Princetonians 1791-1794 A Biographical Dictionary:

Princetonians: 1791-1794, 1976 **Princetonians, 1791-1794** J. Jefferson Looney, Ruth L. Woodward, 2014-07-14

These volumes complete the series of biographical sketches of students at Princeton University the College of New Jersey in colonial times. They cover pivotal years for both the nation and the College. In 1784 the war with England had just ended, Nassau Hall was still in a shambles following its bombardment, and the College was in financial distress. It gradually regained financial and academic strength, and the Class of 1794 graduated in the year of the death of President John Witherspoon, one of the most important early American educators. The introductory essay by John Murrin, editor of the series since 1981, explores the postwar context of the College. The two volumes contain biographies of 354 men who attended with the classes of 1784 through 1794 and two other students whose presence at the College in earlier years has only now been demonstrated. During these years Princeton accounted for about an eighth of all A.B. degrees granted in the United States. It was the young republic's most national college, although it had nearly lost its New England constituency and was instead beginning to draw nearly 40 percent of its students from the South. Originally published in 1991, The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

superb biography Brain Pickings **The Papers of Thomas Jefferson, Volume 24** Thomas Jefferson, 2018-06-05 This volume finds Thomas Jefferson grappling with problems arising from the radicalization of the French Revolution in Europe and the polarization of domestic politics in the United States The overthrow of the French monarchy leads the Secretary of State to suspend debt payments to that nation and to formulate a diplomatic recognition policy that will long guide American diplomacy After an abortive effort to initiate negotiations with the British minister in Philadelphia on the execution of the Treaty of Paris Jefferson deflects a British proposal to establish a neutral Indian barrier state in the Northwest Territory As he awaits the start of negotiations on major diplomatic issues with Spain he deals with a Spanish effort to incite hostilities between the Southern Indians and the United States The conflict between Jefferson and Alexander Hamilton reaches a new stage when the Secretary of the Treasury brings the cabinet struggle into full public view with four series of pseudonymous newspaper attacks on Jefferson In letters to President Washington Jefferson insists that Hamiltonian policies pose a fundamental threat to American republicanism and in other documents he sets forth remedies for the defects he sees in Hamilton's system During this period he also finds time to investigate the ravages of the Hessian fly on American wheat and to make plans to remodel Monticello

Equity and Excellence in American Higher Education William G. Bowen, Martin A. Kurzweil, Eugene M. Tobin, Susanne C. Pichler, 2007 Thomas Jefferson once stated that the foremost goal of American education must be to nurture the natural aristocracy of talent and virtue Although in many ways American higher education has fulfilled Jefferson's vision by achieving a widespread level of excellence it has not achieved the objective of equity implicit in Jefferson's statement In *Equity and Excellence in American Higher Education* William G. Bowen, Martin A. Kurzweil, and Eugene M. Tobin explore the cause for this divide Employing historical research examination of the most recent social science and public policy scholarship international comparisons and detailed empirical analysis of rich new data the authors study the intersection between excellence and equity objectives Beginning with a time line tracing efforts to achieve equity and excellence in higher education from the American Revolution to the early Cold War years this narrative reveals the halting episodic progress in broadening access across the dividing lines of gender race religion ethnicity and socioeconomic status The authors argue that despite our rhetoric of inclusiveness a significant number of youth from poor families do not share equal access to America's elite colleges and universities While America has achieved the highest level of educational attainment of any country it runs the risk of losing this position unless it can markedly improve the precollegiate preparation of students from racial minorities and lower income families After identifying the equity problem at the national level and studying nineteen selective colleges and universities the authors propose a set of potential actions to be taken at federal state local and institutional levels With recommendations ranging from reform of the admissions process to restructuring of federal financial aid and state support of public universities to addressing the various precollegiate obstacles that disadvantaged students face at home and in school the authors urge all selective colleges and universities to continue race

sensitive admissions policies while urging the most selective and privileged institutions to enroll more well qualified students from families with low socioeconomic status The New England Historical and Genealogical Register ,2003 Beginning in 1924 Proceedings are incorporated into the Apr number **Princetonians, 1776-1783** Richard A.
