Reader On Race Civil Rights And American Law:

A Reader on Race, Civil Rights, and American Law Timothy Davis, Kevin R. Johnson, George A. Martínez, 2001 This anthology offers a range of legal and related literature analyzing the major issues of race and civil rights in the modern United States Unlike previous works which have tended to focus on the relationship between Caucasians and African Americans this anthology considers race and civil rights issues from a wide range of minority perspectives African American Asian American Latino and Native American The debate over race issues is examined in numerous contexts including the role of race in laws affecting education housing employment voting rights immigration and the administration of criminal justice In this anthology editors Davis Johnson and Martinez explore broader themes such as the history of racial subordination of African Americans Native Americans Asian Americans and Latinos affirmative action hate speech and the subordination of women of color In setting the stage for an examination of race in these diverse contexts the anthology's first selections explore the concept of race The anthology is geared toward but not limited to law school classes focusing on civil rights and race relations The selections are of such a nature that the anthology should also appeal to anyone interested in foundational readings in this area Each chapter begins with an introduction that strives to provide a framework from which the reader can analyze the current debates over issues of race in the United States [African American Perspectives on Political Science](#)

Wilbur Rich, 2007-01-15 Race matters in both national and international politics Starting from this perspective African American Perspectives on Political Science presents original essays from leading African American political scientists Collectively they evaluate the discipline its subfields the quality of race related research and omissions in the literature They argue that because Americans do not fully understand the many faceted issues of race in politics in their own country they find it difficult to comprehend ethnic and racial disputes in other countries as well In addition partly because there are so few African Americans in the field political science faces a danger of unconscious insularity in methodology and outlook Contributors argue that the discipline needs multiple perspectives to prevent it from developing blind spots Taken as a whole these essays argue with great urgency that African American political scientists have a unique opportunity and a special responsibility to rethink the canon the norms and the directions of the discipline **Multiracial America** Karen E.

Downing, Darlene P. Nichols, Kelly Webster, 2005 Multiracial America addresses a growing interest in interracial people and relationships in America Over the past decade there have been numerous books and articles written on interracial issues Despite the rampant growth in publishing locating these often scattered and inaccessible materials remains a challenge This resource guide provides easy access to the available literature Topical chapters on the most often researched themes are included such as core historical literature books for children and young adults hot button issues passing identification appearance fitting in and blood quantification interracial dating and marriage families adoption and issues pertaining to race and queer sexuality Each chapter includes a brief discussion of the literature on the topic including historical context and

comments on the breadth and depth of the available literature and followed by annotations of books popular and scholarly journals magazines and newspaper articles videos films and websites Other useful sections include a chapter on the depiction of interracial relationships in film teaching an interracial issues course and how to search for materials given changing terminology and classification issues Indexes by race and non print media are included

Fear of a Hip-Hop Planet D. Marvin Jones, 2013-04-01 Is Gangsta Rap just black noise Or does it play the same role for urban youth that CNN plays in mainstream America This provocative set of essays tells us how Gangsta Rap is a creative report about an urban crisis our new American dilemma and why we need to listen Increasingly police politicians and late night talk show hosts portray today's inner cities as violent crime ridden war zones The same moral panic that once focused on blacks in general has now been refocused on urban spaces and the black men who live there especially those wearing saggy pants and hoodies The media always spotlights the crime and violence but rarely gives airtime to the conditions that produced these problems The dominant narrative holds that the cause of the violence is the pathology of ghetto culture Hip hop music is at the center of this conversation When 16 year old Chicago youth Derrion Albert was brutally killed by gang members many blamed rap music Thus hip hop music has been demonized not merely as black noise but as a root cause of crime and violence

Fear of a Hip Hop Planet America's New Dilemma explores and demystifies the politics in which the gulf between the inner city and suburbia have come to signify not only a socio economic dividing line but a new socio cultural divide as well
