Divers Robert Kurson, 2005-05-24 New York Times Bestseller In the tradition of Jon Krakauer's Into Thin Air and Sebastian Junger's The Perfect Storm comes a true tale of riveting adventure in which two weekend scuba divers risk everything to solve a great historical mystery and make history themselves For John Chatterton and Richie Kohler deep wreck diving was more than a sport Testing themselves against treacherous currents braving depths that induced hallucinatory effects navigating through wreckage as perilous as a minefield they pushed themselves to their limits and beyond brushing against death more than once in the rusting hulks of sunken ships But in the fall of 1991 not even these courageous divers were prepared for what they found 230 feet below the surface in the frigid Atlantic waters sixty miles off the coast of New Jersey a World War II German U boat its ruined interior a macabre wasteland of twisted metal tangled wires and human bones all buried under decades of accumulated sediment No identifying marks were visible on the submarine or the few artifacts brought to the surface No historian expert or government had a clue as to which U boat the men had found In fact the official records all agreed that there simply could not be a sunken U boat and crew at that location Over the next six years an elite team of divers embarked on a quest to solve the mystery Some of them would not live to see its end Chatterton and Kohler at first bitter rivals would be drawn into a friendship that deepened to an almost mystical sense of brotherhood with each other and with the drowned U boat sailors former enemies of their country As the men's marriages frayed under the pressure of a shared obsession their dives grew more daring and each realized that he was hunting more than the identities of a lost U boat and its nameless crew Author Robert Kurson's account of this quest is at once thrilling and emotionally complex and it is written with a vivid sense of what divers actually experience when they meet the dangers of the ocean's underworld The story of Shadow Divers often seems too amazing to be true but it all happened

two hundred thirty feet down in the deep blue sea *Shadow Divers* Robert Kurson,2005 Recounts the 1991 discovery of a sunken German U boat by two recreational scuba divers tracing how they devoted the following six years to researching the identities of the submarine and its crew correcting historical texts and breaking new grounds in the world of diving along the way Reprint *Shadow Divers* Robert Kurson,2009-07-01 A novel for secondary school English classes with great writing and important themes **Shadow Divers** Robert Kurson,2005-03 The gripping true story about the discovery in 1991 of a shipwrecked U Boat off the coast of New Jersey and the ensuing life threatening diving operation to solve the mystery of the submarine s identity *Summary of Robert Kurson's Shadow Divers* Everest Media,2022-04-30T22:59:00Z Please note This is a companion version not the original book Sample Book Insights 1 Brielle New Jersey is the place where the boat captains and fishermen live It is also the place where the hangers on and wannabes and also rans keep believing in the sea 2 Nagle s area of expertise was the New York and New Jersey shipping lanes which saw a lot of traffic in the 1970s and 1980s The wrecks there rarely yielded treasure but they often yielded stories that fascinated Nagle 3 Deep wreck divers like Nagle had to brave the unknown depths of the ocean floor They had to discover all of their discoveries by themselves without any maps or directions 4 The Andrea Doria was the Mount Everest of shipwrecks It was not a typical target for Nagle since her location was widely known and she had been explored by divers since the day after her sinking But the Doria made siren calls to great wreck divers Where Divers Dare Randall Peffer,2016-04-05 In the tradition of *Shadow Divers* this is the gripping true account of the search for German U boat U 550 the last unfound diveable wreck of a U boat off the United States coast and the battle in which it was sunk On April 16 1944 the SS Pan Pennsylvania was torpedoed and sunk by the German submarine U 550 off the coast of Nantucket Massachusetts In return the sub was driven to the surface with depth charges and then sent to the bottom of the ocean by three destroyer escorts that were guarding the naval convoy For more than sixty years the location of the U boat s wreck eluded divers In 2012 a team found it the last undiscovered U boat in dive able waters off the Eastern Seaboard of the United States more than three hundred feet below the surface This is the story of their twenty year quest to find this Holy Grail of deep sea diving and their tenacious efforts to dive on this treacherous wreck and of the stunning clash at sea that sealed its doom and brought the Battle of the Atlantic to America s doorstep Shadow Divers Film Tie-in Special Edition Robert Kurson,2009-11 *Killing Shore* K. A. Nelson,2025-08-05 I thought that this was going to be another of those books puffing up the American side of WWII It most certainly isn t K A Nelson tells an interesting story illuminating a theatre of the North Atlantic campaign that has been comparatively neglected and he tells it well Recommended The Naval Review It is January 1942 Six weeks after the United States entered World War II Imperial Japan is annihilating American forces across the Far East while the Nazis stand triumphant over much of Europe Adolf Hitler s forces are about to commence an assault along the East Coast of the United States but this Atlantic Pearl Harbor would prove far more devastating than Japan s attack on Hawaii The wolves are closing in and few Americans realize their beaches and

coastal cities are about to witness the worst naval defeat in American history The Western Hemisphere holds the key to victory for the beleaguered Allies but only if the vast economic and military resources of North and South America can be carried across the Atlantic by Allied merchant ships These civilian manned cargo vessels are the backbone of the American war economy and the lifeline enabling Britain and the Soviet Union to survive but Hitler s favorite admiral also knows this and he has set in motion a plan of unprecedented boldness Germany s dreaded submarines or U boats are going to the United States The fiery months that followed would pit American servicemen against German U boat sailors in a desperate struggle that stained East Coast waters with oil and blood In the crosshairs of this deadly cat and mouse game was a stalwart contingent of civilian mariners who crewed the tankers and freighters supplying the war against the Axis Powers Thousands of them would perish as hundreds of merchant ships were sunk Every American coastal state became a battlefield in 1942 and the events that transpired off New Jersey illustrate the perils and brutality of this forgotten campaign The seafloor along the Garden State is today strewn with shipwrecks that bear witness to the innumerable ways to die faced by friend and foe alike only miles from the boardwalk Though these seafarers lives were forfeit the battle they fought would decide the fates of millions

Shadow Divers Exposed Gary Gentile,2006-01-01 The U 869 was one of more than 1 200 U boats that were constructed for the Nazi war machine It was sunk off the American eastern seaboard by a combination hedgehog and depth charge attack There were no survivors to tell the tragic tale Now for the first time the real saga of the U 869 can be told in full Archival documents have established that the U boat was sunk by two American destroyer escorts Seven crewmembers of those aggressive warships have supplemented the official record with their personal recollections Shadow Divers Exposed works on a multitude of levels It presents the actual circumstances that surrounded the loss of the U 869 It puts the discovery of the U 869 into perspective with other U boats that have been found in American waters It provides an overview of the U boat war through accounts of other U boat losses And it corrects some of the gross errors wild exaggerations and deliberate distortions that filled the pages of Shadow Divers The author interviewed a number of witnesses whose testimony contradicted the theatrical plot and boastful embellishments that formed the essential ingredients of Shadow Divers Some of these witnesses actually performed the deeds for which the chosen protagonists of Shadow Divers were given credit These witnesses disputed many of the fictitious elements that ran rampant through the pages of Shadow Divers By means of forensic analyses of shipwreck collapse torpedo mechanics and U boat survivors accounts the present volume explains why the U 869 could not have been sunk by a circular run of its own torpedo as Shadow Divers had its uninformed readers believe

Shadow Divers, Discussion Group Sets Robert Kurson,Reading Across Rhode Island,2006 **Total Undersea War** Aaron S. Hamilton,2020-05-30 An analysis of the air mast equipped German U boats in World War II and Allied countermeasures During the last year of World War II the once surface bound diesel electric U boat ushered in the age of total undersea war This was due to the introduction of an air mast or snorkel as it became known among the men who served

in Doenitz's submarine fleet U boats no longer needed to surface to charge batteries or refresh air they rarely communicated with their command operating silently and alone among the shallow coastal waters of the United Kingdom and across to North America At first U boats could remain submerged continuously for a few days then a few weeks and finally for months at a time and they set underwater endurance records not broken for nearly a quarter of a century The introduction of the snorkel was of paramount concern to the Allies who strived to frustrate the impact of the device before war's end Every subsequent wartime U boat innovation was subordinated to the snorkel including the new Type XXI Electro boat wonder weapon The snorkel's introduction foreshadowed the nearly untrackable weapon and instrument of intelligence that the submarine became in the postwar world *Total Undersea War* answers many long standing questions about the last year of the war How and why did U boats patrol so close inshore How effective was acoustic and anti radar camouflage Why was U boat wireless communication so problematic How did U boats navigate so effectively submerged What were the health implications of staying submerged for a month or more What does an accurate snorkel configuration look like This previously unpublished historical data is applied to a maritime archaeological case study about how the snorkel equipped U 869 likely met its demise off the United States east coast in February 1945 The theory that emerges based on a precise understanding of late war snorkel operations is new and compelling This exhaustive study the first of its kind draws upon wartime documents from archives around the world to re evaluate the last year of the U boat's deployment all its key technological innovations the evolving operations and tactics and Allied countermeasures It is destined to become an authoritative reference on late war U boat development for historians and maritime archaeologists alike for years to come Praise for *Total Undersea War* The snorkel's powerful influence during the Battle of the Atlantic is reflected in this riveting book that is filled with action photographs schematics and page turning accounts of the great advantage given to the German navy by this revolutionary piece of equipment *Maritime Engineering Journal* *Keepers of the Light: Look to the Light and Find Me* S. L. Russell, 2009-01-27 *Crashing Through* Robert Kurson, 2007-05-15 In his critically acclaimed bestseller *Shadow Divers* Robert Kurson explored the depths of history friendship and compulsion Now Kurson returns with another thrilling adventure the stunning true story of one man's heroic odyssey from blindness into sight Mike May spent his life crashing through Blinded at age three he defied expectations by breaking world records in downhill speed skiing joining the CIA and becoming a successful inventor entrepreneur and family man He had never yearned for vision Then in 1999 a chance encounter brought startling news a revolutionary stem cell transplant surgery could restore May's vision It would allow him to drive to read to see his children's faces He began to contemplate an astonishing new world Would music still sound the same Would sex be different Would he recognize himself in the mirror Would his marriage survive Would he still be Mike May The procedure was filled with risks some of them deadly others beyond May's wildest dreams Even if the surgery worked history was against him Fewer than twenty cases were known worldwide in which a person gained vision after a lifetime of blindness

Each of those people suffered desperate consequences we can scarcely imagine There were countless reasons for May to pass on vision He could think of only a single reason to go forward Whatever his decision he knew it would change his life Beautifully written and thrillingly told *Crashing Through* is a journey of suspense daring romance and insight into the mysteries of vision and the brain Robert Kurson gives us a fascinating account of one man's choice to explore what it means to see and to truly live

Rocket Men Robert Kurson, 2018-04-03 NEW YORK TIMES BESTSELLER The riveting inside story of three heroic astronauts who took on the challenge of mankind's historic first mission to the Moon from the bestselling author of *Shadow Divers* Robert Kurson tells the tale of Apollo 8 with novelistic detail and immediacy Andy Weir 1 New York Times bestselling author of *The Martian* and *Artemis* By August 1968 the American space program was in danger of failing in its two most important objectives to land a man on the Moon by President Kennedy's end of decade deadline and to triumph over the Soviets in space With its back against the wall NASA made an almost unimaginable leap It would scrap its usual methodical approach and risk everything on a sudden launch sending the first men in history to the Moon in just four months And it would all happen at Christmas In a year of historic violence and discord the Tet Offensive the assassinations of Martin Luther King Jr and Robert Kennedy the riots at the Democratic National Convention in Chicago the Apollo 8 mission would be the boldest riskiest test of America's greatness under pressure In this gripping insider account Robert Kurson puts the focus on the three astronauts and their families the commander Frank Borman a conflicted man on his final mission idealistic Jim Lovell who'd dreamed since boyhood of riding a rocket to the Moon and Bill Anders a young nuclear engineer and hotshot fighter pilot making his first space flight Drawn from hundreds of hours of one on one interviews with the astronauts their loved ones NASA personnel and myriad experts and filled with vivid and unforgettable detail *Rocket Men* is the definitive account of one of America's finest hours In this real life thriller Kurson reveals the epic dangers involved and the singular bravery it took for mankind to leave Earth for the first time and arrive at a new world *Rocket Men* is a riveting introduction to the Apollo 8 flight Kurson details the mission in crisp suspenseful scenes A gripping book The New York Times Book Review

A History of Submarine Warfare Along the Jersey Shore Joseph G. Bilby, Harry Ziegler, 2020-02-24 The ingenious people of the Garden State were instrumental in the early development of the submarine The first American submarine sank off Fort Lee in 1776 and the first successful one adopted by the U S Navy was invented by Paterson's John Holland at the end of the nineteenth century Those early vessels were tested in the Passaic River and on the Jersey City waterfront Today the only surviving Union Civil War submarine built in Newark sits in the National Guard Militia Museum in Sea Girt In 1918 the technology pioneered there was turned against the Jersey Shore when U 151 went on a one day ship sinking rampage A World War II U boat offensive torpedoed numerous ships off the coast leaving oil soaked beaches strewn with wreckage Authors Joseph G Bilby and Harry Ziegler reveal the remarkable history of submarines off the New Jersey coastline
