The author employs the term *Das Gegenwerk* or the work towards the work. This concept avoids definitive closure and expands the notion of drafting and related practices to include qualitative research methods. The multi mode transitional practices of *Das Gegenwerk* are devoid of any demand for a preconceived goal but instead hinge upon the provisional and indeterminate. As such it is a far cry from the binary logic of the computer and the design cycle but is of interest to an audience engaged with both. *Das Gegenwerk* hinges on our capacity to respond to the outside rather than the inwardness often attributed to creative agency. A fundamental belief of the book is that by investigating and adapting the practices of expert practitioners we can gain an understanding of high level creativity. It is neither a recipe nor a linear or cyclic approach. Rather artistic creation is an interweave of transitional multi mode practices where the overriding emphasis is on the handling or habituation of transitional materials in physical place. The author addresses the urgent need to provide a balance between the promise of new technology and our capacity to both respond to and work with what the world bestows.

Absence / Presence Stephen C. Feinstein, 2005-08-11. Since the liberation of the Nazi concentration camps and recognition of the Holocaust as a watershed event of the twentieth century if not in Western Civilization itself the capacity of art to represent this event adequately has been questioned. As it analyzes a cross section of Holocaust art within the context of art history *Absence Presence* addresses the discussion head on and explores the interchange between media and horror. The book's contributors include case studies from a broad spectrum of artists in North America Europe and Israel to examine some of the more dominant themes in these artists work. In addition to standard readings of Holocaust art the essays help illuminate the issues of eugenics the importance of art for Hitler and the Nazis the immense pilfering of art that occurred during World War II and the length and degree of the destruction of European Jewry which forced artists to reinvent their work through their own fate. This selection of essays also provides alternative views to more typical readings on the Holocaust specifically to the story of the Shoah as a relevant art subject and to those who have a right to create art about the Holocaust. These issues were the subject of an intense international debate based on an exhibition at New York's Jewish Museum titled *Mirroring Evil*. The retrospective brought to art a series of contemporary perspectives that represented both the outer edges as well as mainstream postmodern thinking concerning representations of the Holocaust. This book which covers the art from the late 1980s through 2002 includes the work of an array of scholars curators and artists from many countries. It will be of great interest

to art historians Jewish scholars and anyone interested in learning more about the art and artists of the Holocaust

Pictorial Narrative in the Nazi Period Deborah Schultz, Edward Timms, 2013-10-31 This book investigates creative responses to the Nazi period in the work of three artists Felix Nussbaum Charlotte Salomon and Arnold Daghani focusing on their use of pictorial narrative It analyses their contrasting aesthetic strategies and their innovative forms of artistic production In contrast with the autonomous modernist art object their works were explicitly linked with the historical conditions under which they were produced the pressures of persecution and exile Conditions in the slave labour camps and ghettos in the Ukraine which shaped the paintings and drawings of Daghani are contrasted with the experiences of exile in Belgium and France which inspired Nussbaum and Salomon In defiance of conventional artistic practice they produced word image combinations that can be read as narrative sequences incorporating specific references to political events While there has been a wealth of literary philosophical and historical studies relating to the Holocaust aesthetic debate has developed less extensively This is the first comparative study of three artists who are only belatedly achieving recognition and the recent reception of their work is evaluated By identifying the aesthetic principles and narrative strategies underlying their work the book reassesses their achievement in creating new forms of modernism with an unmistakable political momentum This book was published as a special issue of Word Image
