A.I. Confidential Austin Dragon, 2017-12-04 We're going to break wide open the biggest caper in Metropolis history. Liquid Cool: The Cyberpunk Detective Series Is Back with more laughs and even more action in A.I. Confidential. The biggest caper in the supercity's history. Cruz has tangled with some of the most dangerous cunning and sinister villains around: Blade Gunner, NeuroDancer, Mr. Viper, The Ripper, the Alien. But this case is even bigger. If Liquid Cool is Blade Runner meets the Maltese Falcon, then this novel is much more on the noir side than any other. Call it cyber noir or sci-fi noir. Bright neon, sharp shadows, thugs in fedoras, laser guns at the ready, and bloody discarded bodies in alleys. You don't see this kind of gritty action, suspense, thrills, and even laughs in any normal science fiction. But this is Liquid Cool. We're on the case, he says. And you get to tag along with Cruz and company through the ever-rainy world of mega skyscrapers, hovercars, and futuristic tech. This case introduces our hero detective Cruz to a threat he has never dealt with before: killer androids. Welcome to the high-tech, low-life world of Liquid Cool.

Complicity Leonard Charles Lee Collins, 2015-09-26 This graphic novel examines gang life. It depicts the troubled relationships between man and community, man and God, and man within himself. Through this tale, we see struggles between negative and positive choices. It is this external process, seeing through others' eyes, that we too can deal openly and honestly with our fears, suspicions, and prejudices. It is the tragic story of Mad City. Posse MCP: It is a look at the gang life of drugs, violence, and justice, a world tainted with anger and hate. When Quentin Holmes, aka Q, the brother of founding member of the gang, Oscar Holmes, is murdered, MCP must either choose to seek revenge or peace. MCP decisions have life-altering repercussions.

Digital Cityscapes Adriana de Souza e Silva, Daniel M. Sutko, 2009 The convergence of smartphones, GPS, the Internet, and social networks has given rise to a playful, educational, and social media known as location-based and hybrid reality games. The essays in this book investigate this new phenomenon and provide a broad overview of the emerging field of location-aware mobile games, highlighting critical social, scientific, and design approaches to these types of games and drawing attention to the social and cultural implications of mobile technologies in contemporary society. With a comprehensive approach that includes theory, design, and education, this edited volume is one of the first scholarly works to engage the emerging area of multi-user location-based mobile games and hybrid reality games. It is appropriate for undergraduate and graduate courses covering mobile phone or gaming culture, media history, and

educational technology as well as researchers and the general public From Box Office to Ballot Box M. Keith Booker, 2007-02-28 Given the complexity and expense of making and distributing a film the process of filmmaking is by its very nature a political process Moreover given the power and persuasiveness of the cinema as a medium film can be a powerful political tool It should thus come as no surprise that film has had a long and extensive engagement with a variety of political topics ranging from the actual mechanics of governance to electoral politics to any number of specific political issues Through a film by film examination of the movies explicitly concerned with American politics and American political issues From Box Office to Ballot Box provides valuable new insights into our culture's perceptions of various political environments and serves as a witness to the cinema's own complex contribution to the media's coverage of and relationship to American politics at large From Box Office to Ballot Box takes as its subject films exploring the electoral process the process of governing and the involvement of the media in both Separate chapters also deal with films related to specific political issues or phenomena that are particularly relevant to the above three categories including labor and class the Cold War the Vietnam War and the other recent conflicts in which the media has played such a large role Specific films discussed include *Citizen Kane* *All the King's Men* *The Manchurian Candidate* *All the Presidents Men* *The Front* *M A S H* *JFK* *Nixon* *Wag the Dog* *Three Kings* *Black Hawk Down* *The Quiet American* *The Contender* and many more **The Design and Use of Simulation**
