

THE LOST ART OF CARING

*A Challenge to Health Professionals,
Families, Communities, and Society*

EDITED BY Leighton E. Cluff, M.D.,
and Robert H. Binstock, Ph.D.

Lost Art Of Caring

Leighton E. Cluff, Robert H. Binstock

Lost Art Of Caring:

The Lost Art of Caring Leighton E. Cluff, Robert H. Binstock, 2003-05-01 In *The Lost Art of Caring* Leighton E. Cluff M D and Robert H. Binstock Ph D bring together experts to address the importance of caring the reasons why it has eroded and measures that can strengthen caring as provided by health professionals families communities and society

Doing the Right Thing John R. Peteet, 2007-05-03 Here is the first practical guide for dealing with the moral issues that regularly confront clinicians in their work Written for all mental health professionals *Doing the Right Thing: An Approach to Moral Issues in Mental Health Treatment* offers a framework both for making moral decisions concerning the treatment of patients and for helping patients deal with their own moral concerns Drawing on current thinking in several disciplines *Doing the Right Thing* introduces the concept of moral functioning as a basis for therapeutic influence Numerous case examples illustrate how to Assess patients ability to function morally Learn how six basic capacities needed for moral functioning develop and how identifying problems in an individual s moral functioning can help guide the formulation of a treatment plan Treat patients with problems functioning morally Appreciate when it is time to set aside neutrality as a therapeutic stance in favor of a more direct approach to helping patients make moral commitments decisions and self assessments and develop moral character Deal with the moral aspects of clinical decision making Develop a framework for making moral choices in planning the direction of treatment confronting resistance and addressing problems in caring effectively Help patients address moral challenges Learn how to take into account your own and the patient s values in reasoning through moral dilemmas Understand more clearly how to help patients deal with unfair pain caused by others as well as the guilt and shame caused by their own moral failures Employ the therapeutic potential of moral growth transformation and integration Discover the role of a clinician in helping demoralized patients reformulate their ideals for better outcomes Recognize where a moral paradigm is useful in improving the delivery of mental health care Concise clear and clinically relevant *Doing the Right Thing* is a valuable thought provoking guide for both new and seasoned mental health practitioners who live and work in a morally complex environment It is also an excellent supplementary text for courses dealing with the practice of psychotherapy and the ethical aspects of mental health care

Let Me Heal Kenneth M. Ludmerer, 2014-09-01 In *Let Me Heal* prize winning author Kenneth M. Ludmerer provides the first ever account of the residency system for training doctors in the United States He traces its development from its nineteenth century roots through its present day struggles to cope with new bureaucratic work hour regulations for house officers and more important to preserve excellence in medical training amid a highly commercialized health care system *Let Me Heal* provides a highly engaging richly contextualized account of the residency system in all its dimensions It also brilliantly analyzes the mutual relationship between residency education and patient care in America The book shows that the quality of residency training ultimately depends on the quality of patient care that residents observe but that there is much that residency training can do to produce doctors who practice in a better more

affordable fashion Let Me Heal is both a stunning work of scholarship and a highly engaging account of how one becomes a doctor in the United States It is indispensable reading for those who wish to understand what it means to learn and practice medicine and what is needed to make medical education and patient care in America better The definitive work on the subject it is destined to become a classic that will be consulted by readers far into the future Concepts and Cases in Nursing Ethics - Fourth Edition Michael Yeo, Anne Moorhouse, Pamela Khan, Patricia Rodney, 2020-04-30 A portion of the revenue from this book's sales will be donated to Doctors Without Borders to assist the humanitarian work of nurses doctors and other health care providers in the fight against COVID 19 and beyond Concepts and Cases in Nursing Ethics is an introduction to contemporary ethical issues in health care designed especially for Canadian audiences The book is organized around six key concepts beneficence autonomy truth telling confidentiality justice and integrity Each of these concepts is explained and discussed with reference to professional and legal norms The discussion is then supplemented by case studies that exemplify the relevant concepts and show how each applies in health care and nursing practice This new fourth edition includes an added chapter on end of life issues and it is revised throughout to reflect the latest developments on topics such as global health ethics cultural competence social media and palliative sedation as well as ethical issues relating to COVID 19

The Cultures of Caregiving Carol Levine, Thomas H. Murray, 2004-05-21 Publisher Description **Nursing Informatics and the Foundation of Knowledge** Dee McGonigle, Kathleen Garver Mastrian, 2015 Explains how nursing informatics relates to knowledge acquisition knowledge processing knowledge generation and knowledge dissemination and feedback all of which build the science of nursing *Aging and Caring at the Intersection of Work and Home Life* Anne Martin-Matthews, Judith E. Phillips, 2010-10-18 There are not many books that address the boundaries of care of older people from a work life perspective This book authored by contributors from various countries looks at the boundaries of care by looking at private and public help professional and personal help and paid and unpaid caregivers It captures and conceptualizes the complexity of the intersection of work and home life as it relates to the provision of assistance and support to older relatives in a variety of care work contexts It explores these issues within a critical framework rather than from an assumed stress or burden perspective which dominates current texts on the topic Readers of this volume will gain a deeper understanding of issues of care provision amongst networks of careers and helpers and of the particular dynamics of care when it is episodic or framed by constraints of space and time as a result of geography In addition each chapter addresses issues of diversity with sensitivity to gender race and ethnicity This book will be of use to academics and graduate students in Gerontology Family Studies IO psychology Gender Studies and Sociology **The Research Process in Nursing** Kate Gerrish, Anne Lacey, 2013-04-02 The perfect text for any health care professional who wishes to gain a sound understanding of research This text succeeds where others fail in terms of the thoroughness of the research process and the accessible style in which the material is presented In an age when nursing and health care research is going from strength to strength this

book offers those in the world of academia and practice an excellent and essential bible that is a must on any bookshelf Dr Aisha Holloway Lecturer Adult Health Division of Nursing The University of Nottingham a book that helps you each step of the way A very understandable and enjoyable publication Accident and Emergency Nursing Journal key reference resource that students of research can use at various levels of study It is comprehensive user friendly and very easy to read and make sense of Gillian E Lang Amazon reviewer The sixth edition of this book reflects significant developments in nursing research in recent years ensuring the reader is provided with the very latest information on research processes and methods It continues to explore how to undertake research as well as evaluating and using research findings in clinical practice in a way that is suitable for both novice researchers and those with more experience Divided into six sections the chapters are ordered in a logical fashion that also allows the reader to dip in and out The first two sections of the book provide a comprehensive background to research in nursing The third section presents a variety of qualitative and quantitative approaches both new and well established The final three sections then look at collecting and making sense of the resulting data and putting the research findings into clinical practice Summarises key points at the start of each chapter to guide you through Includes contributions from a wide range of experts in the field Accessible but doesn't shrink away from complex debates and technical issues New to this edition Accompanying website www.wiley.com/go/gerrish Ten completely new chapters including Narrative Research Mixed Methods and Using Research in Clinical Practice Research Example boxes from a wide variety of research types

Public Expectations and Physicians' Responsibilities John Crellin, 2018-10-08 This guide for practice managers in a question and answer format explains accounting procedures and describes GMS health authority and other sources of income The book covers payroll pension personnel and complaints matters and advises on optimizing income for the practice

Key Concepts in Palliative Care Moyra A Baldwin, Jan Woodhouse, 2010-10-15 Do you need a succinct introduction to the key theories and principles of palliative care and their application to practice Key Concepts in Palliative Care provides just this in a compact fifty concept guide to the field Taking account of the government's End of Life Care Strategy contributors set out the key issues affecting practice across a range of health and social care contexts The book covers topics ranging from dying and death to symptom management and spiritual care backed up with practical examples Each entry comprises o a snapshot definition of the topic o key points o a discussion of the main debates o links to practice through thought provoking case histories and o suggestions for further reading Key Concepts in Palliative Care is an ideal text and handy source of reference for health and social care professionals who are developing their knowledge and skills in palliative care
