Olson,Nancy Torrance,2009-02-16 This volume demonstrates how literacy is more than learning to read and write Literacy creates communities organizes personal and social lives makes possible civil society and the rule of law and underwrites the commitment of both modern and developing societies to universal education and ever higher levels of literate competence Everything that is involved in being and becoming literate is the concern of this interdisciplinary group of distinguished scholars **The Journal of Philosophy, Psychology and Scientific Methods** ,1905 Proceed with Caution, when Engaged by Minority Writing in the Americas Doris Sommer,1999 Let the reader beware Educated readers naturally feel entitled to know what they re reading often if they try hard enough to know it with the conspiratorial intimacy of a potential partner This book reminds us that cultural differences may in fact make us targets of a text not its co conspirators Some literature especially culturally particular or minority literature actually uses its differences and distances to redirect our desire for intimacy toward more cautious respectful engagements To name these figures of cultural discontinuity to describe a rhetoric of particularism in the Americas is the purpose of *Proceed with Caution* In a series of daring forays from seventeenth century Inca Garcilaso de la Vega to Julio Cort zar and Mario Vargas Llosa Doris Sommer shows how ethnically marked texts use enticing and frustrating language games to keep readers engaged with difference Gloria Estefan s syncopated appeal to solidarity plays on Whitman s undifferentiated ideal unrequitable seductions echo through Rigoberta Mench s protestations of secrecy Toni Morrison s interrupted confession the rebuffs in a Mexican testimonial novel In these

and other examples Sommer trains us to notice the signs that affirm a respectful distance as a condition of political fairness and aesthetic effect warnings that will be audible and engaging for readings that tolerate difference once we listen for a rhetoric of particularism

Reimagining the Historian in Victorian England Elise Garritzen, 2023-08-08 What constitutes a historian What skills and qualities should a historian cultivate Who is entitled to define historians physiognomy Victorians sought to answer these questions as history transformed from a Romantic literary pursuit into a modern discipline during the second half of the nineteenth century This book offers a novel interpretation of this critical historiographical period by tracing how historians forged themselves a collective scholarly persona that legitimized their new disciplinary status By combining historiography and book history Elise Garritzen argues that historians appropriated titles prefaces footnotes and other paratexts as an institutionalized space for fashioning the persona Yet historians did not have a monopoly on the persona as readers and reviewers offered their interpretations of the persona and publishers influenced the paratextual presentation of the persona By ascribing agency to paratexts and the literary marketplace Garritzen makes an important shift in the way we perceive the formation of scholarly personae and modern disciplines The book offers a novel approach to the role which scholarly virtues held in the Victorian society the formation of scholarly communities the commodification of knowledge and the management of scientific reputations It provides new insights for scholars interested in the history of humanities science and knowledge book history and Victorian culture

Zboray, Mary Saracino Zboray, 2006 Everyday Ideas Socioliterary Experience among Antebellum New Englanders takes an unprecedented look at the use of literature in everyday life in one of history's most literate societies the home ground of the American Renaissance Using information pulled from four thousand manuscript letters and diaries Everyday Ideas provides a comprehensive picture of how the social and literary dimensions of human existence related in antebellum New England Penned by ordinary people factory workers farmers clerks storekeepers domestics and teachers and other professionals the writings examined here brim with thoughtful references to published texts lectures and speeches by the period's canonized authors and lesser lights These personal accounts also give an insider's perspective on issues ranging from economic problems to social status conflicts to being separated from loved ones by region state or nation Everyday Ideas examines such references and accounts and
