Raymonds Miraculous Experience:

Prophecy and the Battle for Spiritual Authority, 1360-1400 Frances Courtney Kneupper, 2025-07-02 The end of the fourteenth century was a time of upheaval and contested authority among the traditional institutions of medieval Europe In response to these conditions a number of people began to claim their own authority as prophets speaking the word of God They came from outside of the clerical elite and were mostly women and reformers This book examines the battle over authority which ensued Prophetic women and other non elites successfully used prophecy to exert influence and to enter the corridors of power while educated male clerics insinuated that prophecy was the product of demonic influence and therefore a hazard to the public Surprisingly a third faction also emerged an international network of clerical men who wrote in support of female prophecy This volume traces the arguments made by these three groups the clashes that erupted and the long term impacts of this battle on ideas of spiritual authority

Warfare and the Miraculous in the Chronicles of the First Crusade Elizabeth Lapina, 2015-08-13 In Warfare and the Miraculous in the Chronicles of the First Crusade Elizabeth Lapina examines a variety of these chronicles written both by participants in the

crusade and by those who stayed behind Her goal is to understand the enterprise from the perspective of its contemporaries and near contemporaries Lapina analyzes the diversity of ways in which the chroniclers tried to justify the First Crusade as a holy war where physical violence could be not just sinless but salvific The book focuses on accounts of miracles reported to have happened in the course of the crusade especially the miracle of the intervention of saints in the Battle of Antioch Lapina shows why and how chroniclers used these miracles to provide historical precedent and to reconcile the messiness of history with the conviction that history was ordered by divine will In doing so she provides an important glimpse into the intellectual efforts of the chronicles and their authors illuminating their perspectives toward the concepts of history salvation and the East Warfare and the Miraculous in the Chronicles of the First Crusade demonstrates how these narratives sought to position the crusade as an event in the time line of sacred history Lapina offers original insights into the effects of the crusade on the Western imaginary as well as how medieval authors thought about and represented history Raymond, Or, Life and Death Sir Oliver Lodge,1917 *Mystics and Miracles* Bert Ghezzi,2010-06 **American Monthly Review of Reviews** ,1893

race **Essays on Selected Christian Topics** Raymond E. Isbell, 2011-02-23 These essays involve biblical topics which have special meaning to the author for one reason or another The story of Noah is included because of a long fascination with the flood and the chapter on faith was precipitated by a study of the relationship of grace faith and works in the salvation process It is hoped that all have been presented without bias but it should be understood that all call for personal study and decisions based upon the guidance of the reader by the Holy Spirit In determining a doctrinal stance or a course of behavior two cardinal rules should be followed The first is to let your conscience be your guide and the second is to let a thorough study of the Word guide your conscience I wish to thank the reader for considering my point of view and to urge you to weigh carefully what is presented to assure that God is leading you If my point of view helps anyone in their effort to be led by Gods Spirit to a fuller understanding of His Word I will be grateful Be assured however that I claim no credentials to biblical scholarship other than from my studies from standard versions of the Bible KJV and NIV with help from Crudens

between Magic, Miracles and Mechanics Hans Henrik Lohfert Jørgensen,Laura Katrine Skinnebach,Henning Laugerud,2023-08-18 When it comes to images we are all animists Deep down we all know that images can at least

potentially be alive or come to life Nowadays we may tend to rationalize our ingrained animism and explain it away as a mere projection only happening in the space between image and viewer In the Middle Ages however imagery made enthusiastic use of magical miraculous and mechanical means of animation empowered and ensouled by both natural and supernatural principles of life This animist book investigates magic miracles and mechanics as motors of animation and seeks to understand the living image in solidarity with medieval experience rather than dismissive alienation of it Effigies did bleed weep or lactate either through divine intervention or through hydraulic machinery Statues did move or speak either as demonic oracles or as talking heads with implanted speaking tubes Marvels made by magic or by miracles were real as real as the wonders of physical mechanics moving bodily matter We just need to look and listen more carefully to comprehend these fluid realities even when especially when they challenge our received worldview Animation was by no means uncontested or uncontradicted but even its stiffest critics knew that gods and demons could intervene in inanimate matter to set it in motion to speak in tongues and exude the liquids of life

Miracles Charles Raymond Dillon, 2000-11 Most of the stories in this book are outside the scope of our everyday experience many unbelievable yet many have been validated by observers as being authentic There are stories of weeping and mobile statues incorruptible flesh of the dead and spontaneous combustion of human bodies Other stories concern ecstasy levitation visions healing and other mysterious events The concept of miracles have been attacked by rationalist philosophers who argue that they would be a violation of the common course of nature thus the events could not happen Saint Augustine answered such critics by defining miracles as being events that are unknown in nature not as something opposed to it This book contains a collection of wondrous events that have been reported at have occurred at different times in diverse places and among all peoples of the world These wonderful events may be called miracles frauds coincidences or what ever you may choose Many have been investigated and determined to have been fraud The intent is to present the information and to let you decide if they are real miracles or not
