Truth Between the Lies Aaron McDaniels,2016-02-26 This remarkably eye opening book for anyone interested in comparative religion history and human psychology may find many surprises that challenge what many once believed to be absolute truths This work reflects a meticulous and painstaking effort to present the findings clearly concisely and thoroughly as a result of the study of comparative religious ideas history and the psychological effects which impact adverse results in our present day thinking and correcting errors that crept into history This effort is not intended to deride people and certainly not to mock anyone s beliefs The intent is obviously to point out false charges misconceptions and outright lies are in themselves deriding and mocking and a most odious thing This book should prove to be a very valuable asset to mankind People should be aware of what in fact has been taught to mankind as a result of studying this book which efforts to dispel darkness upon us all May Gods Peace and Blessings Be With You All
