Reading Research Into the Year 2000 Anne P. Sweet, Judith I. Anderson, 2013-12-16 Through the years research on reading has made enormous contributions to helping us understand how students learn to read and how teachers can best instruct them Research continues to add to our fundamental knowledge of reading in significant ways thus adding more pieces to the puzzle for example finding answers to how students learn content in other school subjects through reading and what strategies teachers can use to help their students do this more effectively Reading Research into the Year 2000 describes the dynamic process that the Department of Education engages in to plan and execute a reading research agenda It was written to inform a wide ranging public those who will benefit directly or indirectly from reading research findings including those who use research applications as well as those who conduct the research Moreover it was written to make public the process of establishing a national R D Center Few people outside the Department of Education are aware of the procedures that are undertaken The editors believe that if more people are in the know they will be more likely to participate in the entire process from generating research ideas to submitting applications and that this greater participation is essential if we are to garner divergent thinking about how to solve critical education research issues They

have made a significant step toward breaking down barriers to full participation and paved the way for greater involvement of non traditional players in competing for a national R D Center award *Banking Automation* G.
