Prince, 2013-09-19 Global health is an area for study research and practice that places a priority on improving health and achieving equity in health for all people worldwide Global mental health is the application of these principles to the domain of mental ill health The most striking inequity is that concerning the disparities in provision of care and respect for human rights of people living with mental health problems MHP between rich and poor countries Low and middle income countries LMIC are home to over 80% of the global population but command less than 20% of the share of the mental health resources The consequent treatment gap is in itself a contravention of basic human rights Even where treatment is provided far too often this falls far below minimum acceptable standards Failure to provide basic necessities such as adequate nourishment clothing shelter comfort and privacy and the administration of unauthorized and unmonitored detention shackling and chaining are all well documented abuses described recently as a failure of humanity The emergence of the discipline of global mental health as one of the most dynamic fields of global health underscores the need for this textbook for students of the discipline Global mental health was cited by the NIMH Director in his 2012 year ending blog as one of the major advances in mental health in 2012 and by one of the most influential figures in psychiatry and anthropology Arthur Kleinman as the exciting future of academic psychiatry Br J Psychiatry December 2012 The scope of the book is to cover two major aspects of the field its scientific foundations and its practice and opens with an original account charting the history of the field from antiquity to its most recent developments

The language and content is geared towards a wide audience of practitioners and students of global mental health including those who do not have any previous training in a clinical mental health specialty This textbook edited by four of the field s most widely acknowledged champions with 20 chapters authored by over 30 global leaders of the field from diverse institutions and countries is aimed to be the definitive text of this dynamic new discipline **Advances in Psychiatry** Afzal Javed,Kostas N. Fountoulakis,2018-07-06 This book is the newest edition on the series advances in psychiatry The previous 3 volumes can be found online at http://www.wpanet.org/detail.php?section_id=10&content_id=660 They were highly successful in covering a broad area of psychiatry from different perspectives and angles and by reflecting both specialized but also international and global approaches This series have guaranteed quality therefore can be used by different scientific groups for teaching and learning and also as a means for fast dissemination of advanced research and transformation of research findings into the everyday clinical practice **Mental Health Equity** April Joy Damian,Benjamin Miller,Joseph Gallo,2023-11-15 **Psychosocial, Behavioral, and Clinical Implications for Public Mental Health During the COVID-19 Pandemic** Zonglin He,Babatunde Akinwunmi,Wai-kit Ming,2023-09-15 **Mental Health Research in Asia and the Pacific** Tsung-yi Lin,1969 *Public Mental Health* William W. Eaton,M. Daniele Fallin,2019-04-03 A masterful volume that will do much to advance understanding of mental health as an essential public health challenge Journal of Sociology Social Welfare THE GROUNDBREAKING TEXTBOOK IN POPULATION LEVEL MENTAL HEALTH NOW FULLY REVISED AND UPDATED Public Mental Health equips a new generation of public health students researchers and practitioners with the most innovative social biological and behavioral science approaches to mental health challenges at the population level Incorporating insights from multiple health and science disciplines this new edition introduces novel concepts and methodologies for understanding the occurrence of mental disorders in populations worldwide Reflecting the disciplinary diversity and expertise of an internationally recognized roster of contributors its nineteen chapters include coverage of such essential topics as estimates of global prevalence based on new data from the Global Burden of Disease Study the complex way in which genes other biological factors and life stresses increase risk mental health disparities among population subgroups population level mental health consequences of violence and natural disasters the logic and practice of prevention of mental and behavioral disorders With a perspective that will resonate from the lab to the legislature floor Public Mental Health offers a much need core text for students researchers and practitioners *Comprehensive Men's Mental Health* David Castle,David Coghill,2021-03-11 Although research shows that there is a silent crisis in men s mental health there remains surprisingly little literature on the subject This important textbook provides up to date practical and evidence based information on how mental health issues affect men and the way treatments should be offered to them Key opinion leaders from across the globe have been brought together to offer much needed understanding about the socio politico economic context of men s lives today as well as ethnic and cultural effects and genetic epigenetic and gene

environment interaction Clinically focused chapters cover topics such as suicide and self harm violence sociopathy and substance misuse in men depression anxiety and related disorders and psychotic and cognitive disorders The book uses a lifespan approach to assessment and treatment accounting for age and developmental phase An invaluable source of information for clinical specialists and trainees in psychiatry psychology and mental health nursing as well as social workers and occupational therapists **Sport and Mental Health** David Baron,Thomas Wenzel,Andreas Ströhle,Todd

Stull,2023-09-12 This user friendly comprehensive and highly relevant book allows readers to gain a better understanding of mental health issues in sport and exercise The field of sports psychiatry continues to grow globally at a rapid pace This in part can be explained by the changing culture of sport leading to an appreciation of the role of psychiatric symptoms and syndromes in the world of sport but also the increasing spread of both highly performance oriented and grass roots basic sports and the associated risks in large sections of the population The long standing stigma attached to mental health problems such as depression anxiety ADHD suicide brain injuries substance abuse is being challenged not only by high profile athletes but also in public health and general mental health services The book utilizes an innovative case based and structured didactical format to provide short summaries of recent research by leading experts in the respective fields as well as up to date prevention and clinical guidelines for all relevant disorders in a way that is easily accessible to the large and growing groups interested and active in sports This work is relevant for all mental health professionals and can also be used by a wider readership including medical doctors psychologists athletes and coaches A second volume covers the role of exercise as an effective treatment for a number of common psychiatric conditions such as depression anxiety eating disorders and substance abuse Psychological Frailty in Ageing: Lifespan Trajectories and Emerging Risks Esperanza

Innovations in Global Mental Health Samuel O. Okpaku, 2021-11-02 Over the course of the last decade political and mental entities at large have embraced global mental health the idea that psychiatric health is vital to improved quality of life Physicians globally have implemented guidelines recommended by the National Institute of Mental Health NIMH in 2007 thereby breaking down barriers to care and improving quality of life in areas where these practices have been implemented Programs for training and education have expanded as a result Clinicians benefit more from both local resources in some regions as well as in international collaboration and technological advancements Even amidst all of these positive outcomes clinicians still face some stumbling blocks With worldwide statistics estimating that 450 million people struggle with mental neuropsychiatric and neurological disorders 25 percent of the world's non communicable disease burden rising to these challenges prove to be no small feat even in wealthy Western nations Various articles and books have been published on global mental health but few of them thoroughly cover the clinical research innovative and social implications as they pertain to psychiatry often only one of these aspects is covered A comprehensive text that can keep pace with the rapidly evolving literature grows more and more valuable each day as clinicians struggle to piece together the changes around the world that leave open the possibility for improved outcomes in care This book seeks to boldly rectify this situation by identifying innovative models of service delivery training education research funding and payment systems that have proven to be exemplary in implementation and scalability or have potential for scalability Chapters describe specific barriers and challenges illuminating effective strategies for improved outcomes This text is the first peer reviewed resource to gather prestigious physicians in global mental health from around the world and disseminate their expertise in the medical community at large in a format that is updateable making it a truly cutting edge resource in a world constantly changed by medical scientific and technological advances Innovations in Global Mental Health is the ultimate resource for psychiatrists psychologists primary care physicians hospitalists policy makers and all medical professionals at the forefront of global mental health and its implications for the future

Promoting Mental Health and Wellbeing Among Young People Maj Britt Dahl Nielsen, Susan Andersen, Sigurd Lauridsen, 2025-09-10 Mental disorders account for a large proportion of the disease burden in young people and poor mental health is strongly related to lower educational achievements and labor

market attainment and other health problems including substance abuse violence and poor reproductive and sexual health Evidence suggests that the COVID 19 pandemic might have had a negative effect on young people s mental health and knowledge about secular trends in well being and mental health problems is important for planning public health interventions Research on health promotion and preventive interventions remains scarce and the mental health needs of young people are often unmet and research is urgently needed to develop affordable and feasible interventions In Denmark and other countries the mental health of young people has been declining especially in the wake of COVID 19 The main goal of this research topic is to further our understanding of trends in mental health and well being among young people and aid the development of feasible and effective public health interventions This Research Topic welcomes empirical studies including qualitative quantitative and mixed method research design papers and systematic reviews focusing on but not limited to the following sub topics Trends in mental health and well being among young people The impact of COVID 19 on mental health and wellbeing New and emerging risks for mental health and well being for example related to online and mobile technology Barriers to treatment Development of affordable and feasible community based interventions Implementation and effectiveness of preventive and health promotion interventions including universal interventions and interventions targeting vulnerable groups
