Teen Film Catherine Driscoll,2011-06-01 What makes a film a teen film And why when it represents such powerful and enduring ideas about youth and adolescence is teen film usually viewed as culturally insignificant Teen film is usually discussed as a representation of the changing American teenager highlighting the institutions of high school and the nuclear family and experiments in sexual development and identity formation But not every film featuring these components is a teen film and not every teen film is American Arguing

that teen film is always a story about becoming a citizen and a subject Teen Film presents a new history of the genre surveys the existing body of scholarship and introduces key critical tools for discussing teen film Surveying a wide range of films including *The Wild One* *Heathers* *Akira* and *Donnie Darko* the book's central focus is on what kind of adolescence teen film represents and on teen film's capacity to produce new and influential images of adolescence

Generation Multiplex Timothy Shary, 2009-01-27 When teenagers began hanging out at the mall in the early 1980s the movies followed Multiplex theaters offered teens a wide array of perspectives on the coming of age experience as well as an escape into the alternative worlds of science fiction and horror Youth films remained a popular and profitable genre through the 1990s offering teens a place to reflect on their evolving identities from adolescence to adulthood while simultaneously shaping and maintaining those identities Drawing examples from hundreds of popular and lesser known youth themed films Timothy Shary here offers a comprehensive examination of the representation of teenagers in American cinema in the 1980s and 1990s He focuses on five subgenres

school delinquency horror science and romance sexuality to explore how they represent teens and their concerns how these representations change over time and how youth movies both mirror and shape societal expectations and fears about teen identities and roles He concludes that while some teen films continue to exploit various notions of youth sexuality and violence most teen films of the past generation have shown an increasing diversity of adolescent experiences and have been sympathetic to the particular challenges that teens face

Transgressing Women Jamaluddin Aziz,2012-01-17 *Transgressing Women* focuses on the literary and cinematic representation of female characters in contemporary noir thrillers The book argues that as the genre has grown expanded and been subverted since its initial conception along with the changing definition of gender the

representation of a female character has also inevitably gone through some dramatic changes So the book asks some important questions What links the female characters in canonical noir to their contemporary counterparts Is gender division still relevant in a text that transgresses gender boundaries What happens when it is the human body itself that betrays the traditional definition or constitution of a human being While many have written about the male protagonists and the femmes fatales in the noir genre little attention has been given to the other female characters who inhabit the noir world and are transgressors themselves The main concern of the book is to trace the transgressive female characters in contemporary noir thrillers both novels and films by engaging itself with some of the most topical debates within both post feminist and postmodernist theories The book is structured around two key concepts space and the body These temporal and spatial indicators are central in contemporary cultural theories such as postmodernism and post feminism along with other theorizations of gender and the noir genre This means that the analysis is drawn from the classical noir examples and will then arrive at the neo noir sub genre and then will move on to the most recent phenomenon in the genre future noir
