Shadow Of Spirit Postmodernism And Religion:

Shadow of Spirit Philippa Berry, Andrew Wernick, 2006-04-27 By illuminating the striking affinity between the most innovative aspects of postmodern thought and religious mystical discourse *Shadow of Spirit* challenges the long established assumption that western thought is committed to nihilism This collection of essays by internationally recognised scholars explores the implications of the fascination with the sacred divine or infinite which characterizes much contemporary thought It shows how these concerns have surfaced in the work of Derrida Baudrillard Lyotard Kristeva Irigaray and others Examining the connection between this postmodern turn and the current search for a new discourse of ethics and politics it also stresses the contribution made by feminist thought to this unexpected intellectual direction **The Routledge**

Companion to Postmodernism Stuart Sim, 2012-05-23 This fully revised third edition of *The Routledge Companion to Postmodernism* provides the ideal introduction to postmodernist thought Featuring contributions from a cast of international scholars the Companion contains 19 detailed essays on major themes and topics along with an A Z of key terms and concepts As well as revised essays on philosophy politics literature and more the first section now contains brand new essays on critical theory business gender and the performing arts The concepts section too has been enhanced with new topics ranging from hypermedia to global warming Students interested in any aspect of postmodernism will continue to find this an indispensable resource **Postmodernity, Sociology and Religion** Kieran Flanagan, Peter C. Jupp, 2016-07-27 This topical

collection of eleven commissioned essays by well established contributors from sociology religious studies and theology is one of the first treatments of the relationship between postmodernity and religion from a sociological perspective The essays cover a diversity of interests but treat postmodernity in terms of its implications for the self the New Age and theology particularly Catholicism and Judaism Two of the essays are original appraisals of two important French writers on religion Jean Luc Marion and Daniele Hervieu Leger **Theorising Religion** John Walliss, 2017-10-24 Religion is controversial and challenging Whilst religious forces are powerful in numerous societies they have little or no significance for wide swaths of public or private life in other places The task of theoretical work in the sociology of religion is therefore to make sense of this apparently paradoxical situation in which religion is simultaneously significant and insignificant The chapters of Part One consider the classical roots of ideas about religion that dominated sociological ways of thinking about it for most of the twentieth century Each chapter offers sound reasons for continuing to find theoretical inspiration and challenge in the sociological classics whilst also seeking ways of enhancing and extending their relevance to religion today Part Two contains chapters that open up fresh perspectives on aspects of modern post modern and ultra modern religion without necessarily ignoring the classical legacy The chapters of Part Three chart new directions for the sociological analysis of religion by fundamentally re thinking its theoretical basis by extending its disciplinary boundaries and by examining previously overlooked topics Feminist Philosophy of Religion Pamela Sue Anderson, Beverley Clack, 2004 *Feminist Philosophy of*

Religion Critical Readings brings together key new writings in this growing field **Religion at Play** Andre Droogers, 2015-03-26 Is a powerful position a guarantee that a religion will continue Does God take sides in religious power struggles Can God survive religious exclusivity and diversity Is God migrating from out there to in here Is religion sustainable in the long run In seeking answers to these questions this book explores the possibilities afforded by playful religion Religion has playful origins but this aspect is forgotten as soon as institutional power becomes self serving instead of subservient Power changes the very essence of religion Virtually all religions are distorted versions of a playful original Institutionalization is religion's curse not its blessing Apparent success hides the failure of religion to be faithful to its original intent This book helps find the way back from bordering to inclusivity and openness **American Dharma** Ann Gleig, 2019-02-26 The past couple of decades have witnessed Buddhist communities both continuing the modernization of Buddhism and questioning some of its limitations In this fascinating portrait of a rapidly changing religious landscape Ann Gleig illuminates the aspirations and struggles of younger North American Buddhists during a period she identifies as a distinct stage in the assimilation of Buddhism to the West She observes both the emergence of new innovative forms of deinstitutionalized Buddhism that blur the boundaries between the religious and secular and a revalorization of traditional elements of Buddhism such as ethics and community that were discarded in the modernization process Based on extensive ethnographic and textual research the book ranges from mindfulness debates in the Vipassana network to the sex scandals in American Zen while exploring issues around racial diversity and social justice the impact of new technologies and generational differences between baby boomer Gen X and millennial teachers *The Year 2000* Charles B. Strozier, Michael Flynn, 1997-08 A fascinating collection of predictions for the end times in the year 2000 The Year 2000 is at hand The end of the millennium means many things to many people but it has significance for almost everyone A thousand years ago monks stopped copying manuscripts and religious building projects came to a halt as panic swept Europe Today anxiety about global warming government power superviruses even recycling is on some level rooted in the fear of irreversible cataclysm In a landscape shadowed by racial conflict technological upheaval AIDS and nuclear weapons we reasonably fear the end of history 2000 looms large in our religious political and cultural imagination But while 2000 brings dread it also raises the prospect of transformation There is hope to be found in the apocalyptic This panoramic volume explores how the Year 2000 operates in contemporary political discourse from Black evangelical politics to radical right wing rhetoric One section is devoted specifically to apocalyptic violence analyzing twentieth century cults and cultural movements from David Koresh who renamed his Waco compound Ranch Apocalypse and perished in a modern day Armageddon that fueled the millennialist angst of other extremist groups to environmental campaigns like Earth First that also rely on the language of violence and imminent doom in their greening of the Apocalypse Religion, Theology and the Human Sciences Richard H. Roberts, 2002 Religion Theology and the Human Sciences explores the religious consequences of the so called end of history and triumph of

capitalism as they have impinged upon key institutions of social reproduction in recent times The book explores the imposition of managerial modernity upon successive sectors of society and shows why many people today feel themselves to be oppressed by systems of management that seem to leave them no option but to conform Richard Roberts seeks to challenge and outflank such seamless oppressive modernity through reconfiguration of the religious and spiritual field

Conflicts in Social Science Anton Van Harskamp, 2002-11-01 Through detailed case studies the contributors look at conflicts in social science arguing that they must be resolved at the level of the individual discipline rather than at the level of philosophy They explore different ways in which social scientists deal with the tension of being simultaneously party to a conflict and a contributor its settlement *Faith and Philosophical Analysis* Harriet A. Harris, Christopher J. Insole, 2019-08-22 What tensions arise between philosophy of religion and theology What strengths and weaknesses of analytical methods emerge in relation to strongly confessional philosophical theologies or to Continental philosophies Faith and Philosophical Analysis evaluates how well philosophy of religion serves in understanding religious faith Figures who rarely share the space of the same book leading exponents of analytic philosophy of religion and those who question its legacy are drawn together in this book with their disagreements harnessed to positive effect Figures such as Richard Swinburne and Basil Mitchell reflect on their life long projects from a perspective which has not previously been seen in print A wide range of approaches found in contemporary philosophy of religion are explored including reformed epistemology traditional metaphysical theory building feminist methodologies Wittgensteinian approaches and American pragmatism Considering the trends in philosophy of religion as they are interacting across continents looking particularly at philosophical influences in North America Britain and Continental Europe this book will appeal to students scholars and general readers with an interest in philosophy of religion theology or analytical philosophy *Transforming Practice* Elaine Graham, 2002-03-21 This book is an attempt to address the relationship between the contemporary crisis of Western culture and the future of Christian theology from the vantage point of pastoral practical theology In an age of uncertainty the authority and status of the sources and norms of Christian pastoral care and social action can no longer be taken for granted The traditional models of human nature value and community drawn from Scripture and tradition appear anachronistic especially in the light of postmodern insights into identity power and knowledge The purpose of this book is therefore to reconstruct the values by which Christian practice may be guided in a pluralist and fragmented society and to identify a model of pastoral theology for a postmodern age Can a reconstructed pastoral theology regulate the relationship between theory and practice and construct a relevant but authentic practical wisdom It is possible to maintain the boundaries of coherent community with binding truth claims whilst remaining open to the horizons of diversity and provisionality Pages 2 3

Region, Religion and Patronage Richard Dutton, Alison Gail Findlay, Richard Wilson, 2003 This groundbreaking book uses the possibility that Shakespeare began his theatrical career in Lancashire to open up a range of new contexts for reading the

plays and introduces readers to the non metropolitan theater spaces which formed a vital part of early modern dramatic activity Essays give a detailed picture of the contexts in which the apprentice dramatist would have worked providing new insights into regional performance touring theatre the patronage of the Earls of Derby and the purpose built theater at Prescott

Ethics in intercultural and international Communication Fred L. Casmir,2013-10-18 There has been an increased interest in both intercultural and international communication as well as ethical aspects of such interactions In spite of this there are no books which address this specific subject matter beyond limited surveys of different types or forms of ethics or attempted comparisons between various ethical or value systems This book intends to engage readers rather than trying to teach them about ethics or how to be ethical It is questionable that ethics can be taught as academic subject matter or that such instructions will result in meaningful applications in the daily lives of students By considering specific challenges affecting ethical behavior in various intercultural and international interactions and by suggesting interactive dialogic behavioral models as well as examples the authors seek to create an atmosphere of involvement and discussion which will lead researchers to consider the ethics undergirding their own lives as well as any resulting ethical or unethical practices
