Spitzer,2021-02-12 First came the time storm which erased half the population Then came the Dinosaur Apocalypse How did it all begin Well that depends on where you were and who you ask In some places it started with the weather which quickly became unstable and began behaving in impossible ways In still others it started with the lights in the sky which shifted and pulsed and could not be explained Elsewhere it started with the disappearances one here a few there but increasing in occurrence until fully three quarters of the population had vanished Either way there is one thing on which everyone agrees it didn't take long for the prehistoric flora and fauna to start showing up often appearing right where someone was standing in which case the two were fused spliced amalgamated It didn't take long for the great Time displacement called the Flashback which was brief but had aftershocks like an earthquake to change the face of the earth Nor for the stories some long and others short some from before the maelstrom and resulting societal collapse and others after to be recorded Welcome to the Lost Country From The Primeval World I stood abruptly and raised the back of my hand but was restrained by Linda who had inserted herself between us That's enough Please Chris Enough She's not going to tell us She backed me away from the girl But I have an idea if you want to hear it I yanked away from her and began pacing furious at the stranger but really angry with myself for losing my cool in front of my crush whom I'd liked since the moment we'd met at the Coke machine in the Community Room about a month before the Flashback And for sending them Penny and Fred to the food mart in the first place ostensibly to save time but really just so I could be with Linda I'm sorry Jesus It's just that She came to me

and put a finger to my lips Shhh Forget it All right I tried to look away but she forced me to look at her All right Listen We know which direction they went So why don't we just take Valerie here and go looking for them She turned to face the young woman She'll point us in the right direction won't you Little Miss Sunshine She glared at her menacingly If she ever wants to see home again And she was right of course I knew it and the girl knew it And so I reconfigured her bonds so she could travel and we doused ourselves in rex urine including Valerie for who knew how far we'd have to go or how long we'd be exposed to potential predators and we headed out walking up South Union Avenue toward the capitol even as Compies watched from the undergrowth and I thought I saw a face simian yet strangely human animal and yet somehow not peeking at us briefly from between two fronds Staring at us passively almost meditatively like a great ape behind glass or a manatee through green hazy water

Prothero, 2016-10-04 More than a hundred years ago Sir Arthur Conan Doyle wrote a novel called The Lost World with the exciting premise that dinosaurs and other prehistoric beasts still ruled in South America Little did Conan Doyle know there were terrifying monsters in South America they just happened to be extinct In fact South America has an incredible history as a land where many strange creatures evolved and died out In his book Giants of the Lost World Dinosaurs and Other Extinct Monsters of South America Donald R Prothero uncovers the real science and history behind this fascinating story The largest animal ever discovered was the huge sauropod dinosaur Argentinosaurus which was about 130 feet long and weighed up to 100 tons The carnivorous predator Giganotosaurus weighed in at more than 8 tons and measured more than 47 feet

long dwarfing the T rex in comparison Gigantic anacondas broke reptile records possums evolved into huge saber toothed predators and ground sloths grew larger than elephants in this strange unknown land Prothero presents the scientific details about each of these prehistoric beasts provides a picture of the ancient landscapes they once roamed and includes the stories of the individuals who first discovered their fossils for a captivating account of a lost world that is stranger than fiction
