Lost Boys Of Natinga A School For Sudans Young Refugees:

The Lost Boys of Natinga Judy Walgren, 1998 Describes daily life at Natinga a refugee camp and school established in 1993 in southern Sudan for boys forced from their homes by that country's Civil War **Not Just Child's Play** Felicia R. McMahon, 2009-10-20 Winner of the 2008 Chicago Folklore Prize Felicia R McMahon breaks new ground in the presentation and analysis of emerging traditions of the Lost Boys a group of parentless youths who fled Sudan under tragic circumstances in the 1990s With compelling insight McMahon analyzes the oral traditions of the DiDinga Lost Boys about whom very little is known Her vibrant ethnography provides intriguing details about the performances and conversations of the young DiDinga in Syracuse New York It also offers important insights to scholars and others who work with refugee groups The author argues that the playful traditions she describes constitute a strategy by which these young men proudly position themselves as preservers of DiDinga culture and as harbingers of social change rather than as victims of war Drawing ideas from folklore linguistics drama and play theory the author documents the danced songs of this unique group Her inclusion of original song lyrics translated by the singers and descriptions of conversations convey the voices of the young men Well researched and carefully developed this book makes an original contribution to our understanding of refugee populations and tells a compelling story at the same time **Promoting a Global Community Through Multicultural Children's Literature**

term have also contributed to conflict transformation over the long term This book will be of much interest to students of insurgencies civil wars comparative politics conflict management humanitarian emergencies public health and IR Security Studies in general **Refugee and Immigrant Health** Charles Kemp,Lance A. web the key to solving exponential equations lies in logarithms let s take a closer look by working through some examples
solving exponential equations of the form $a \cdot b^x = d$ let s solve $5 \cdot 2^x = 240$ to solve for x we must first isolate the exponential part
to do this divide both sides by 5 as shown below
