Women and Shakespeare's Cuckoldry Plays Cristina León Alfar, 2017-02-10 How does a woman become a whore What are the discursive dynamics making a woman a whore And more importantly what are the discursive mechanics of unmaking In Women and Shakespeare's Cuckoldry Plays Shifting Narratives of Marital Betrayal Cristina Le n Alfar pursues these questions to tease out familiar cultural stories about female sexuality that recur in the form of a slander narrative throughout William Shakespeare's work She argues that the plays stage a structure of accusation and defense that unravels the authority of husbands to make and unmake wives While men's accusations are built on a foundation of political religious legal and domestic discourses about men's superiority to and rule over women whose weaker natures render them perpetually suspect women's bonds with other women animate defenses of virtue and obedience fidelity and love work loose the fabric of patrilineal power that undergirds masculine privileges in marriage and signify a discursive shift that constitutes the site of agency within a system of oppression that ought to prohibit such agency That women's agency in the early modern period must be tied to the formations of power that officially demand their subjection need not undermine their acts In what Alfar calls Shakespeare's cuckoldry plays women's rhetoric of defense is both subject to the discourse of sexual honor and finds a ground on which to shift it as women take control of and replace sexual slander with their own narratives of marital betrayal
