**The Ravaged Bridegroom** Marion Woodman, 1990 The Ravaged Bridegroom breaks new ground exploring the psychological impact with patriarchy It focuses on the many ways in which a woman's perspective on herself can be undermined by a crippling relationship with her inner man leaving her spiritually bereft and unable to stand to her own truth

Cover **Ambiguity and Gender in the New Novel of Brazil and Spanish America** Judith A. Payne, Earl E. Fitz, 1993-05 In this first book length study to compare the new novels of both Spanish America and Brazil the authors deftly examine the differing perceptions of ambiguity as they apply to questions of gender and the participation of females and males in the establishment of Latin American narrative models Their daring thesis the Brazilian new novel developed a more radical form than its better known Spanish speaking cousin because it had a significantly different approach to the crucial issues of ambiguity and gender and because so many of its major practitioners were women As a wise strategy for assessing the canonical new novels from Latin America the coupling of ambiguity and gender enables Payne and Fitz to discuss how borders literary generic and cultural are maintained challenged or crossed Their conclusions illuminate the contributions of the new novel in terms of experimental structures and narrative techniques as well as the significant roles of voice theme and language Using Jungian theory and a poststructural optic the authors also demonstrate how the Latin American new novel faces such universal subjects as myth time truth and reality Perhaps the most original aspect of their study lies in its analysis of Brazil's strong female tradition Here issues such as alternative visions contrasexuality self consciousness and ontological speculation gain new meaning for the future of the novel in Latin America With its comparative approach and its many bilingual quotations *Ambiguity and Gender in the New Novel of Brazil and Spanish America* offers an engaging picture of the marked differences between the literary traditions of Portuguese speaking and Spanish speaking America and thus new insights into the distinctive mindsets of these linguistic cultures

**Post-Jungian Psychology and the Short Stories of Ray Bradbury and Kurt Vonnegut** Steve Gronert Ellerhoff, 2016-02-22 In this book Steve Gronert Ellerhoff explores short stories by Ray Bradbury and Kurt Vonnegut written between 1943 and 1968 with a post Jungian approach Drawing upon archetypal theories of myth from Joseph Campbell James Hillman and their forbearer C G Jung Ellerhoff demonstrates how short fiction follows archetypal patterns that can illuminate our understanding of the authors their times and their culture In practice a post Jungian methodology is shown to yield great insights for the literary criticism of short fiction Chapters in this volume carefully contextualise and historicize each story including Bradbury and Vonnegut's earliest and most imaginatively fantastic works The archetypal constellations shaping Vonnegut's early works are shown to be war and fragmentation while those in Bradbury's are family and the wholeness of the sun Analysis is complemented by the explored significance of illustrations that featured alongside the stories in their first publications By uncovering the ways these popular writers redressed old myths in new tropes and coined new narrative elements for hopes and fears born of their era the book reveals
