Words and Rules Steven Pinker, 2015-07-14 If you are not already a Steven Pinker addict this book will make you one Jared Diamond In *Words and Rules* Steven Pinker explores profound mysteries of language by picking a deceptively simple phenomenon regular and irregular verbs and examining it from every angle With humor and verve he covers an astonishing array of topics in the sciences and humanities from the history of languages to how to simulate languages on computers to major ideas in the history of Western philosophy Through it all Pinker presents a single powerful idea that language comprises a mental dictionary of memorized words and a mental grammar of creative rules The idea extends beyond language and offers insight into the very nature of the human mind This is a sparkling eye opening and utterly original book by one of the world's leading cognitive scientists
