Porter,David Lavery,Hillary Robson,2009 Lost s Buried Treasures is the ultimate unauthorized guide to the ideas that have influenced the show and its writers A Cosmological Reformulation of Anselm's Proof That God Exists Richard Campbell,2021-11-15 In this book Richard Campbell reformulates Anselm s proof to show that factual evidence confirmed by modern cosmology validly implies that God exists Anselm s proof which was never the ontological argument attributed to him emerges as engaging with current philosophical issues concerning existence and scientific explanation Because every observable thing has a beginning it can be deduced that there is always in reality something than which a greater cannot be thought which exists necessarily It follows that its non existence is inconceivable Anselm then proves that this is the God in whom he believes who alone so truly exists that He could not be thought not to exist The contingent nature of the universe is therefore a consequence of the proven belief that God is the Creator of everything else **Of Sunken Islands and Pestilence** Edward Taylor Fletcher,2022-08-16 Edward Taylor Fletcher was born in England in 1817 and arrived in Canada as a young boy An important figure in Canadian literature Fletcher s writing was almost entirely forgotten by history In this volume James Gifford has gathered and annotated Fletcher s essays and poems writings that describe a nineteenth century Canadian cultural life far more cosmopolitan than what we might have imagined Fletcher was a voracious reader of works in many languages and although he was oriented toward Britain his writing notably reflects a gaze fixed on a horizon much further away His work therefore stands in contrast to the tendency of later Canadian writers who focus inward on the nation and on issues of Canadian identity His work as a surveyor allowed him to travel across the country observing the Canadian landscape which appears interwoven with different literary traditions in his metrically complex poetry By recuperating Fletcher s works Gifford expands our view of nineteenth century Canadian literature and establishes Fletcher as a remarkable literary figure worthy

of attention Maximal God Yujin Nagasawa, 2017 Yujin Nagasawa presents a new stronger version of perfect being theism the conception of God as the greatest possible being Although perfect being theism is the most common form of monotheism in the Judeo Christian Islamic tradition its truth has been disputed by philosophers and theologians for centuries Nagasawa proposes a new game changing defence of perfect being theism by developing what he calls the maximal concept of God Perfect being theists typically maintain that God is an omniscient omnipotent and omnibenevolent being according to Nagasawa God should be understood rather as a being that has the maximal consistent set of knowledge power and benevolence Nagasawa argues that once we accept the maximal concept we can establish perfect being theism on two grounds First we can refute nearly all existing arguments against perfect being theism simultaneously Second we can construct a novel strengthened version of the modal ontological argument for perfect being theism Nagasawa concludes that the maximal concept grants us a unified defence of perfect being theism that is highly effective and economical This Is Philosophy Steven D.
