Waller, 2020-05-22 In *Me Jane* author Jane Waller presents an unusual account of childhood in 1950s England. Using first her mother's diaries and later her own she evokes clear memories of those far off days so different from now. She explores the thoughts and feelings of a child living in the countryside beginning at age four. Waller was then sent to a rather demanding boarding school in Surrey complete with mad matron and flasher. Her recollections take her through her teenage years including a desperate search for a boyfriend until at seventeen she becomes a beatnik and heads off to study art in Oxford. Waller also tells how those in power a subject not taught in schools deprived Aylesbury of a beautiful Georgian house and grounds that had taken the family seven years to completely restore but that were subsequently destroyed by a road widening scheme an event that broke apart the marriage of her parents. Poignant and personal this memoir presents a story of childhood in the UK in the mid twentieth century and the shifts that altered her and her family forever. **Y'all Didn't**

Hear it From Me Crys McAllister, 2021-04-12 Do you ever wish you could write a letter to your former younger self about the details of your present life maybe as a way to do something different. Well as you know we can't change our past however we can change our future and how we are looking at our past. In this book you will read stories about my lifetime. My personal ups and downs triumphs good times and bad people I've met and for good measure a few stories to give you an insight on how I think and the many things I think about. As each story unfolds with detailed emotion and witty sarcasm you'll see as my thoughts transform to understanding. There is a reason for everything and only you can change your future like I changed mine. This book is my way of saying we are not alone in this world. *Soulful Bobcats* Carl H. Walker, Betty

Hollow, 2014-09-20 During the 1950s when less than 20 percent of American high school graduates attended college a group of ambitious young African Americans enrolled at Ohio University a predominantly white school in Athens Ohio. Because they were a tiny barely tolerated minority they banded together supported each other and formed lasting bonds. Years later at a series of Soulful Reunions they recalled the joys and challenges of living on a white campus before the civil rights era and eighteen of them decided to share their stories. The authors of the eighteen autobiographical sketches in *Soulful Bobcats* were a diverse group. They were athletes rhetoricians musicians and actresses they aspired to professions in the military business education government architecture and the arts. Some grew up in poor families while others enjoyed the comforts of the middle class. But they had several things in common. They all came from families that believed education was important. They had been taught to avoid trouble to persist despite setbacks and to expect to encounter prejudice and even discrimination. The authors vividly describe instances in which they were humiliated by other students by professors or by

townspeople as well as the few occasions when violence seemed inevitable In addition they describe their first including becoming the first African American students at Ohio University to be awarded scholarships for their prowess in football basketball track and tennis the first to compete for titles such as Mr Fraternity or Queen of the Military Ball the first to appear in theatrical performances alongside their white schoolmates They also tell of their success in providing a social life for themselves by organizing two Greek letter fraternities and one sorority holding their own off campus dances and joining the few campus organizations that were open to them Above all their stories speak to a resilience that allowed these Soulful Bobcats to learn from their experiences at Ohio University to engage in meaningful careers and to lead rich fulfilling lives
