Stephen Harper and the Future of Canada William Johnson, 2006-09-19 William Johnson was the first to write a book about Stephen Harper and he has become the authority on Harper Who is this man Everyone knows that he became leader of the Alliance Party and against all odds gathered in the old Conservative Party to create a force designed to win power Yet what are his core beliefs Where will he take us now that he has gained power William Johnson has researched the Harper family background and the historical context that shaped Harper's political career He paints a fascinating picture of a man who like Pierre Trudeau trained mentally for political power like an athlete training for the Olympics yet is not a natural

politician and never really wanted the political leader's life. By studying Harper's approach to the main issues in Canadian politics he shows that Harper is a sophisticated political operative far more complex and intellectual than the right wing Republican image that has been created for him. For the paperback edition Johnson has updated this serious objective biography with several new chapters taking us right up through Harper's early days in power.

Robertson Davies Val Ross, 2009-02-24 National bestseller and a Globe and Mail Best Book. A fascinating larger than life character. Davies left a treasure trove of stories about him when he died in 1995 expertly arranged here into a revealing portrait. From his student days onward Robertson Davies made a huge impression on those around him. He was so clearly bound for a glorious future that some young friends even carefully preserved his letters. And everyone remembered their encounters with him. Later in life as a world famous writer perhaps Canada's pre eminent man of letters who looked like Jehovah he attracted people eager to meet him who also vividly remembered their meetings. So when Val Ross set out in search of people's memories she was faced with a wonderful embarrassment of riches. The one hundred or so contributors here range very widely. There are family memories of course and memories from colleagues in the academic world who knew him as a professor and the founding master of Massey College at the University of Toronto. Predictably there are other major writers like Margaret Atwood and John Irving. Less predictably there are people from the world of Hollywood such as Norman Jewison and David Cronenberg who remembers Davies on set peering through a camera lens as he researched his newest novel. And we even hear from his barber and from his gardener Theo Henkenhaf. Some speakers contribute just a lively paragraph others several pages. Yet all of them through the magic of Val Ross's art help to create an intriguing full colour portrait of a complex man beloved by millions of readers around the world.
