Subject Guide to Books in Print ,1997 **Research-Based Practices for Teaching Common Core Literacy** P. David Pearson,Elfrieda H. Hiebert,2015 This one of a kind resource will be invaluable to every teacher educator every curriculum director and every literacy coach whether or not they must meet Common Core Standards Bringing together perspectives from literacy luminaries each addressing their specialty this book offers an accessible fund of rich practices in literacy instruction The book serves two purposes First it assembles a body of knowledge and wisdom from leading literacy

researchers who each draw from a long career in the field to address topics of central importance to good literacy instruction. Second, these research to practice leaders connect established best practices and foundational research to the current challenge of instruction to meet Common Core Standards and other rigorous curriculum guidelines. The contributors point out strengths of the Common Core as well as issues and oversights that educators should be aware of. Closing chapters situate the Common Core within a continuum of educational policy and legislation.

Contributors: Richard L. Allington, Monica T. Billen, Jay S. Blanchard, Robert Calfee, Gina N. Cervetti, Michael F. Graves, John T. Guthrie, Elfrieda H. Hiebert, James V. Hoffman, Rosalind Horowitz, Michael L. Kamil, Barbara Kapinus, Richard Long, Leigh Ann Martin, Kimberly McCuiston, James Nageldinger, David Paige, P. David Pearson, Timothy Rasinski, S. Jay Samuels, Barbara Taylor, Joanna P. Williams, Kathleen Wilson, Pearson, and Hiebert have long advocated for children in schools, and this volume is no exception. They and their chapter authors situate the CCSS within the historical and policy context in which it was written and support the literacy education community as we wrestle with the implications the standards have for research for teachers, for teaching, and for learning.

Sharon Walpole, University of Delaware: This book gets way beyond generalities and polemics about the Common Core, taking a deep and measured dive into a wide range of essential topics within the standards. I read a lot, and I can't think of the last time I read anything about the CCSS as engaging and thought provoking as this.

[The Great Dimming](#), Kevin B. DiBacco, 2025-04-08. The Great Dimming: The Modern IQ Decline investigates a paradox that would have seemed unthinkable just decades ago: even as technology advances at breakneck speed, our collective cognitive capabilities appear to be deteriorating. Through compelling research and analysis, the book reveals how IQ scores that rose steadily throughout the 20th century (the Flynn Effect) have now reversed in developed nations. Core cognitive capabilities like abstract reasoning, working memory, and critical thinking are declining at measurable rates, with profound implications for society's future. Unlike simplistic explanations blaming technology alone, *The Great Dimming* presents a multifaceted analysis of interlocking factors driving this trend. From environmental toxins altering neural development to the attention-fragmenting effects of digital media, from educational systems failing to develop deep thinking to lifestyle changes disrupting sleep and physical activity, each contributes to a perfect storm of cognitive challenges. Beyond identifying problems, the book presents evidence-based solutions at every level. For individuals, it offers a practical toolkit of interventions ranked by effectiveness, from cardiovascular exercise that boosts cognitive function by 15-20% to digital wellness practices that enhance focus by 40%. For communities and policymakers, it showcases successful case studies like

Singapore's Smart Environment program and Vermont's comprehensive cognitive health initiative demonstrating real world models for intervention. What sets The Great Dimming apart is its balance of rigorous science, accessible explanations, and practical optimism. While unflinching in its assessment of alarming trends, it also reveals our remarkable neuroplasticity and potential for recovery.

Linguistics and Language Behavior Abstracts, 1990 Developing Curriculum for Emergency Remote Learning Environments Silva, Susana, Peres, Paula, Silva, Cândida, 2022-12-29

All over the world, educational institutions confronted emergency policy changes caused by the COVID-19 pandemic. Due to this, academic activities were provided mostly by remote teaching and learning solutions. The transition to emergency remote teaching and learning raised some challenges regarding technical, pedagogical, and organizational issues. It is important for higher education institutions to prepare themselves to deal with future emergency scenarios, promoting an in-depth reflection about the future challenges in the post-pandemic era.

Developing Curriculum for Emergency Remote Learning Environments supports creating and promoting an education as a business strategy for higher education institutions by sharing possible business models. It provides a collection of different approaches to online education in the perspective of the future of education environments. Covering topics such as distance learning experiences, online practice improvement, and remote testing, this premier reference source is an excellent resource for educators and administrators of higher education, pre-service educators, IT professionals, librarians, researchers, and academicians.
