ASSIP - Attempted Suicide Short Intervention Program
Konrad Michel, Anja Gysin-Maillart, 2016-12-19 An innovative and highly effective brief therapy for suicidal patients a complete treatment Manual Attempted suicide is the main risk factor for suicide The Attempted Suicide Short Intervention Program ASSIP described in this manual is an innovative brief therapy that has proven in published clinical trials to be highly effective in reducing the risk of further attempts ASSIP is the result of the authors extensive practical experience in the treatment of suicidal individuals The emphasis is on the therapeutic alliance with the suicidal patient based on an initial patient oriented narrative interview The four therapy sessions are followed by continuing contact with patients by means of regular letters This clearly structured manual starts with an overview of suicide and suicide prevention followed by a practical step by step description of this highly structured treatment It includes numerous checklists handouts and standardized letters for use by health professionals in various clinical settings

A Critical History of Schizophrenia
Kieran McNally, 2016-04-08 Schizophrenia was 20th century psychiatry s arch concept of madness Yet for most of that century it was both problematic and contentious This history explores schizophrenia s historic instability via themes such as symptoms definition classification and anti psychiatry In doing so it opens up new ways of understanding 20th century madness

Moody Minds Distempered Jennifer Radden, 2009-01-12 In Moody Minds Distempered philosopher Jennifer Radden assembles several decades of her research on melancholy and depression The chapters are ordered into three categories those about intellectual and medical history of melancholy and depression those that emphasize aspects of the moral psychological and medical features of these concepts and finally those that explore the sad and apprehensive mood states long associated with melancholy and depressive subjectivity A newly written introduction maps the conceptual landscape and draws out the analytic and thematic interconnections between the chapters Radden emphasizes and develops several new themes the implications theoretical phenomenological and moral of recognizing melancholy and depressive states as mood states questions of method as they affect how we understand and characterize claims about melancholy and depression and the persistence and force of cultural tropes linking such states to brilliance creativity and sagacity Insights from literature and the history of medicine psychology and psychiatry are woven together with those from the more recent disciplines of feminist theory and cultural studies This is interdisciplinary writing at its best part analytic philosophy and part history of ideas

Sinkhole Juliet Patterson, 2022-09-13 A sublimely elegant fractured reckoning with the legacy and inheritance of suicide in one American family In 2009 Juliet Patterson was recovering from a serious car accident when she learned her father had died by suicide His death was part of a disturbing pattern in her family Her father s father had taken

his own life so had her mother's Over the weeks and months that followed grieving and in physical pain Patterson kept returning to one question Why Why had her family lost so many men so many fathers and what lay beneath the silence that had taken hold In three graceful movements Patterson explores these questions In the winter of her father's death she struggles to make sense of the loss sifting through the few belongings he left behind looking to signs and symbols for meaning As the spring thaw comes she and her mother depart Minnesota for her father's burial in her parents hometown of Pittsburg Kansas A once prosperous town of promise and of violence against people and the land Pittsburg is now literally undermined by abandoned claims and sinkholes There Patterson carefully gathers evidence and radically imagines the final days of the grandfathers one a fiery pro labor politician the other a melancholy businessman she never knew And finally she returns to her father to the haunting subjects of goodbyes of loss and of how to break the cycle A stunning elegy that vividly enacts Emily Dickinson's dictum to tell it slant Sinkhole richly layers personal familial political and environmental histories to provide not answers but essential heartbreaking truth

Trauma, Pedagogy, and the College Mental Health Crisis Robert Samuels, 2024-11-29 Trauma Pedagogy and the College Mental Health Crisis argues that psychoanalytic theory and practice offers a solution to the large increase in students seeking mental health services Robert Samuels returns to the roots of psychoanalysis drawing from Freud's and Lacan's conceptions of hysteria and narcissism This book examines the idea that the repression of psychoanalysis has resulted in a situation where students are being misdiagnosed and mistreated as the underlying structures shaping narcissism and hysteria are misrecognized Samuels suggests that the more people are trained to focus on their own thoughts and feelings the more they take on self destructive thoughts and behaviors in a neurotic way and that psychoanalysis offers a solution Trauma Pedagogy and the College Mental Health Crisis will be of interest to psychoanalysts in practice and in training as well as mental health professionals working with adolescents and professionals working in higher education It will also be relevant to readers interested in adolescent mental health higher education parenting and politics

Violence Bandy X. Lee, 2019-02-27 A comprehensive overview of the integrative study of violence Violence continues to be one of the most urgent global public health problems that contemporary society faces Suicides and homicides are increasing at an alarming rate particularly in younger age groups and lower income countries Historically the study of violence has been fragmented across disparate fields of study with little cross disciplinary collaboration thus creating a roadblock to decoding the underlying processes that give rise to violence and hindering efforts in research and prevention Violence An Interdisciplinary Approach to Causes Consequences and Cures assembles and organizes current information into one comprehensive volume introducing students to the multiple sectors disciplines and practices that collectively comprise the study of violence This innovative textbook presents a unified perspective that integrates the sociological biological politico economic structural and environmental underpinnings of violence Each chapter examines a distinct point of learning beginning with an overview of the content and concluding with discussion questions and an

analytical summary The chapters focus on key domains of research encouraging interdisciplinary investigation and helping students to develop critical analytical skills and form their own conclusions Fills a significant gap in the field by providing a coherent text that consolidates information on the multiple aspects of violence Examines current legal medical public health and policy approaches to violence prevention and their application within a global context Illustrates how similar causes of violence may have dissimilar manifestations Presents a multidisciplinary examination of the symptoms and underlying processes of violence Offers a thorough yet accessible learning framework to undergraduate and graduate students without prior knowledge of the study of violence More than just an accumulation of facts and data this essential text offers a broad introduction to a thinking process that can produce rigorous scholarship across disciplines and lead to a deeper understanding of violence in its many forms **Psychiatric Diagnosis** Ihsan M. Salloum, Juan E. Mezzich, 2009-03-23

Psychiatric diagnosis is one of the most important topics within the broad field of psychiatry Clear accurate definitions of the various disorders are essential for clinicians around the world to be confident that they are classifying patients in the same way thereby enabling comparisons of treatment regimens and their outcomes There are two major classification systems in use one produced by the World Health Organization the WHO International Classification of Diseases Mental Disorders Chapter and one by the American Psychiatric Association the well known Diagnostic and Statistical Manual of Mental Disorders Both of these are being revised so this book from the prestigious World Psychiatric Association is especially timely In this book leading experts in the field provide a broad and integrated coverage of the concepts structure and context of psychiatric diagnosis It begins by addressing mental health and illness around the world from historical philosophical and cultural perspectives Health is approached comprehensively to include such aspects as resilience resources and quality of life The book then covers major specific psychopathology topics in Section II including new categorizations and dimensional approaches Section III concentrates on the complex problem of comorbidity a primary challenge for modern diagnostic classifications in psychiatry Finally Section IV reviews emerging international diagnostic systems in psychiatry considering innovative models and adaptations This book will be essential reading for anyone involved in the diagnosis of psychiatric disorders Psychopharmacology Bulletin ,1966 Behavioral Neurobiology of Suicide and Self Harm Enrique

Baca-Garcia, 2020-12-21 This book reviews the recent research into biological aspects of suicide behavior and outlines each of the varied recent approaches to prevent suicide Suicidal behavior perhaps is the most complex behavior that combines biological social and psychological factors A new frontier and new opportunities are opening with the technologies of data acquisition and data analysis Personalized models based on digital phenotype could provide promising strategies for preventing suicide *Hello I Want to Die Please Fix Me: Depression in the First Person* Anna Mehler Paperny, 2020-03-31 An engrossing memoir meets investigative report that takes a fresh frank look at how we treat depression Depression is a havoc wreaking illness that masquerades as personal failing and hijacks your life After a major suicide attempt in her early

twenties Anna Mehler Paperny resolved to put her reporter's skills to use to get to know her enemy setting off on a journey to understand her condition the dizzying array of medical treatments on offer and a medical profession in search of answers Charting the way depression wrecks so many lives she maps competing schools of therapy pharmacology cutting edge medicine the pill popping pitfalls of long term treatment the glaring unknowns and the institutional shortcomings that both patients and practitioners are up against She interviews leading medical experts across the US and Canada from psychiatrists to neurologists brain mapping pioneers to family practitioners and others dabbling in strange hypotheses and shares compassionate conversations with fellow sufferers Hello I Want to Die Please Fix Me tracks Anna's quest for knowledge and her desire to get well Impeccably reported it is a profoundly compelling story about the human spirit and the myriad ways we treat and fail to treat the disease that accounts for more years swallowed up by disability than any other in the world If you or someone you know is struggling with suicidal thoughts help is available Contact the National Suicide Prevention Lifeline at 800 273 8255

Suicide through a Peacebuilding Lens Katerina Standish, 2019-07-24 This book as the first exploration of suicide in Peace and Conflict Studies PACS illustrates the scarcity of suicide research in the discipline and argues that the leading cause of violent death worldwide is a multifaceted phenomenon that needs to be fully comprehended as a significant and often preventable form of world wide violence The author supplies a theoretical framework for assessing suicide as medical or instrumental posits interdisciplinary complementarity and offers future lines of inquiry that challenge established notions of prevention The book presents a PACS meta theory termed encounter theory and supplies a suicidal peacebuilding platform via relationship This book questions why more PACS scholars aren't turning their attention to suicide when more people die by suicide than ethnic religious or terroristic violence combined

Recent Progress in Child and Adolescent Psychiatry Masanori Hanada, 1999-02-01 In 1998 the birth rate in Japan fell to an unprecedented 1.39 Among the possible causative factors are a growing preference among women to remain unmarried an increase in the mean age at marriage and a rise in the number of women who continue working after marriage In contrast to the decreasing number of children in Japan or perhaps as a result there has been an increase of such dysfunctional phenomena as violence at home and in schools bullying truancy and eating disorders among adolescents These and other issues are among the topics considered by the contributors to *Recent Progress in Child and Adolescent Psychiatry Vol 2* edited under the auspices of the Japanese Society of Child and Adolescent Psychiatry The volume presents a broad ranging view of recent progress in the rapidly developing field of child and adolescent psychiatry providing a valuable resource for practitioners researchers and students of psychiatry and clinical psychology

Reflections in Personal Construct Theory Richard Butler, 2009-03-18 Internationally renowned practitioners discuss the impact of reflexivity on their work giving those new to personal construct psychology valuable insights and guidance on managing the therapeutic relationship Reflexivity is a key methodological issue in psychological theory and practice and is an area of growing interest International contributors include prominent

constructivist psychologists such as Richard Bell and David Winter Will help constructivist therapists to gain a better understanding of the nature of personal constructs from the perspective of both client and therapist *Mental Health*, 2005 This international book aims to bring to life the mental health dimension of health promotion It describes the concepts relating to promotion of mental health the emerging evidence for the effectiveness of interventions and the public health policy and practice implications The book includes evidence on the relationship between social and cultural factors and the mental health of individuals and communities It reviews the available evidence from a range of countries and cultures It documents how actions such as advocacy policy and project development legislative and regulatory reform **The Psychology of Suicide: From Research Understandings to Intervention and Treatment** Yossi Levi-Belz, Yari Gvion, Alan Apter, 2019-07-11 Suicide is a highly complex and multifaceted phenomenon with many contributing and facilitating factors and variables However given its being one of the most severe human behaviors an obvious focus would be to identify the underlying psychological mechanisms and processes that may lead to suicidal ideation and behavior This eBook is dedicated to studies exploring various approaches to the psychology of suicidal behavior as well as of non suicidal self injury NSSI The purpose of this eBook is to shed light on in depth examinations of the current knowledge and empirical data regarding models theories and specific dimensions and variables that may help us increase the psychological understanding of suicidal phenomena The specific goal is to identify particular psychological characteristics that may be used to develop prevention and intervention methods and programs We believe that this eBook can contribute to the understanding of this behavior and help to develop specific tools therapeutic guidelines and programs that may help reduce the number of suicides occurring annually This eBook is dedicated to our dearest friend Dafni Assaf who was one of the greatest leaders of the suicide prevention program in Israel *Well-Grounded* Kelly Lambert, 2018-09-25 A neuroscientist reveals unique aspects of decision making and the best strategies for protecting and enhancing the brain's ability to navigate life's uncertainties Contingency calculations the ability to predict the outcomes of decisions and actions are critical for survival and success Our amazing brains continually process past and current experiences to enable us to make the most adaptive choices But when the brain's information systems are compromised by such varying conditions as drug addiction poverty mental illness or even privilege we can lose the ability to arrive at informed decisions In this engaging book behavioral neuroscientist Kelly Lambert explores a variety of the modern factors that can lead to warped neural processing or distorted realities she terms brain bubbles Individuals who define success in terms of creature comforts and immediate gratification for instance may interact less with the physical and social world and thereby dull their ability to imagine varied contingency scenarios The author underscores how continuous meaningful and well grounded experiences are required if we are to make the best decisions throughout our lives
