Rcaf Squadrons Aircraft Samuel Stev:

A History of the Mediterranean Air War, 1940-1945 Christopher Shores, Russell Guest, 2025-09-30 In 1943 Allied bombers from Italy launched strategic attacks on Axis oil fields factories and Danube supply routes Following the inter Allied Casablanca Conference in January 1943 the outline for the Combined Bomber Offensive was agreed and resulted in early February with the Casablanca Directive This required the progressive destruction and dislocation of the German military industrial and economic systems and the undermining of the morale of the German people to a point where their capacity for armed resistance is fatally weakened This directive was clarified in June when the Combined Chiefs of Staff issued the Pointblank Directive that stated that the highest priority targets were the fighter aircraft factories to ensure that in the coming invasion of France the enemy would not have air superiority When these directives were issued it was envisaged that as well as attacks by RAF Bomber Command and the US 8th Air Force based in England the strategic bomber forces in Italy would begin operations once suitable bases were available After the Allied landings in Italy and resulting collapse of the Italian fascist regime a network of bomber bases was hastily developed Thus on 1 November 1943 the US 15th Air Force was formed to conduct the daylight bombing offensive against strategic targets in southern Germany and across southeastern Europe Key among these were the Rumanian oilfields and traffic along the River Danube This new formation was joined by the smaller but highly effective 205 Group RAF that was trained and equipped for night bombing so mirroring their equivalent British based formations The damaging attacks on the Reich s oil supplies and the highly effective Danube mining campaign conducted at night by 205 Group delivered huge strategic effect The latter reduced vital oil and goods traffic into the Reich to a trickle but also dislocated the supply and logistics train into the southern part of the Eastern Front so giving manifest support to the Soviets In this volume the early months of this hugely significant air campaign are described in minute and original detail and are accompanied by hundreds of hitherto unpublished photographs In combating these attacks Germany s Axis allies such as Hungary Rumania Bulgaria and Slovakia were encountered for the first time by the Western Allies

Spitfire Aces of North Africa and Italy Andrew Thomas, 2013-02-20 Essential coverage of the key part played by the iconic Spitfire in the desert campaign during 1942 43 and in the destruction of the Luftwaffe in Sicily Italy and the Balkans from mid 1943 through to VE Day Although most famous for their role in the Battle of Britain many Spitfire squadrons also served in the Mediterranean theatre aiding the Allied victories in North Africa and later in the invasion of Italy Numerous pilots both Royal Air Force and South African Spitfire squadrons made ace during these engagements This book tells their story

V1 Flying Bomb Aces Andrew Thomas, 2013-09-20 Shortly after the Allied landings in France the Germans unleashed the first of their so called revenge weapons the V1 flying bomb Launched from specially constructed sites in northern France the fast small pulse jet powered pilotless aircraft were aimed at London with the sole intent of destroying civilian morale to the point where the British government would be forced to sue for peace This dangerous new threat drew

an immediate response and the Air Defence of Great Britain as Fighter Command had been temporarily renamed established layers of defence that included a gun line and balloon barrage The main element however were standing patrols by the fastest piston engined fighters available to the RAF the new Tempest V and Griffon powered Spitfire XIV Other types were allocated too most notably the Polish Mustang wing while night defence was left in the capable hands of several dedicated Mosquito squadrons Although pilotless the V1 was no easy foe thanks to its speed powerful warhead and sheer unpredictability Nevertheless 154 pilots became V1 aces 25 of whom were also aces against manned aircraft *Occupied St John's* Steven C. Bercuson,2024-10-17 The Royal Canadian Air Force RCAF was founded in 1924 as a sort of federal air service carrying out civilian type operations for Ottawa In the Second World War the RCAF grew to more than 200 000 personnel in overseas squadrons and performed virtually every type of mission including bombing and hunting submarines Over the decades since the RCAF has tried valiantly to carry out its mission of defending Canada even when starved of funds by the federal government Today it is once again on the verge of becoming a modern well equipped air force In Canada s Air Force historian David J Bercuson shares the history of the first one hundred years of the Royal Canadian Air Force from its inception in 1924 to its centennial in 2024 Drawing on memoirs diaries unpublished histories archival sources interview transcripts and standard reference works such as The Bomber Command War Diaries Bercuson traces the history of the RCAF as not only a fighting force but also a human institution Canada s Air Force analyses the first century of the RCAF through the clear eyed perspective of a Canadian historian who has closely scrutinized one hundred years of the RCAF s story The Canadian Historical Review ,1977 Includes section Recent publications relating to Canada *Sixty Years* Larry Milberry,1984 **The Distinguished Flying Cross Society** Randy W.
