Shakedown And The Whistleblower:

Shakedown Ezra Levant, 2009-05-08 Winner of the Writer's Trust of Canada Samara's Best Canadian Political Book of the Last 25 Years Part memoir part investigative journalism this is a shocking and controversial look at the corruption of Canada s human rights commissions On January 11 2008 I was summoned to a 90 minute government interrogation My crime As the publisher of Western Standard magazine I had reprinted the Danish cartoons of Mohammed to illustrate a news story I was charged with the offence of discrimination and made to appear before Alberta's human rights commission for questioning As crazy as it sounds I became the only person in the world to face legal sanction for printing those cartoons As a result of this highly publicized event Ezra Levant began investigating other instances in which innocent people have had their freedoms compromised by bureaucrats presuming to protect Canadians human rights He discovered some disturbing and even bizarre cases such as the tribunal ruling that an employee at a McDonald's restaurant in Vancouver did not have to wash her hands at work And the human rights complaint filed by a Calgary hair stylist against the women at a salon school who called him a loser In another case that seemed stranger than fiction an emotionally unstable transvestite fought for and won the right to counsel female rape victims despite the anguished pleas of those same traumatized victims Human rights commissions now monitor political opinions fine people for expressing politically incorrect viewpoints censor websites and even ban people permanently from saying certain things The book is a result of Levant's ordeal and the research it inspired It shows how our concept of human rights has morphed into something dangerous and drastically different from its original meaning Shakedown is a convincing plea to Canadians to reclaim their basic liberties Chicago Shakedown John F. Hogan, 2018-07-16 The Ogden Gas Affair represented the biggest political scandal of Chicago's first sixty years Mayor John P Hopkins and Democratic Party boss Roger Sullivan conspired with ten other insiders to form a dummy corporation to blackmail Peoples Gas Company The scam poured money into the coffers of beneficiaries who were never prosecuted including the governor of Illinois John P Altgeld As their lengthy swindle ran its course Hopkins and Sullivan rubbed elbows with the most notorious grafters of the robber baron era including Charles Yerkes and Big Bill Thompson Author John Hogan follows the money in a scheme that became a template for the enrichment of the connected at the expense of the citizenry

Baseless lawsuits encourage the notion that individuals can engage in risky behavior then force someone else to pay for their mistakes That s the premise underlying litigation against manufacturers of cigarettes guns lead paint fatty foods and alcoholic beverages Meanwhile our antitrust laws have been co opted by frustrated competitors who curry favor with bureaucrats to attack market leaders such as Microsoft In effect antitrust is now a subsidy used to promote the parochial

interests of politically favored companies In Shakedown Robert A Levy uncovers the worst abuses of a judicial system run amok then offers concrete proposals to fix the problems Whistleblowing Roberta Ann Johnson, 2003 An exploration of when and how and to what effect people make the choice to blow the whistle Case studies from the tobacco industry to NASA to the FDA illustrate how individual efforts can and do transform institutions shape public policy and serve as a force for <u>Disruption?</u> Sean M. Theriault, 2024 What happens when a tradition bound institution encounters an iconoclastic president intent on changing how the government operates In Disruption Sean M Theriault has gathered nineteen leading authors from a range of subfields to provide a compelling understanding for if how and to what extent Trump disrupted the Senate As the authors argue Trump became trapped in the norms and rules of the Senate on some dimensions while he became the story to which all senators needed to respond on others. This book shows how multiple facets of the Senate changed during Trump s presidency including the legislative process party leadership roll call voting and communications Comprehensive in its coverage of the period and embedding it in a deep historical context this book highlights how these changes reflected back on to not only the Trump administration but also the very legitimacy of the Drama, Politics, and Evolution Bruce McConachie, 2021-10-25 This book outlines the evolution of our Senate itself political nature over two million years and explores many of the rituals plays films and other performances that gave voice and legitimacy to various political regimes in our species history Our genetic and cultural evolution during the Pleistocene Epoch bestowed a wide range of predispositions on our species that continue to shape the politics we support and the performances we enjoy The book s case studies range from an initiation ritual in the Mbendjela tribe in the Congo to a 1947 drama by Bertolt Brecht and include a popular puppet play in Tokugawa Japan A final section examines the gradual disintegration of social cohesion underlying the rise of polarized politics in the USA after 1965 as such films as The Godfather Independence Day The Dark Knight Rises and Joker accelerated the nation's slide toward authoritarian Trumpism The Woodward Trilogy Bob Woodward, Robert Costa, 2021-09-21 Discover the inside story of life inside President Trump's White House as only 1 internationally bestselling author Bob Woodward can tell it with this collection of Woodward s most revealing and unprecedented works including Fear Rage and Peril With authoritative reporting internationally bestselling author Bob Woodward offers an exposing and riveting account of President Trump's term in office from the beginning to the final transfer of power to President Biden's administration In vivid detail Woodward paints the most intimate portrait of a sitting president ever published in this complete trilogy following the Trump presidency This collection includes Fear An explosive The Washington Post and devastating The New Yorker look at the harrowing life inside President Donald Trump s White House and precisely how he makes decisions on major foreign and domestic policies Fear is the inside story on President Trump as only Bob Woodward can tell it drawing from hundreds of hours of interviews with firsthand sources meeting notes personal diaries files and documents Rage An unprecedented and intimate tour de force of reporting on the

Trump presidency facing a global pandemic economic disaster and racial unrest In dramatic detail Woodward has uncovered the precise moment the president was warned that the Covid 19 epidemic would be the biggest national security threat to his presidency Peril The book covers the end of the Trump presidency and the early months of the Biden presidency **Two-Party Trap** Steven Verrier, 2022-08-12 The United States has become increasingly polarized although the concept of a two party system is not new This book traces the major parties utter dominance of the highest elected positions all the way down to nonpartisan political offices across the U S from the founding of the Constitution through the 2020 presidential election Even before the founding of the modern Republican Party in 1854 and the next 168 year era of Democratic GOP dominance the early decades of American nationhood were ruled in a similar manner by the two major parties of the day This book is a comprehensive fast paced analysis of how the two party system has grown to be such an affront to the ideals of the Founding Fathers and of the numerous Americans today who appear to accept it as a fact of life *The Courage to Do* Nothing Bill Flax, 2010-09 Are you fed up with Washington politicizing our economy and bureaucrats more focused on aggrandizing their power than aiding commerce For many of us the rhetoric emanating from our government doesn t reflect reality In The Courage to do Nothing Bill Flax gives a voice to the angry taxpayer articulating our concerns and offering cogent advice to our political leaders Socialism is inherently flawed but instead of allowing the free market to function our politicians employ socialism concealed as compassion Our cultural elites in Washington Academia Media and Hollywood have built a modern Tower of Babel based on progressive fantasies Their idealistic pursuit of Utopia is funded by your tax dollars Socialism is but one pillar in this faulty tower but it is the pillar du jour and America's future if we don't restore the traditional Christian values and limited government our nation was built upon At eighteen Bill Flax enlisted in the Marine Corps to defend the Constitution against all enemies foreign and domestic It's now clear the gravest threat to our liberty comes from Washington itself In The Courage to do Nothing Bill interweaves faith economics and patriotism through fascinating perspectives on the economy and relevant historical examples offering solutions for today s issues Read The Courage to do Nothing to learn economic truths ignored by the cultural elites determined to change America into a European style socialist boundoggle Bill Flax provides the economic answers America needs to restore prosperity and liberty before it s too late This book is essential reading for anyone desiring to understand how Washington's policies created and now prolong our economic turmoil Learn the truth and the keys to restoring America America in Retreat Mel Gurtov, 2020-08-17 This deeply researched book offers a comprehensive analysis of the domestic politics and international consequences of Trump s foreign policy Mel Gurtov provides detailed case studies of policy toward key countries and regions including China Russia North Korea Europe and the Middle East He makes a vigorous argument centered on human interest priorities and values for rejecting a foreign policy of neglect and ineptness when it comes to the major issues of our times climate change China's rise multiple US wars human rights authoritarian leadership and nuclear weapons Gurtov argues that Trump is a

nationalist and illiberal populist whose policy views have been molded chiefly by his business practices leading to an obsession with winning elevation of ego and loyalty over expertise and preference for threats over diplomacy Trump holds to a few simple ideas about the US role in the world too expensive too subject to other countries and institutions and too influenced by globalist concerns such as democracy climate crisis human rights and the rule of law Trump will leave a deeply negative mark on the reputation and credibility of the United States and on its policy making process But Gurtov concludes that a liberal successor should be able to reverse the worst features of the Trump era and restore foreign policy to its true purpose exemplifying America's commitment to humane and democratic governance and cooperative economic relations with allies and economic partners Challenges in the Field of Economic and Financial Crime in Europe and the US Katalin Ligeti, Vanessa Franssen, 2017-02-23 In the past few years criminal justice systems have faced important global challenges in the field of economic and financial crime The 2008 financial crisis revealed how strongly financial markets and economies are interconnected and illustrated that misconduct in the economic and financial sectors is often of a systemic nature with wide spread consequences for a large number of victims The prevention control and punishment of such crimes is thus confronted with a strong globalisation Moreover continuous technological evolutions and socio economic developments make the distinction between socially desirable and undesirable behaviour more problematic Besides economic and financial misconduct is notoriously difficult to detect and investigate In light of these challenges legislators and law enforcers have been searching for adequate responses to combat economic and financial crime by adapting existing policies norms and practices and by creating new enforcement mechanisms. The purpose of this volume is to analyse those challenges in the field of economic and financial crime from different perspectives and to examine which particular solutions criminal justice systems across Europe give to those challenges The volume has four parts The first part focuses on a number of key questions with respect to substantive criminal law whereas the second part will address issues affecting the administration of justice and criminal procedure Part three then explores particular challenges concerning multi agency cooperation and multi disciplinary investigations Finally part four will concentrate on issues regarding shared or integrated enforcement models

An Independent View of the Donald J. Trump Presidency William Smith, 2023-04-26 This book continues the chronological look at the inner workings of our government in the last two years of Donald Trump's administration and the resulting insurrection. He has lost the investigative power of the House of Representatives in the midterm election but still controls the Senate under the compliant leadership of Mitch McConnell Now he needs to find a willing Attorney General in order to control the Judiciary Branch He finds that in William Barr President Trump has been emboldened by newly appointed A G Barr with his dismissal of the Special Counsel Robert Mueller investigation With the help of compliant Republicans in Congress he believes that he can do no wrong Unfortunately our deep division in American thinking has been created by individuals and organizations that are using our beloved internet for their own selfish purposes Across this communication highway we have mainstream conservative and social media all vying for our attention Good intentions seem to be overwrought by predatory ambitions This constant stream of sensationalized misinformation has created a storm of hateful division Wayward focus groups are urged to gather together and fight for the causes that they have been directed to

believe in the truth be damned What is most frightening about this change in American lifestyle is that the President of the United States is primarily responsible for this deep division Donald Trump is a master manipulator He will do whatever is necessary to obtain control using whomever he can to succeed and punishing all who oppose his ambitions Trump has forever made elaborate and baseless claims about election fraud even after the Electoral College confirmed Joe Biden s victory on December 14 Five days later he tweeted Big protest in DC on January 6th Be there will be wild He then tweeted seven more times calling attention to the event including one on January 1 that included the phrase Stop the Steal In this book I continue my conversations with die hard Trump supporters Unlike his bigoted and brutal MAGA insurrectionists these people are our everyday friends and family What I have learned with these debates is that their beliefs and expressive language mimic those of the numerous hosts of Fox News programming They steadfastly cling to outrageously unbelievable conspiracy theories that are promoted by guests on Fox News and other far right conservative media Read what they have to say and my response then decide for yourself where and why this misinformation is so destructive Woodward, 2020-09-15 Bob Woodward's new book Rage is an unprecedented and intimate tour de force of new reporting on the Trump presidency facing a global pandemic economic disaster and racial unrest Woodward the 1 international bestselling author of Fear Trump in the White House has uncovered the precise moment the president was warned that the Covid 19 epidemic would be the biggest national security threat to his presidency In dramatic detail Woodward takes readers into the Oval Office as Trump's head pops up when he is told in January 2020 that the pandemic could reach the scale of the 1918 Spanish Flu that killed 675 000 Americans In 17 on the record interviews with Woodward over seven volatile months an utterly vivid window into Trump's mind the president provides a self portrait that is part denial and part combative interchange mixed with surprising moments of doubt as he glimpses the perils in the presidency and what he calls the dynamite behind every door At key decision points Rage shows how Trump's responses to the crises of 2020 were rooted in the instincts habits and style he developed during his first three years as president Revisiting the earliest days of the Trump presidency Rage reveals how Secretary of Defense James Mattis Secretary of State Rex Tillerson and Director of National Intelligence Dan Coats struggled to keep the country safe as the president dismantled any semblance of collegial national security decision making Rage draws from hundreds of hours of interviews with firsthand witnesses as well as participants notes emails diaries calendars and confidential documents Woodward obtained 25 never seen personal letters exchanged between Trump and North Korean leader Kim Jong Un who describes the bond between the two leaders as out of a fantasy film Trump insists to Woodward he will triumph over Covid 19 and the economic calamity Don t worry about it Bob Okay Trump told the author in July Don t worry about it We ll get to do another book You ll find I was right Midnight in Washington Adam Schiff, 2022-08-16 1 NEW YORK TIMES BESTSELLER The vital inside account of American democracy in its darkest hour from the rise of autocracy unleashed by Trump to the January 6 insurrection and a warning that those forces

remain as potent as ever from the congressman who led the first impeachment of Donald J Trump Engaging and informative a manual for how to probe and question power how to hold leaders accountable in a time of diminishing responsibility The Washington Post With a new afterword by the author In the years leading up to the election of Donald Trump Congressman Adam Schiff had already been sounding the alarm over the resurgence of autocracy around the world and the threat this posed to the United States But as he led the probe into Donald Trump's Russia and Ukraine related abuses of presidential power Schiff came to the terrible conclusion that the principal threat to American democracy now came from within In Midnight in Washington Schiff argues that the Trump presidency has so weakened our institutions and compromised the Republican Party that the peril will last for years requiring unprecedented vigilance against the growing and dangerous appeal of authoritarianism The congressman chronicles step by step just how our democracy was put at such risk and traces his own path to meeting the crisis from serious prosecutor to congressman with an expertise in national security and a reputation for bipartisanship to liberal lightning rod scourge of the right and archenemy of a president Schiff takes us inside his team of impeachment managers and their desperate defense of the Constitution amid the rise of a distinctly American brand of autocracy Deepening our understanding of prominent public moments Schiff reveals the private struggles the internal conflicts and the triumphs of courage that came with defending the republic against a lawless president but also the slow surrender of people that he had worked with and admired to the dangerous immorality of a president engaged in an historic betrayal of his office Schiff's fight for democracy is one of the great dramas of our time told by the man who became the president's principal antagonist It is a story that began with Trump but does not end with him taking us through the disastrous culmination of the presidency and Schiff's account of January 6 2021 and how the antidemocratic forces Trump unleashed continue to define his party making the future of democracy in America more uncertain than ever **Indexes** to **Nuclear Regulatory Commission Issuances** ,1980 Vulnerable or Weak Conrad Riker, YOUR MASCULINITY IS ON TRIAL HERE S HOW TO WIN Stuck in a system that punishes you for being a man Tired of being called toxic when you show strength or weak when you show feeling Ever wonder why courts treat male emotion like a crime This book cuts through the lies 1 Exposes how feminist laws trap men in no win scenarios 2 Reveals why emotional control is biological not oppressive 3 Debunks the toxic masculinity myth as a political weapon 4 Proves gender equality is a fantasy that erodes society 5 Shows how marriage laws enslave men to the state 6 Teaches unapologetic masculine expression for real power 7 Arms you with legal strategies to protect your rights 8 Restores pride in evolutionary male instincts If you want to crush the gynocratic system and reclaim your manhood buy this book today
