Readers, Reading and Reception of Translated Fiction in Chinese Leo Tak-hung Chan, 2014-04-08 Translated fiction has largely been under-theorized if not altogether ignored in literary studies Though widely consumed, translated novels are still considered secondary versions of foreign masterpieces *Readers, Reading and Reception of Translated Fiction in Chinese* recognizes that translated novels are distinct from non-translated novels just as they are distinct from the originals from which they are derived but they are neither secondary nor inferior They provide different models of reality they are split apart by two languages, two cultures and two literary systems and they are characterized by cultural hybridity, double voicing and multiple intertextualities With the continued popularity of translated fiction, questions related to its reading and reception take on increasing significance Chan draws on insights from textual and narratological studies to unravel the

processes through which readers interact with translated fiction Moving from individual readings to collective reception he considers how lay Chinese readers as a community received translated British fiction at specific historical moments during the late twentieth and early twenty first centuries Case studies discussed include translations of stream of consciousness novels fantasy fiction and postmodern works In addition to lay readers two further kinds of reader with bilingual facility are examined the way critics and historians approach translated fiction is investigated from structuralist and poststructuralist perspectives A range of novels by well known British authors constitute the core of the study including novels by Oscar Wilde James Joyce D H Lawrence Virginia Woolf John Fowles Helen Fielding and J K Rowling

The Field of Chinese Language Education in the U.S. Vivian Ling, 2018-02-13 This book will be the first account of the development of Chinese as a foreign language in the U S as it interacts with the relevant entities in China and beyond There are virtually no systematic retrospective reflections on the field outside of the greater China region and yet over the past decades the field has grown by leaps and bounds and it is critical now that we pause to reflect on what has happened and what we can learn from the past The contributors are among some of the most influential pioneers in the field whose entire academic lives have been dedicated to its development *The Field of Chinese Language Education in the U S A Retrospective of the 20th Century* is aimed at those who are currently engaged in Chinese language education as teachers or as students

China's Great Proletarian Cultural Revolution Woei Lien Chong, 2002 Treating China's Cultural Revolution as much more than a political event this innovative volume explores its ideological dimensions The contributors focus especially on the CR's discourse of heroism and messianism and its demonization of the enemy as reflected in political practice official literature and propaganda art arguing that these characteristics can be traced back to hitherto neglected undercurrents of Chinese tradition Moreover while most studies of the Cultural Revolution are content to point to the discredited cult of heroism and messianism this book also explores the alternative discourses that have flourished to fill the resulting vacuum The contributors analyze the intense intellectual and artistic ferment in post Mao China that embody resistance to CR ideology as well as the urgent quest for authentic individuality new forms of social cohesion and historical truth Contributions by Anne Marie Brady Woei Lien Chong Lowell Dittmer Monika Gaenssbauer Nick Knight Stefan R Landsberger Nora Sausmikat Barend J ter Haar Natascha Vittinghoff and Lan Yang

China Learns from the Soviet Union, 1949-Present Hua-Yu Li, 2010-01-05 It is well known that the Soviet Union strongly influenced China in the early 1950s since China committed itself both to the Sino Soviet alliance and to the Soviet model of building socialism What is less well known is that Chinese proved receptive not only to the Soviet economic model but also to the emulation of the Soviet Union in realms such as those of ideology education science and

culture In this book an international group of scholars examines China's acceptance and ultimate rejection of Soviet models and practices in economic cultural social and other realms The chapters vividly illustrate the wide ranging and multi dimensional nature of Soviet influence which to this day continues to manifest itself in one critical aspect namely in China's rejection of liberal political reform *Art, Global Maoism and the Chinese Cultural Revolution* Jacopo Galimberti, Noemi de Haro García, Victoria H. F. Scott, 2019-11-18 This is the first book to explore the global influence of Maoism on modern and contemporary art Featuring eighteen original essays written by established and emerging scholars from around the world and illustrated with fascinating images not widely known in the west the volume demonstrates the significance of visuality in understanding the protean nature of this powerful worldwide revolutionary movement Contributions address regions as diverse as Singapore Madrid Lima and Maputo moving beyond stereotypes and misconceptions of Mao Zedong Thought's influence on art to deliver a survey of the social and political contexts of this international phenomenon At the same time the book attends to the similarities and differences between each case study It demonstrates that the chameleonic appearances of global Maoism deserve a more prominent place in the art history of both the twentieth and twenty first centuries *Contemporary Chinese Novels in Translation since 1978* Yun Wu, 2024-10-14 This book aims to complement the traditional focus of translation studies which has primarily centered on translating English into other languages It presents a comprehensive analysis of the reverse translation trajectory exploring the movement of Chinese literature into the core English literary domain The book aims to explore the ideological and sociological dynamics that underlie the translation of contemporary Chinese novels This is achieved through an examination of the translation selection process translation paratexts and the roles of translation agents Case studies are employed to illustrate specific linguistic literary and cultural challenges within translation It dissects the cultural and literary implications of translating genres such as women's writing science fiction and Internet literature The argument presented is that the translation of peripheral literature is indispensable in shaping global literature Beyond its literary implications the book identifies the political significance inherent in such reverse translation endeavors It suggests that the translation of Chinese literature holds notable political interest for the Chinese government which aims to reshape China's image and bolster the nation's soft power through literary translation This work will be an essential read to students and scholars of translation studies comparative literature and Chinese studies

The Evolution of China's Political Economy Rich Marino, 2023-05-01 For years China's rapid economic transformation was hailed as a successful project that lifted hundreds of millions of people out of poverty However in recent times the Chinese narrative has taken a more negative turn in the eyes of the West Much of this has to do with the US perception about the role of the Chinese state in its economy and its military build up especially in the South China Sea There's no question China's complex economy can be difficult to understand Information is often unclear and incomplete and its data are not always reliable However this book presents the reader with a clear picture of China's economy and how it

compares to other advanced economies mainly the United States The book unwraps the key features and structures of China's economy Moreover it examines and shows the similarities and differences in comparison with other like economies In that effort it underscores the differences by evaluating their benefits as well as their disadvantages against the backdrop of China's incomplete transition to a market economy This along with its governance structure becomes the crucial components shaping the way key stakeholders will act and react to opportunities and incentives as that economy evolves The book supplements the definition of globalization for the academic the student the professional and anyone else interested in its positive and negative effects It is also a good fit for anyone who wants to understand China's three elements of political economy global trade political power and its image on the global stage

Translating Simone de Beauvoir's The Second Sex Julia C. Bullock, Pauline Henry-Tierney, 2023-05-19 This collection offers insights into the transnational and translingual implications of Simone de Beauvoir's *Le Deuxième Sexe* The *Second Sex* a text that has served as foundational for feminisms worldwide since its publication in 1949 Little scholarly attention has been devoted to how the original French language source text made its way into languages other than English This is a shocking omission given that many but by no means all other translations were based on the 1953 English translation by Howard M. Parshley which has been widely criticized by Beauvoir scholars for its omissions and careless attention to its philosophical implications This volume seeks to fill this gap in scholarship with an innovative collection of essays that interrogate the ways that Beauvoir's essay has shifted in meaning and significance as it has travelled across the globe This volume brings together for the first time scholars from Translation Studies Literary Studies and Philosophical Studies and over half of it is dedicated to non-Western European engagements with *Le Deuxième Sexe* including chapters on the Chinese Japanese Arabic Hungarian and Polish translations As such this collection will be essential to any scholar of Beauvoir's philosophy and its contributions to feminist discourses

Renditions, 1986 **Gender Hierarchy of Masculinity and Femininity during the Chinese Cultural Revolution** Zhuying Li, 2020-11-25 Focusing on the influence of Maoist ideology and masculinist power on the representations of women in revolutionary opera films made during the Cultural Revolution this book considers the gendered hierarchy between masculinity and femininity in relation to the historic and cultural context in which they were made Using feminist methodology and epistemology to locate women's social identity this book explores the sociological connections between the masculinisation of women and masculinist domination in the context of the Cultural Revolution Through film analysis the author examines whether women rather than liberated were in fact re-gendered and oppressed by masculinist power By critically evaluating gender hierarchy during the Chinese Cultural Revolution the book provides hitherto neglected insights into gender within its social and cultural context This an interdisciplinary book which should appeal to students and scholars across a range of disciplines including gender studies Asian studies China studies cultural studies and film studies

Theaters of Desire: Authors, Readers, and the Reproduction of Early Chinese Song-Drama, 1300-2000 P.

Sieber, 2003-07-17 Blending a flair for textual nuance with theoretical engagement *Theaters of Desire* not only contributes to our understanding of the most influential form of early Chinese song drama in local and international cultural contexts but adds a Chinese perspective to the scholarship on print culture authorship and the regulatory discourses of desire. The book argues that particularly between 1550 and 1680 Chinese elite editors rewrote and printed early plays and songs so called Yuan dynasty zaju and sanqu to imagine and embody new concepts of authorship readership and desire an interpretation that contrasts starkly with the national and racially oriented reception of song drama developed by European critics after 1735 and subsequently modified by Japanese and Chinese critics after 1897. By analyzing the critical and material facets of the early song and play tradition across different historical periods and cultural settings *Theaters of Desire* presents a compelling case study of literary canon formation.

Occidentalism Xiaomei Chen, 2002 This revised and expanded edition of the first comprehensive study of Occidentalism in post Mao China includes a new preface foreword and chapter on Chinese diaspora writings in the Chinese language. Xiaomei Chen offers an insightful account of the unremittingly favorable depiction of Western culture and its negative characterization of Chinese culture in post Mao China since 1978. She examines the cultural and political interrelationship between the East and West from a vantage point more complex than that accommodated by most current theories of Western imperialism and colonialism. Going beyond Edward Said's construction in *Orientalism* of cross cultural appropriations as a defining facet of Western imperialism, Chen argues that the appropriation of Western discourse what she calls Occidentalism can actually have a politically and ideologically liberating effect on contemporary non Western culture. She maintains that simplistic allegations of Orientalism frequently found in current critical discourses seriously underestimate the complexities of intercultural and multicultural relationships. Using China as the focus of her analysis, Chen examines a variety of cultural media from Shakespearean drama to modernist poetry to contemporary Chinese television and popular fiction. She thus places sinology in the general context of Western theoretical discourses such as Eurocentrism postcolonialism nationalism modernism feminism and literary hermeneutics showing that it has a vital role to play in the study of Orient and Occident and their now unavoidable symbiotic relationship. *Occidentalism* presents a new model of comparative literary and cultural studies that reenvisions cross cultural appropriation. It will be indispensable to future discussions of Orientalism Occidentalism and postcolonialism as well as subaltern studies Asian studies comparative literature cultural studies and non Western drama.
