Seymour Jr. describes as a fascinating journey into the mind, career and inventiveness of one of the indisputably outstanding sculptors of all the Western tradition This one volume edition includes an extensive new preface and bibliography by the author Richard Krautheimer Professor Emeritus of the Institute of Fine Arts at New York University currently lives in Rome He is the author of numerous works including *The Pelican* Early Christian and Byzantine Architecture and *Rome Profile of a City* 312 1308 Princeton Princeton Monographs in Art and Archaeology 31 Originally published in 1983 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Giotto the Painter. Volume 2: Works Michael Viktor Schwarz, 2023-04-17 The paintings examined and contextualised in this volume are those secured for Giotto through early written sources These sources also help to reconstruct the sequence of his works and artistic inventions as is plausible in the context of media culture in the decades around and after 1300 while Giotto was spiritually and intellectually formed in the sphere of the Florentine Dominicans his artistic path began in Rome in the shadow of the Curia The breakthrough to his own artistic concept came immediately before and during his work in Padua In addition to prominent churchmen ecclesiastical institutions and the King of Naples his clients were predominantly members of Italy's urban and financial elites The adoption and further development of his inventions by other especially Sienese painters pressured him in his later years to try new approaches again

Lorenzo Ghiberti's Gates of Paradise Amy R. Bloch, 2016-02-09 This book examines the heretofore unsuspected complexity of Lorenzo Ghiberti's sculpted representations of Old Testament narratives in his Gates of Paradise 1425-52 the second set of doors he made for the Florence Baptistery and a masterpiece of Italian Renaissance sculpture One of the most intellectually engaged and well read artists of his age Ghiberti found inspiration in ancient and medieval texts many of which he and his contacts in Florence's humanist community shared read and discussed He was fascinated by the science of vision by the functioning of nature and above all by the origins and history of art These unusually well defined intellectual interests reflected in his famous Commentaries shaped his approach in the Gates Through the selection imaginative interpretation and arrangement of biblical episodes Ghiberti fashioned multi-textured narratives that explore the human condition and express his ideas on a range of social, political, artistic and philosophical issues

Giotto the Painter.

Volume 1-3 Michael Viktor Schwarz, 2023-04-17 Vol 1 *Life* Giotto 1334 is the first European artist about whom it is possible to write following the schema of life and work The situation of the sources however is complicated On Giotto's life there are on the one hand biographical accounts from the mid fourteenth century onwards that responded to various ideological requirements patriotism humanism Renaissance ideology cult of the artist on the other there is extensive documentary material from Giotto's lifetime which seems to reflect less the biography of an artist than that of a bourgeois businessman resolutely climbing the social ladder The present volume focuses on this second aspect of the Giotto figure's double life relating it to the form of existence of the pre modern artist Vol 2 *Works* The paintings examined and contextualised in this volume are those secured for Giotto through early written sources These sources also help to reconstruct the sequence of his works and artistic inventions as is plausible in the context of media culture in the decades around and after 1300 while Giotto was spiritually and intellectually formed in the sphere of the Florentine Dominicans his artistic path began in Rome in the shadow of the Curia The breakthrough to his own artistic concept came immediately before and during his work in Padua In addition to prominent churchmen ecclesiastical institutions and the King of Naples his clients were predominantly members of Italy's urban and financial elites The adoption and further development of his inventions by other especially Sienese painters pressured him in his later years to try new approaches again Vol 3 *Survival* Giotto is considered by many to be the founder of modern painting This thesis is discussed and modified in the present volume on an empirical basis What emerges is that Giotto's impact cannot be reduced simply to the introduction of the study of nature Rather his art was involved in the development of pictorial idioms that were attuned to the skills and interests of their audiences The new approaches in his painting contributed in particular to the possibility of examining and communicating psychological narrative and allegorical content of great complexity outside the media of language and text which not only changed the face of European art but certainly contributed to the intellectual opening of Western societies

Auguste Comte: Volume 2 Mary Pickering, 1993 This volume explores the life and works of Auguste Comte during the last and most controversial part of his career the period from 1842 to 1857
