The Australian Embassy in Tokyo and Australia-Japan

Relations Kate Darian-Smith, David Lowe, 2023-03-02 Relations between Australia and Japan have undergone both testing and celebrated times since 1952 when Australia's ambassadorial representation in Tokyo commenced. Over the years interactions have deepened beyond mutual trade objectives to encompass economic defence and strategic interests within the Indo Pacific region and beyond. This special relationship has been characterised by the high volume of people moving between Australia and Japan for education, tourism, business, science and research. Cultural ties from artists in residence to sister city agreements have flourished. Australia has supported Japan in times of need including the aftermath of the 2011 Tohoku earthquake. This book shows how the Australian embassy in Tokyo through its programs and people has been central to these developments. The embassy's buildings, its gardens and grounds and above all its occupants from senior Australian diplomats to locally engaged staff are the focus of this multidimensional study by former diplomats and expert observers of Australia's engagement with Japan. Drawing on oral histories, memoirs and archives, this volume sheds new light on the complexity of Australia's diplomatic work in Japan and the role of the embassy in driving high level negotiations as well as fostering soft power influences. With a similar vision for the Indo Pacific region and a like minded approach to the challenges facing us, Australia and Japan have become more intimate and more strategic as partners. I am very pleased to see this slice of Australian diplomatic history so well accounted for in this book. Jan Adams AO PSM Secretary Australian Department of Foreign Affairs and Trade Australia's Ambassador to Japan November 2020 June 2022

Narrating the Other Megumi Kato, 2008 This is the first extensive study of Japan in Australian literary consciousness. Narrating the other provides a broad chronological exploration of Australian writers' representations of the Japanese from the late 19th century to the 21st century. A comprehensive examination of available literature reveals the powerful and continuing influence of representations of Japan and the Japanese from the early 20th century up to the Pacific War. Images of Madame Butterfly, the stranger, the enemy and later the ally or partner are shown to vary according to authors' situations and even wider international relations. It attempts to identify the patterns which Australian authors have used to portray and evaluate the Japanese, the changing nature of these patterns, their contextual relationship and their contribution to the formation of wider Australian views on Japan and the Japanese. **BOOK JACKET** *Books on Japan in Western Languages Recently Acquired by the National Diet Library* Kokuritsu Kokkai Toshokan, 1990

Behind the News Prue Torney-Parlicki, 2005 For more than four decades Peter Russo used his newspaper columns and radio broadcasts to educate Australians about their regional neighbors and to provoke them into thinking independently on political issues. His relentless criticism of western intervention in Asian independence struggles and his hostility towards American foreign policy in particular earned him many enemies and his activities were closely monitored by Australian security officials. This painstakingly researched book recovers the life of an

Noguchi East and West Dore Ashton,1993-09 An art history professor and author or editor of 30 books on art and culture maps the life of Japanese American sculptor and designer Isamu Noguchi 1904 1988 and his spiritual journey both in the events of his life and in the milestones of his art the sculptures gardens public spaces and stage decors that gained force and significance from Noguchi's double heritage Photographs Two-World Literature Rebecca Suter,2020-05-31 In this study Rebecca Suter aims to complicate our understanding of world literature by examining the creative and critical deployment of cultural stereotypes in the early novels of Kazuo Ishiguro World literature has come under increasing scrutiny in recent years Aamir Mufti called it the result of one world thinking the legacy of an imperial system of cultural mapping from a unified perspective Suter views Ishiguro's fiction as an important alternative to this paradigm Born in Japan raised in the United Kingdom and translated into a broad range of languages Ishiguro has throughout his career consciously used his multiple cultural positioning to produce texts that look at broad human concerns in a significantly different way Through a close reading of his early narrative strategies Suter explains how Ishiguro has been able to create a two world literature that addresses universal human concerns and avoids the pitfalls of the single Western centric perspective of one world vision Setting his first two novels *A Pale View of Hills* 1982 and *An Artist of the Floating World* 1986 in a Japan explicitly used as a metaphor enabled Ishiguro to parody and subvert Western stereotypes about Japan and by extension challenge the universality of Western values This subversion was amplified in his third novel *The Remains of the Day* 1989 which is perfectly legible through both English and Japanese cultural paradigms Building on this subversion of stereotypes Ishiguro's early work investigates the complex relationship between social conditioning and agency showing how characters behavior is related to their cultural heritage but cannot be reduced to it This approach lies at the core of the author's compelling portrayal of human experience in more recent works such as *Never Let Me Go* 2005 and *The Buried Giant* 2015 which earned Ishiguro a global audience and a Nobel Prize Deprived of the easy explanations of one world thinking readers of Ishiguro's two world literature are forced to appreciate the complexity of the interrelation of individual and collective identity personal

and historical memory and influence and agency to gain a more nuanced two world appreciation of human experience
