Losing Ground: American Social Policy, 1950-1980 , **Losing Ground** Charles A. Simms,2017-09-29 The problems and special needs of black women are still given inadequate attention in social science analysis Too often black women are subsumed under the category of blacks or women with little consideration for their unique needs This volume focuses on black women as a special group It includes chapters on employment educational attainment and job training programs which originated as papers given at a symposium on the economic status of black women co sponsored by the Congressional Black Caucus Foundation and The Review of Black Political Economy

economic activity Through a historical approach Eisner situates the study of American political economy within a larger evolutionary institutional framework that integrates perspectives in American political development and economic sociology This volume provides a rich understanding of the complexity of U S economic policy explaining how public policies become embedded in bureaucracy and reinforced by organized beneficiaries and public expectations This path dependent layering process helps students better understand the underlying historical dynamics which provide a clearer sense of the constraints faced by policymakers now and in the future Thorough coverage of the entitlement crisis globalization s impact on the U S political economy and the recent financial crisis in the final chapters demonstrate the importance of this historical institutionalist framework *American Apartheid* Douglas S.
