Readers Quotation:

Shakespeare and Quotation Julie Maxwell, Kate Rumbold, 2018-04-26 Shakespeare is the most frequently quoted English author of all time. Quotations appear everywhere from the epigraphs of novels to the mottoes on coffee cups. But Shakespeare was also a frequent quoter himself of classical and contemporary literature, of the Bible, of snippets of popular songs and proverbs. This volume brings together an international team of scholars to trace the rich history of quotation from Shakespeare's own lifetime to the present day. Exploring a wide range of media including Romantic poetry, theatre criticism, novels by Jane Austen, Thomas Hardy and Ian McEwan, political oratory, propaganda, advertising, drama, film and digital technology, the chapters draw fresh connections between Shakespeare's own practices of creative reworking and the quotation of his work in new and traditional forms. Richly illustrated and featuring an Afterword by Margreta de Grazia, the collection tells a new story of the making and remaking of Shakespeare's plays and poems. The Sense of Quoting David W. Odell-Scott, 2018-07-17 In The Sense of Quoting Odell Scott argues that the neutral continuous script of ancient manuscripts of the Greek New Testament composed with no punctuation and no spacing provided readers discretionary authority to determine and assess the status of phrases as they articulate a cohesive and coherent reading of the script. The variety of reading renditions, each differently scored with punctuation, supported the production of quotations. These cultivated and harvested quotes, while useful for authorizing sectarian discourse, rarely convey the sense of the phrase in the continuous script. Augustine's work on punctuating the scriptures in service to the production of plainer quotable passages in support of the rule of faith is addressed. Odell Scott's textual analysis of a plainer quotable passage at verse 7:1b concerning male celibacy supports his thesis that plainer passages are the product of interpretative scoring of the script in service to discursive endeavours. To quote is often to misquote. Medicine in Quotations Edward J. Huth, T. J. Murray, 2006 Who was the first to write about a certain disease, diagnose it and treat it? This book answers those questions for a wide range of diseases from Abetalipoproteinemia to Zollinger-Ellison syndrome. What were the medical practitioners of previous generations hoping to achieve? What were their patients expecting of them? The answers are found in these quotations. Containing over 3,000 entries and now updated with more than 450 new quotations, this new edition of Medicine in Quotations is the most comprehensive collection of its type published in over 30 years. It is much more than a random collection of famous sayings relating to sickness and health, disease and treatment; it is a portrait of medicine throughout recorded history. You will discover how medical concepts and practices have developed and shifted through the millennia and how many illnesses recognized today were first identified a thousand or more years ago. Quotations are organized by topic and each is fully referenced, allowing curious readers to return to the original source. Subject and author indices make it easy to find quotations of interest. Medicine in Quotations is an invaluable resource for writers, speakers and all those interested in the history of medicine. Quotes to Inspire Great Reading Teachers Cathy Collins Block, Susan E. Young Adult and Canonical Literature Paula Greathouse, Victor Malo-Juvera, 2021-03-10 In the last decade alone the world has changed in seismic ways as marriage equality has been ruled on by the supreme court social justice issues such as metoo and BlackLivesMatter have arisen and issues of immigration and deportation have come to the forefront of politics across the globe Thus there is a need for an updated text that shares strategies for combining canonical and young adult literature that reflects the changes society has and continues to experience The purpose of our collection is to offer secondary 6 12 teachers engaging ideas and approaches for pairing young adult and canonical novels to provide unique examinations of topics that teaching either text in isolation could not

afford Our collection does not center canonical texts and most chapters show how both texts complement each other rather than the young adult text being only an extension of the canonical Within each volume the chapters are organized chronologically according to the publication date of the canonical text The pairings offered in this collection allow for comparisons in some cases for extensions in others and for critique in all

The Rhetorical Functions of Scriptural Quotations in Romans Katja Kujanpää, 2018-10-02 Quotations from Jewish scriptures play a crucial role in the Letter to the Romans The Rhetorical Functions of Scriptural Quotations in Romans explores their rhetorical functions in Paul's argumentation It offers a careful text critical analysis of the 51 quotations in Romans and asks questions such as does Paul quote accurately according to a wording known to him or does he adapt it himself Moreover to what extent does Paul strive to preserve the sense that the quoted words have in their original context Katja Kujanpää's approach of combining rhetorical matters with close textual study results in a more comprehensive picture of quotations in Romans than has been previously seen Thus the book opens new perspectives on Paul's argumentation rhetoric and theological agenda

Reading Job Intertextually Katharine J. Dell, Will Kynes, 2012-12-20 This volume fills an important lacuna in the study of the Hebrew Bible by providing the first comprehensive treatment of intertextuality in Job in which essays will address intertextual resonances between Job and texts in all three divisions of the Hebrew canon along with non canonical texts throughout history from the ancient Near East to modern literature Though comprehensive this study will not be exhaustive but will invite further study into connections between Job and these texts few of which have previously been explored systematically Thus the volume's impact will reach beyond Job to each of the intertexts the articles address As a multi authored volume that gathers together scholars with expertise on this diverse array of texts the range of discussion is wide The contributors have been encouraged to pursue the intertextual approach that best suits their topic thereby offering readers a valuable collection of intertextual case studies addressing a single text No study quite like this has yet been published so it will also provide a framework for future intertextual studies of other biblical texts

Correspondence and Disquotation Marian Alexander David, 1994 They reject the correspondence theory insist truth is anemic and advance an anti theory of truth that is essentially a collection of platitudes Snow is white is true if and only if snow is white Grass is green is true if and only if grass is green According to disquotationalists the only profound insight about truth is that it lacks profundity David contrasts the correspondence theory with disquotationalism and then develops the latter position in rich detail more than has been available in previous literature to show its faults
