Association's Index and Bibliography series *Analyses of Nineteenth and Twentieth Century Music 1940-2000* features over 9 000 references to analyses of works by more than 1 000 composers of the nineteenth and twentieth centuries. References that address form, harmony, melody, rhythm, and other structural elements of musical compositions have been compiled into this valuable resource. This update of Arthur Wenk's well-known bibliography, last published in 1987, includes all the original entries from that work along with additional references to analyses through 2000. International in scope, the bibliography covers writings in English, French, German, Italian, and other European languages and draws from 167 periodicals as well as important theses, dissertations, books, and *Festschriften*. References are arranged alphabetically by composer and include subheadings for specific works and genres. This bibliography provides students, scholars, performers, and librarians with broad coverage, detailed indexing, and ready access to a large and diverse body of analytical literature on nineteenth and twentieth century music.

Daniels' *Orchestral Music* David Daniels, David W. Oertel, David A. Rahbee, 2022-06-30. *Daniels' Orchestral Music* is the gold standard for all orchestral professionals: from conductors, librarians, programmers, students, administrators, and publishers to even instructors seeking to research and plan an orchestral program, whether for a single concert or a full season. This sixth edition, celebrating the fiftieth anniversary of the original edition, has the largest increase in entries for a new edition of *Orchestral Music*: 65% more works (roughly 14 050 total) and 85% more composers (2 202 total) compared to the fifth edition. Composition details are gleaned from personal inspection of scores by orchestral conductors, making it a reliable one-stop resource for repertoire. Users will find all the familiar and useful features of the fifth edition as well as significant updates and corrections. Works are organized alphabetically by composer and title, containing information on duration, instrumentation, date of composition, publication, movements, and special accommodations, if any. Individual appendices make it easy to browse works with chorus, solo voices, or solo instruments. Other appendices list orchestral works by instrumentation and duration as well as works intended for youth concerts. Also included are significant anniversaries of composers, composer groups for thematic programming, a title index, an introduction to Nieweg charts, essential bibliography, internet sources, institutions and organizations, and a directory of publishers necessary for the orchestra professional. This trusted work, used around the globe, is a must-have for orchestral professionals, whether conductors or orchestra librarians, administrators involved in artistic planning, music students considering orchestral conducting, authors of program notes, publishers, and music dealers and instructors of conducting.

Masterworks of 20th-Century Music Douglas Lee, 2013-01-11. *Masterworks of 20th-Century Music* introduces more than one hundred of the greatest compositions by world-renowned composers that have entered the standard orchestral repertoire. The author surveyed dozens of major American orchestras to focus on those works that an average audience member is most likely to hear. Concertgoers who are intimidated by the modern repertoire finally have a single resource that will help them understand and enjoy it. Like an educated guide, he walks the listener through the piece, explaining how all the elements come together to form a unified whole. This book serves the
